About Warwickshire Library and Information Service

The Library and Information Service is a vital community resource available to everyone whatever their age, tastes, needs and interests. Our libraries are comfortable welcoming places open throughout the week and weekends, with our mobile libraries taking much needed resources to rural and urban areas.

Our aim is to provide a service, which offers the people of Warwickshire, libraries that they value and use on a regular basis. Reading and learning, lending, and reference along with online services will be at the core of what we offer, and our libraries will become centers of excellence and remain at the heart of the local community. We will be the “front door” for local council and community services countywide.
