We are so excited to invite you to join Think Active and the Coventry, Solihull & Warwickshire Virtual Schools programme to experience our first ever groundbreaking HADO Virtual Reality Event.

HADO is the worlds first Technosport

Merging the best of physical sports and esports together to create a high intensity physical sport with the level playing field of a computer game.

A sport where size and strength do not decide the winner, instead factors that everyone has an equal ability to train are key.

No disconnection from reality.

No complex controls, just intuitive movement.
