

As we all know summer can be a challenging time for young people. The consistency of their support changes as they are not at school for a long period of time and staff they are familiar with, take their holidays.

Targeted Youth Support are running the Summer Support Hub again this year during the summer holidays. Family support workers, social workers and early help officers can refer young people they are working with if they feel that this support is needed.

Young people will be offered access to activities, food and youth work support with guidance from qualified Youth Workers.

This opportunity is for young people aged between 11 -18yrs

Please complete the referral form on the back and return to
clairecrawford@warwickshire.gov.uk

If you have any questions please email Claire Crawford or call 01926 428142
