Specification for the Structural Maintenance Manual

Where a highway structure has been constructed or modified as part of a roadworks scheme, a Structural Maintenance Manual shall be produced as a separate document informed by or incorporating parts of the Health and Safety File that are relevant to the structure. The Structural Maintenance Manual shall be in a format to be agreed and as a minimum contain the following elements:

a) Cover page, with Structure Name, ECC (Engineering and Construction Contract) Number and date when completed.

- b) List of contents.
- c) Location plan and grid reference.
- d) Copy of accepted Approval in Principle form complete with TA Schedule and Appendix.
- e) Copy of accepted Design and Check Certificates.
- f) Copy of Construction Compliance Certificate.
- g) Description of structure with general arrangement drawing.
- h) Copy of any licenses required for construction.
- i) Plan showing the highway boundary, and any agreement for access for future inspection and maintenance.
- j) Details of any plant running over or under the structure.

k) Details of construction methods used for the structure where these may have health and safety implications for future work.

I) Details of materials used in the construction of the structure where these may have health and safety implications for future work.

m) Details of specific maintenance requirements and procedures for the structure.

n) Details of access to the structure for inspection.

o) List of designers, principal designer, principal contractor, subcontractors and suppliers for all work and materials used in the construction of the structure, together with their addresses.

p) List of As Constructed drawings.

q) Copies of test results and certificates (cube results, Agreement Certificates etc.) for all materials used in the construction of the structure.

r) Copies of proprietary products brochures and pamphlets (annotated).

s) If applicable, a diagram showing minimum headroom over carriageways, footways and central reserve.

t) Photographs showing the bridge elevations and the road scene.

u) Copies of the Legal Agreements, Wayleaves and Licences permitting access to private land for future inspection and maintenance activities.

v) Details of all known utilities' apparatus.

w) Details of ecological features, specifically mounted on or part of structures.
