

Integrated Disability Services training and resources for Warwickshire education settings

Warwickshire County Council and Health have been working collaboratively with schools and Warwickshire Parent Carer Voice to develop a training model to support provision for Special Educational Needs and Disability (SEND) in education settings. **This information is focused on the training relating to children and young people with one or multiple of the following needs: hearing impairment, vision impairment, complex need, or physical need.**

The training listed over the next few pages is available to Warwickshire education settings through the Integrated Disability Service when an appropriate referral has been provided for a child or young person.
Training is free and bespoke to each child or young person.

Please contact IDS for further details: idsteachingandlearning@warwickshire.gov.uk
