

BUSINESS/EDUCATION CONTACTS

WARWICK DISTRICT

The benefits to businesses of recruiting young people directly from schools and colleges are widely recognised. The purpose of this directory is to link businesses with local secondary schools so they can consider ways of working together for mutual benefit.

- Businesses can save around £5,000 each time they recruit in this way (ACAS recruitment guide)
- More than 1,000 young people aged 16-18 leave Warwickshire schools and colleges each year. Many more young people aged 19+ complete vocational courses at colleges and seek work
- Many more 'A' level students are choosing a job with further training instead of going to university.

School	Careers named contact	Careers contact's e-mail address and school telephone number	Type of employer activity looking for	Where would it take place?	Proposed date(s) and time(s)
