

Are you thinking of creating your very own Safe and Active Travel website?

Schools with primary-aged children across Warwickshire have taken part in the Safe and Active Travel Programme since 2020. Each year we work with a range of schools around the county who share their work to promote safe and active journeys.

Schools have wanted to share their work with their communities by creating their own webpages. Take a look at some of the examples below:

Shottery St Andrew's Primary School (Stratford-upon-Avon)
