

WHAT IS THE UNIVERSITYGO! PROGRAMME?

UniversityGo! is a multi-partner programme working with young people in years 7-9, in Local Authority Care, to support their educational progression and help them recognise their potential. Students have access to the programme for a cycle of three years, joining at the start of Year 7 and finishing at the end of Year 9.

UniversityGo! focuses on giving young people an insight into university life, supporting students to develop resilience, self-confidence and efficacy in their education, engaging students in types of learning that they may not experience through school, and supporting the students to build essential skills such as team work, communication and research.

The programme is split into two different types of provision:

-  1 to 1 mentoring with a trained student ambassador currently studying at university
-  On campus academic taster sessions and masterclasses giving students an opportunity to meet others on the programme whilst learning new skills and gaining exposure to Higher Education.
