## Acute Liaison Nurse Learning Disability

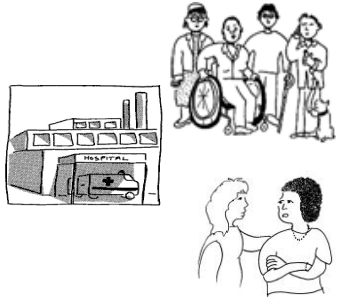

We work in hospitals to help the staff and doctors care for you when you are ill.

We work with and help other services deliver the right healthcare to people with a learning disability.

We can work with you and your family or carers when you are in hospital.

We put on training for service users, families, carers and staff about how to look after your health.

We work with Doctors, Nurses, Dentists and Opticians to understand the needs of adults with a learning disability.

We support and advise on your rights in relation to the Mental Capacity Act (2005) and support the hospital to work within the Act.

We help adults with a learning disability to access healthcare.

We have developed and supported the use of the 'Hospital Passport'.
