24th October 2023

Advance Notice of Works – Cycle Route (NCN21) Improvements - Proposed Toucan Crossing – A425 Radford Road, Leamington Spa.

Dear Resident,

I am writing to give advance notice of planned works in connection with the above project.

As part of the ongoing highway and road safety improvement works in the area, Warwickshire County Council will be installing a new Toucan crossing facility in the location shown on the plan over the page.

The work is planned to start on **Monday 6th November** and is anticipated to be complete by early December 2023.

To help minimise disruption and inconvenience to residents and through traffic the working hours will be restricted to 9.30am until 3.30pm (Monday to Friday). Temporary 2-way traffic signals will be in operation to allow the works to be undertaken safely.

The works will include the widening and resurfacing of the existing footways on both sides of the road, between the Newbold Comyn Nature Reserve Car Park and the steps leading to the canal towpath near No. 206, Radford Road. This work will require sections of the footway to be closed for a short period and pedestrians diverted to the opposite footway. During the final stage of the works, the road will be resurfaced at the crossing, this work will be carried again done under temporary traffic lights. Access to residential properties / driveways will be maintained throughout the course of the works.

The works will be undertaken by the County Council's Highways Contractor – Balfour Beatty Living Places. If you have any queries or concerns over the works while they are being carried out, please contact the Duty Manager on 03452 415302.

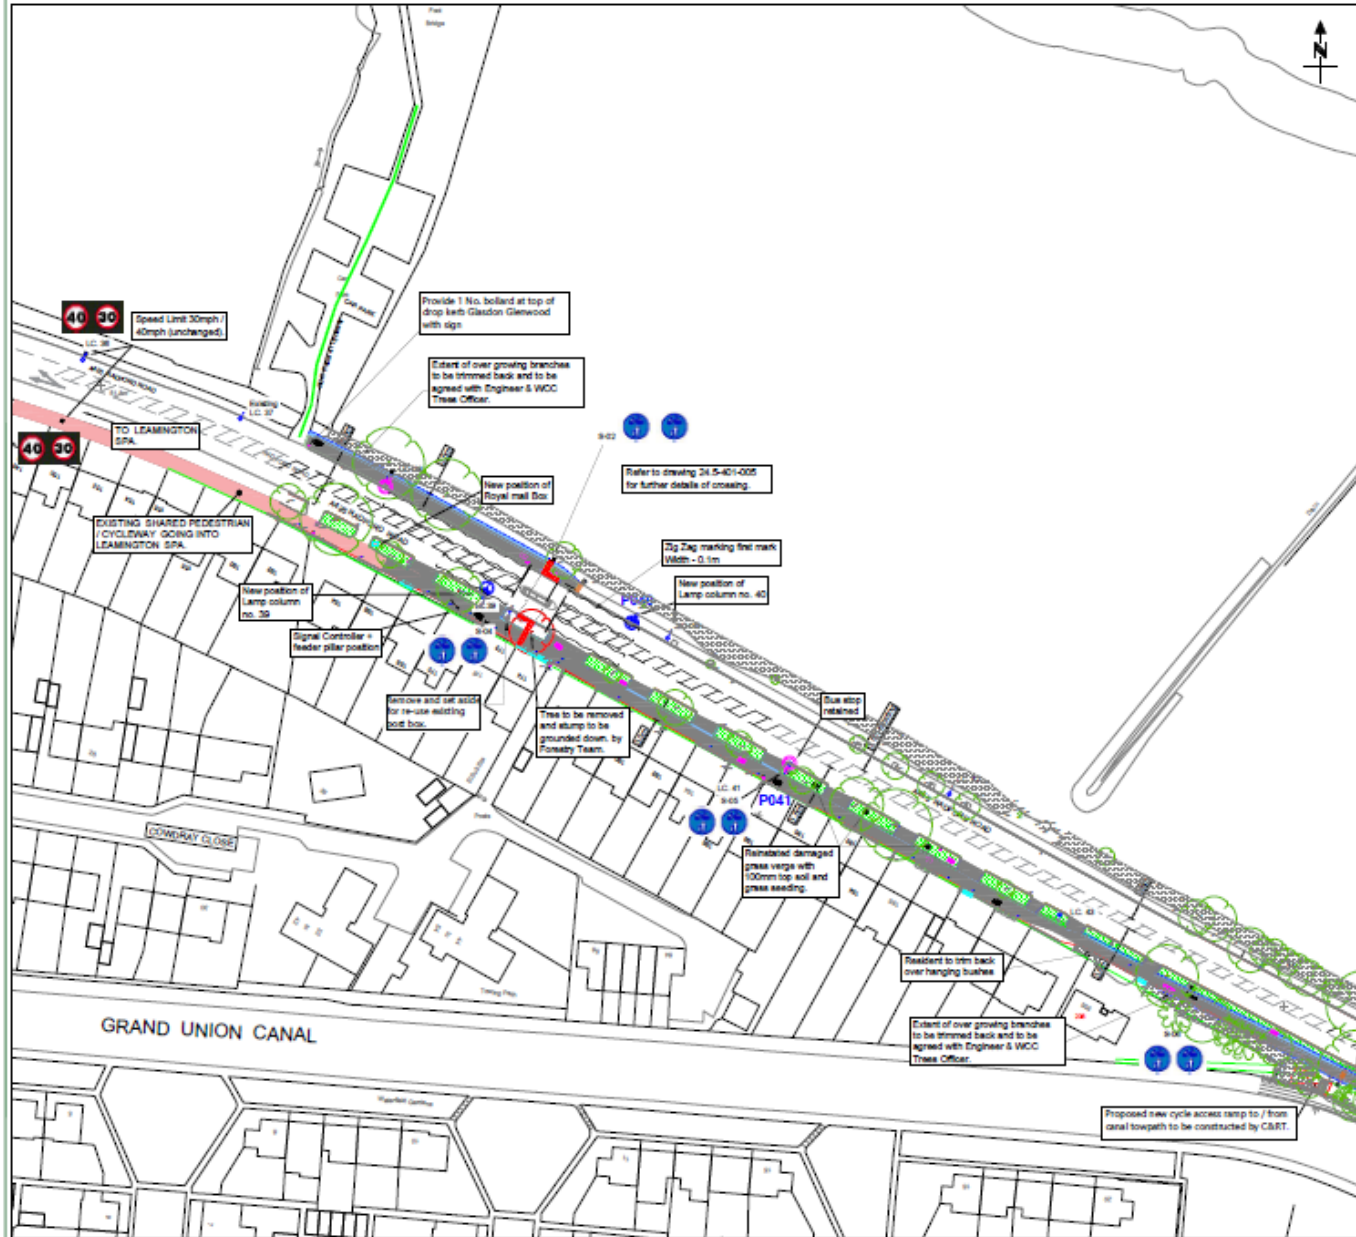

Yours sincerely
H. Solanki
