

COVID-19 Vaccine

Protect yourself and others

Getting a COVID-19 vaccine when it is your turn is the best defence against the virus.

Facts:

- There is no evidence that the vaccine will affect fertility
- The vaccine does not change your DNA or include any tracking device
- The vaccine does not contain the live virus that causes COVID-19
- The vaccine does not contain any gelatine, egg, or animal products

For more information visit www.nhs.uk/coronavirus

It takes two doses to be fully protected, so remember:
