

Transforming Nuneaton highway improvements

Update 27 August 2026 - Justice Walk Car Park full closure

Work on the Wheat Street site is progressing well and according to the programme, and our contractors anticipate that the works will be completed in winter 2026/27 as planned.

In our February 2026 update, we advised that 'As part of these works and future development of the site the Justice Walk Car Park will be closed at the start of work, and alternative car parking is available at Grayson Place, at the Ropewalk Shopping Centre and at Harefield Road Car Park.'

Further to this, in our April 2026 update we advised that 'Justice Walk Car Park will be closed except for Blue Badge holders. If required, the ticket machine will remain operational.' This closure would be in place from 5 May 2026.

An additional contractor will now be moving into the area to work on the new library building. As there will be additional plant movements in the area the continued use of the Blue Badge Holder bays by the public would create an unsafe environment for both members of the public and the contractor.

Therefore, for the safety of all involved, the Blue Badge Holder bays in Justice Walk car park will close in full as of 1 September 2026.

We would kindly ask that those who require Blue Badge Holder spaces use the alternate parking facilities available at Grayson Place, Ropewalk Shopping Centre or Harefield Road Car Park, as well as on-street spaces available in nearby Bond Gate and Coton Road.

We understand, and apologise for, the inconvenience this is likely to cause, and are committed to working closely with our contractors to ensure any disruption is kept to a minimum. The safety of members of the public and our contractors is our top priority, and please be assured that the decision to close the Blue Badge Holder spaces has not been taken lightly.

All project updates can be viewed in full using the links in the 2026 updates section on this webpage.
