Public Health Specialty Research Meeting

Following on from our previous specialty group meeting on **13 June 2017**, as well as providing a learning forum where good practice can be shared, the group agreed that future meetings should include discussion of new ideas and development of 'home grown' research.

We would welcome you bringing along any Public Health research ideas that would benefit from discussion. This could be a new idea or research at feasibility/pilot stage that could lead on to larger NIHR portfolio studies.

This will also be a good opportunity to meet Clinicians that have previously been involved with NIHR CRN portfolio Research.

As such you are invited to attend the next meeting which is to be held as follows:

Date: Tuesday 23 January 2018

Time: 14:00 - 16:00

**Location: Aluminium Room - Institute of Materials, Minerals and Mining,
12 Stoke Road, Stoke-on-Trent ST4 2DR**

To register your interest, or If you have colleagues that would also be interested in attending this or future meetings, please email contact details to Dr Andrea Shilton (CRN West Midlands – Division 5 Research Delivery Manager)

Andrea.Shilton@nihr.ac.uk

Or Nathan Smith (CRN West Midlands – Division 5 Administrator)

Nathan.Smith@nihr.ac.uk
