

THIS IS OPPORTUNITY

Harley and William are apprentices at Warwickshire County Council in the Forestry team. They both joined in September 2022, and have both undertaken a comprehensive induction and training programme and are key members of the team.

"I've gained a lot of new knowledge from this apprenticeship, but probably the most important thing has been learning to work well with others. I have been learning new things every day and am quickly becoming better at a job I'm very interested in." **Harley**

"The people I work with are very supportive and offer help and advice, so if you always have someone to talk to if anything is worrying you. If you are considering a career at WCC I'd say, go for it!" **Harley**

"Like Harley said, working with others has been a great learning opportunity for me, as well as how the arboriculture industry works and how I can work within it. I enjoy working with different teams to learn from a variety of people, and the climbing, of course!" **William**

"WCC provides you with all the experience and materials to succeed, helping you to go from strength to strength in your chosen career." **William**

Start something brilliant. Start your career as an apprentice at Warwickshire County Council.
