(ii) Toileting (including in relation to menstruation);

(iii) Washing or bathing;

(iv) Dressing;

(v) Oral care;

(vi) The care of skin, hair and nails (with the exception of nail care provided by a chiropodist or podiatrist);

and (b) The prompting and supervision of a person to do any of the types of personal care listed above, where that person is unable to make a decision for themselves in relation to performing such an activity without such prompting and supervision.
