

Notes to accompany SWCSP DHR Overview Report

Further to the issues raised by the Home Office Quality Assurance Panel, the attached overview report has been amended following a DHR Panel meeting (25th March 2015)

South Warwickshire Community Safety Partnership approved these amendments at a meeting on 21st April 2015.

The amendments contained within the report are highlighted. The following notes will hopefully help to guide the panel to these amendments and show how these link to the specific issues raised by the QA Panel.

- 1. The QA panel noted the IPCC report was published in August 2014 and they suggest this should be properly referenced in the final Overview Report.***

For relevant amendments please refer to pages 8, 9, 80, 81 and 93.

- 2. The QA Panel also asked that the final report be updated to include the Coroner's findings.***

For relevant amendments please refer to page 9.

- 3. The report also describes anti-social behaviour by 'E' on pages 25 & 26, however the QA panel suggests that further consideration is required to assess if this was in fact stalking behaviour.***

For relevant amendments please refer to page 74.

There is an additional amendment on page 10 which refers to the DHR panel meeting on 23rd March 2015.
