Subject: WCC ref E55575-my objections

Hi,

I took ownership of 3 Townesend Cl, Warwick CV34 5TT in January '23 and came to learn about the plans for A429 Coventry Road, Warwick - Shared Use Cycle Track shortly afterwards.

I would like to register my objections please.

We are a very young family and I am highly concerned that the proposed cycle track with lighting will result in a loss of privacy for us and we will feel less safe. With the lighting, for example, people will have a clear view of the 1st floor of our house. This could also result in unwelcome loitering at the rear of Townesend Close.

The trees that are present between the rear of my house and Coventry Road give us a degree of privacy, which is highly needed. I am concerned that the clearance of these trees to build the cycle track will also result in an additional loss of privacy and will make us feel even less safe. For e.g. the cars waiting at the traffic lights at the BP garage will have a clear view into our house also.

Me and my family suffer from asthma and the removal of these trees will result in more pollution from Coventry Road traffic reaching our house as the trees will no longer be there acting as a barrier. This will make our asthma worse.

I hope my objections are taken into consideration.

Regards,

Hamza Malik
