

Apprenticeships in Coventry & Warwickshire

Apprenticeships offer a route to harness fresh new talent and are a valuable way of improving the skills of staff and generating a committed workforce.

Developed by employers for employers, apprenticeships are available for over 1,000 different job roles and deliver skills designed around business, providing a skilled workforce for the future whilst making organisations more effective, productive and competitive.

What is an apprentice?

A contracted employee who is expected to be employed for a minimum of 30 hours a week, whilst working towards an Apprenticeship Standard.

Designed by employers, the Standards outline skills, knowledge and behaviours required of the apprentice and the job they need to be able to do by the time they have completed their apprenticeship.

The Apprenticeship will contain:

- Knowledge and competency based elements
- Training to achieve the Minimum English and Maths requirements and any digital skills required
- Behaviours needed in the occupation, so that on completion the apprentice is able to competently carry out the role in any size of employer across any relevant sectors.
- Most of an apprentice's time will be spent in the workplace, as the majority of training takes place on the job.

Benefits of apprenticeships include:

- Cost effective recruitment
- Well trained and motivated staff
- Increased productivity and performance
- Proven return on investment
- Succession planning
- Committed and loyal staff
- Support for training cost

Contacts

If you're interested in taking an apprentice you can contact one of the providers listed or talk to our Business Skills Advisor who can offer free and impartial advice to help you decide if apprenticeships are right for your business and then connect you with the most appropriate provider.
