

THIS IS OPPORTUNITY

Josh and Olivia both joined Warwickshire County Council in Autumn 2022. They work in the Warwickshire Music, the team responsible for providing music education services and opportunities in schools and Music Centres across Warwickshire.

“During my time at Warwickshire County Council, I have learnt many valuable skills such as data analysis and data entry which have opened a door for me to walk confidently into a career path in Music. Working as an apprentice Business Support Officer means that I get to interact with lots of different people, especially when planning music events.” Josh

“I was looking for jobs in music and knew that the university route wasn't for me. When I came across this apprenticeship, I just had to apply. Not only was it in music, it was local and I could be in the office daily which is ideal for me.” Olivia

“I would say doing an apprenticeship at WCC has been a great way to kick start my career. I meet lots of new people; I meet parents and students at events and get to see the result of our hard work and I gain new knowledge every day.” Olivia

Start something brilliant. Start your career as an apprentice at Warwickshire County Council.
