

Support for furloughed workers

If you have been furloughed we can support you by:

- providing tailored support based on your individual needs
- supporting you to identify and develop skills relevant to your future plans
- identifying and supporting you to access online learning opportunities in support of your career goals
- providing advice and information on interview skills, job application techniques, skills assessments and helping to identify your transferable skills
- helping you to adapt to new ways of working and communicate utilising various digital platforms
- signposting you to other services to support your general wellbeing or financial needs.

All support will be provided by a qualified careers adviser, and you will receive an action plan identifying your next steps.

You can access support through one-to-one telephone appointments, email, online workshops and webinars.
