	People think a programme slows everything down! When it is very complex they are not coordinated and go off in different directions; a Programme brings that together.					
	when w Specific	ramme becomes an empire. Why spend money on it and it's staffing, we need more workers for day to day jobs? c skills and a certain level of objectivity, together with a stepped ch work to ensure success of a change process.				
	Some projects within the Programme have by necessity had to start but now that the Programme Manager is in place a more co-ordinated approach can be taken. The group felt reassured that the Programme must go through stages/ step by step method.					
	and if necessa the timelines, s analysis. It is a	egnised risk management/process. Issues can be raised at any point ry escalated by Fiona up to Corporate Board. There are critical points in stopping points where the Programme needs specific information, staged process; can keep a gate shut until other related elements are at Stage 1 of the Programme. 	 One Team Develop through restructures, efficient processes, closer team working, co- location and understanding each other's service offers. 	
	 Children Looked After (CLA) Using existing resources effectively. An important part of the project is to increase capacity overall. Staff retention is equally important as recruitment. Caseloads need to reduce. 	
	These 3 projects won't deliver on their own; they are dependent on each other. The Programme needs to keep them coordinated and manage the interdependencies.	
	Not all the savings can be made from these 3 projects alone. Keen to have ideas for small schemes which can make a difference e.g. buying annual leave. Will be taking a few small schemes to SLT for agreement to try it for 8 weeks and stop it if it doesn't work and do another one, something like 6 really good ideas a year done.	
	You said, We did: An important part of this group is to ensure that when questions are asked, a response is given. All issues are logged and Gill & Graham follow them up. We have summarised some of the key items on the sheet accompanying these minutes.	
	Further information will be fed into each meeting as responses are received to earlier questions.	
	Children & Families Transformation Staff Engagement Group Terms of Reference, roles and responsibilities and a Job Description are important factors in helping representatives understand their remit.	
	An important role of the programme is getting things done and group members will have an increasing role in supporting the changes necessary.	
	Group Members Feedback:	
	BIf staff don't understand the 'As is', they won't have any faith in the 'To be'.	
	Staff feel that change is forever happening, we don't get full stops.	
	Staff don't believe that an evaluation and review process happens.	
	Subscription There doesn't seem to be any learning from previous projects.	
	We need to be confident that Beate has heard our messages; when we feedback, people always ask are 'they' actually listening.	
	We need to sell it – "you can have a say, you're voice will be heard!
