Warwickshire

Launch date – May 1st

Welcome to change, grow, live

From 1st May 2018 change grow live will take on the delivery of adult and recovery network substance misuse services across

Warwickshire. Compass will continue delivery of the Children and Young People's substance misuse service, and we will be working in close partnership.

We are a national charity whose mission is to help people change the direction of their lives, grow as a person and live life to its full potential.

We recognise the important part you play in delivering services. We value your expertise and local knowledge and understand that without you we cannot succeed.

Our service

We will be delivering a recovery-focused service with a full range of treatments and interventions designed to support people to take control of their recovery journey and achieve their recovery goals. Our services will include harm reduction, opiate replacement prescribing, residential and community detoxes, counselling, emotional support and supported access to mutual aid. Support in accessing training, employment and housing will also be available.

Please be assured that our targets are your targets. We are both working towards the same end – the successful recovery of service users. We therefore want to work closely with you to ensure that we develop an effective working relationship that will help us both achieve this shared goal.
