

Job Description

For Engineer Positions

This form is used to provide a complete description of the specific job (or role) and defines the skills, knowledge and abilities required to undertake the specific and generic role profile.

Section A: Specific Role Profile

The specific role profile provides key information relating to the salary and working conditions e.g. location of a job, along with the current focus of the job role and a brief description of the main duties.

Role Details

Job Title:	Street Lighting Technician	JEID	EN001
Salary Grade:	Grade G		
Team:	Street Lighting		
Service Area:	Communities, Transport & Highways, County Highways		
Primary Location:	WCC, County Highways, Old Budbrooke Rd , Budbrooke CV35 7DP		
Political Restriction	This position is not politically restricted.		
Responsible to:	Delivery Lead - Street Lighting		
Responsible for:	This is initially a Trainee post where a supervisory mentor, and both academic and on the job training will be given. After a period of time the successful applicant will be responsible, under supervision, for maintenance and installation work carried out in a small geographic area.		

Role Purpose

To learn, develop, and work as required under the supervision of more senior members of the Street Lighting team, to undertake the maintenance functions carried out by the Street Lighting Service, and manage customers and demand for the service. This is a Trainee post as briefly outlined above.

Role Responsibilities

Dealing with and making responses to any customer contacts regarding street lighting issues, respond verbally and in writing to enquiries from elected members , the public, contractors and utilities etc. to meet Council aims and objectives. Assist with providing good communications to all our customers and stakeholders and promote a good service to all our stakeholders and users of the service. Assist the team, in the preparation and identification of street lighting work, the placing of orders for this work and providing the necessary information to enable these works to be carried out as efficiently as possible. Assist the team, in the preparation, issuing and supervision of work orders, to ensure that the services provided are safe, within budget and that all technical and regulatory responsibilities are met. Utilise the provided IT systems as instructed to ensure maximum efficiency in the execution of duties and responsibilities associated with the post to ensure compliance with current Data protection requirements and including GDPR. To undertake any other relevant and appropriate duties and responsibilities commensurate with the post as required, to ensure that the Council's services are run in a flexible and efficient manner. Provide cover during periods of leave and/or sickness for colleagues within the street

lighting team, should there be a service demand. The postholder will promote the Council's Health and Safety at work policies and ensure these are implemented effectively with their area of works and responsibility. Following the gaining of experience and demonstrating sufficient competency the postholder will be required to be part of the out of hours callout rota for which an additional amount is payable.

****Please Note** - many of the tasks below in the Generic Role Profile demonstrate the level that you would be working in across a number of engineering activities and in street lighting you would not be expected to deal with bridge inspections and other non-street lighting activities that are mentioned.**

Section B: Generic Role Profile

The generic role profile provides a list of the main tasks that cover the broad range of duties and responsibilities performed at this level for the job role. An employee may not be undertaking all of these at any one time, but they could be expected to do so under their contract of employment.

Generic Role Details

Job Role:	Engineer – Level 1
-----------	--------------------

Main Tasks

- To work under the close supervision of more senior officers, delivering simple projects, undertaking straightforward studies, investigations, inspections, assessments, audits and considering applications and claims, including the interpretation and application of technical and planning standards and legal requirements, provision of briefing notes / technical reports as necessary and to assist with the supervision of contractors and consultants undertaking simple routine work.
- To assist with the supervision of contracts and consultant commissions and support the development and supervision of a range of transport/ engineering schemes and projects, providing technical support / information including assessing construction risk and safety implication of proposals, completing CDM documents, issuing prequalification questionnaires to contractors and issuing works instructions.
- To assist with the monitoring of costs and budgets for transport projects or engineering works or other procured services.
- To undertake routine monitoring, maintenance and responsive activities across all disciplines, prioritising and arranging remedial actions as necessary *e.g.*
- addressing minor traffic management problems
- assessing the condition and safety of the highway

- undertaking general bridge or site inspections
- To undertake a wide range of engineering or transport planning processes and procedures requiring checking, analysis, interpretation of information and interaction with stakeholders as necessary, including issuing of routine statutory notices and work required to support legal processes *e.g.*
- traffic Regulation Orders
- section 38 / 106 and 278 Agreements and other planning related matters
- highway licenses and 'stopping up' notices
- To undertake day to day maintenance and updating of records, registers, inventories, plans and other information to ensure that information, databases and contacts are accurate and complete, including the investigation and resolving of queries as relevant.

- To carry out straightforward planning or design for transport projects or engineering works using CAD or mapping software to produce drawings and plans with due regard to design standards, policies and regulations.
- Attend meetings to deal with straightforward issues, to provide information and advice and to obtain views of partners/ stakeholders and to provide support to more senior officers at meetings with elected Members, public and stakeholders, to undertake consultation, provide information and advice and answer routine technical and policy questions and assist senior officers with writing committee reports.
- To deal with a range of routine customer enquiries complaints and associated correspondence, including the provision of advice and carrying out minor investigations as necessary e.g. responding to highways insurance claims.

Section B: Person Specification

The person specification provides a list of essential and desirable criteria (skills and competencies) that a candidate should have in order to perform the job.

Each of the criteria listed below will be measured through; the application form (A), a test / exercise (T), an interview (I), a presentation (P) or documentation (D).

Essential Criteria

Assessed By:

NVQ Level 3 or equivalent in a relevant subject	I A D
The ability to independently interpret and analyse varied and complex information or situations.	I Ai
The ability to communicate, in person and/or writing, complicated or sensitive information with varied audiences	I A
Have experience of using ICT including relevant Engineering/Transport Planning systems e.g. CAD	I D
To be able to use own initiative to respond independently to problems and unexpected situations	I D
The ability to work under pressure including meeting deadlines and dealing with interruptions	I A
The ability to cope in situations where there is an emotional demand arising from the work being undertaken	I A
Experience of contributing to the development of Engineering/Transport Planning Policies and Procedures	I A
The ability to co-ordinate a number of elements within a project plan.	I A

Desirable Criteria

Assessed By:

Experience of working in a street lighting environment would be desirable but not essential as this is a trainee post.	I A
Experience of working in a Highways environment would be desirable but not essential as this is a trainee post.	I A

Section C: Working Conditions

The working conditions relate to those non-contractual elements of the job that may impact on the holder of the position, as well as those workplace-based responsibilities that are part of this job. These are not contractual but provide a guide to the working conditions and the potential hazards and risks that may be faced.

Health & Safety at Work

To take responsibility for your own health, safety and wellbeing, and undertake health and safety duties and responsibilities for your role as specified within Warwickshire County Councils Health and Safety Policy, and all other relevant health and safety policies, arrangements, procedures, systems of work as specified for the post/ role.

Potential Hazards & Risks

The potential significant hazard(s) and risk(s) for this job are identified below (those ticked). The purpose of recording this information on the job description is so that the health status of the potential and actual post-holders can be assessed with regard to the significant hazards and risks. These hazards and risks should be based on the appropriate activity, process and/or operation risk assessment whereby all of the significant risks are identified, recorded and appropriately controlled. The list below is therefore not an exhaustive list because it is the risk assessment that details all significant risks that could arise out of or in connection with the work activity, but any others will be identified in the 'other' section.

<input type="checkbox"/> Provision of personal care on a regular basis	<input type="checkbox"/> Driving HGV or LGV for work
