

BUSINESS/EDUCATION CONTACTS

NUNEATON AND BEDWORTH

The benefits to businesses of recruiting young people directly from schools and colleges are widely recognised. The purpose of this Business/Education Contacts is to link businesses with local secondary schools so they can consider ways of working together for mutual benefit.

- Businesses can save around £5,000 each time they recruit in this way (ACAS recruitment guide).
- More than 1,000 young people aged 16 -18 leave Warwickshire schools and colleges each year. Many more young people aged 19+ complete vocational courses at colleges and seek work.
- Many more 'A' level students are choosing a job with further training instead of going to university.

School	Careers named contact	Careers contact's e-mail address and school telephone number	Type of employer activity looking for	Where would it take place?	Proposed date(s) and time(s)
