Quarter Sessions Minutes name index

1800-1900

The index is arranged alphabetically by surname and forename and then by year. There are two levels of contents page to help you navigate the list. Use these pages to narrow your search down to the first three letters of the surname you are looking for. You can then browse the document to find any or all relevant entries.

To search for the name "Ivens" for instance:

- From the title page click on "I"
- Scroll down the contents page to find and click on "Ive"
- Scroll through the list of names to find any relevant entries

Alternatively you can search within the index using Find (ctrl - F).

The index provides the surname, forename and year, as well as an indication of the kind of entry (Court Business, Administration or Trial). You will also see the reference number and page number to allow you to view the full entry in our searchroom, and an ID number which can be used to order a copy of the relevant entry.

The entries in the index are classified into one of three types: Trial, Court Business or Local Administration. Trial covers all criminal proceedings (as well as some matters which would not be considered criminal today). Court business relates to such things as appointments and resignations to committees of the Quarter Sessions, committee reports and payment of officers. Local Administration involves other responsibilities of the court, such as roads, bridges, rates and licencing.
