

Key Behaviour Messages

Since July 19 the COVID-19 restrictions have eased, and life may begin to return to normal.

We are all still living with COVID-19 and we encourage you to do the right thing to keep each other safe:

- Continue to follow #HandsFaceSpace
- Get tested regularly
- Get both vaccine doses for the best protection

COVID-19 is still present in our communities, even after restrictions were eased on July 19.

Let's do the right thing for each other and play our part to protect each other.

Face coverings and social distancing may no longer be compulsory, but they will still protect us.

Getting both doses of the COVID-19 vaccine will give you the best protection against the virus.

Regular testing will help to identify positive cases and break the chain of infection in our communities.

Thank you for keeping each other safe by continuing to wear face coverings in crowded areas such as shops and public transport.

Be kind and considerate to others who may wish to take a more cautious approach as restrictions are lifted.
