SECTION 1: INTRODUCTION AND RATIONALE

INTRODUCTION

This document advises on Warwickshire County Council's (the 'Local Authority') process regarding educating pupils outside of their chronological year group. This relates to children where a request is received for them to be educated outside of their normal age range year group; that is that they are educated in the year group below, or the year group above, of their chronological age.

This document applies to all schools where the Local Authority is the Admissions Authority: ie: all Community and Voluntary Controlled schools. Where the school is located within Warwickshire but is its own Admission Authority - for example, Voluntary Aided schools or Academies - the Local Authority will refer to this guidance as part of the coordinated scheme, but will also strongly recommend that the guidance is endorsed by own admission authority schools in the process of In-Year admissions.

This document does not relate to situations where pupils are in mixed-age classes. Mixed age classes are where pupils may be taught in a class where a number, or even the majority, of pupils are in an adjacent year group. As long as this arrangement will not affect the age at which the pupils will transfer to the next key stage in their education, then the pupil is not considered to be 'educated outside of his/her age group'.

RATIONALE

The Local Authority's (LA) policy is that pupils should be educated in the year group appropriate to their chronological age, for the following reasons:

- The LA is concerned with the development of the *whole child*. This includes physical and emotional maturity, the development of social and interactional skills and the pupil's ability to respond to a curriculum which is age-appropriate, as well as suited to his/her abilities.
- The LA promotes and provides *inclusive* teaching. Teachers are expected to match the pupils' learning objectives and the learning activities planned to the abilities, aptitudes and individual needs of pupils.
- The Early Years Foundation Stage Curriculum and the Programmes of Study in the National Curriculum incorporate flexibility within, and between, each key stage in order to support a diverse range of pupils' needs. Where a pupil's abilities are significantly out of step with other pupils of his/her age, then individual provision should be planned. This could include addressing any special educational needs. In almost all cases, such individual provision will be made within the pupil's own year group.
- The SEN Code of Practice outlines a 'graduated response' of special provision, assessments and review within schools which does not normally require pupils to be educated out of their correct year group.
- Pupils have an entitlement to the Early Years Foundation Stage curriculum and the Programmes of Study of the National Curriculum, designed for their age

group. The LA and all schools within this authority have a legal duty to make sure this is available.

- When a request is being considered, a long-term view should be taken of the pupil's educational needs. The LA would wish to avoid the adverse consequences which frequently arise if pupils are educated out of their year group, including the possibility of a difficult transition back into their correct year group at a later date, if this is deemed appropriate. Additionally, pupils taught in a younger year group may be of an age to leave school before they have had the opportunity to acquire external qualifications. They may, in this way, become educationally disadvantaged.
- Teaching an older pupil in a younger year group may well extend the time which he/she spends at school. This will have significant financial implications for the use of public and/or designated funds. The LA has a public duty to resource education equitably and fairly, and the Funding Agreements in place for schools who are their own admission authority will have strict financial guidelines in place.
- Educational research has not demonstrated that accelerating more able pupils into older age-groups is in their best interests. Such acceleration inevitably brings emotional and social pressures which are not conducive to the well-being of the young person concerned. The advantages of accelerating the normal academic milestones, from developments in early years through to public examinations, have not been shown to outweigh the personal and social costs which can be involved.

However, in September 2015 the Department for Education (DfE) wrote to all Local Authorities to advise that the School Admissions Code (2014) would be updated in the near future in respect of the admission of summer born children into schools. Therefore, requests for children who are due to start school can be made to the Local Authority, and those requests will be considered in line with this guidance.

Requests for children to be educated outside of their year group who are already of compulsory school age will be considered on an individual basis, in line with this guidance.

Please ensure that you have read this document in full before submitting such a request.

SECTION 2: THE LAW

All admission authorities are legally required to follow the procedures as set out in the **School Admissions Code** (2014). This document, including any guidance, will be updated as and when such legislation is amended.

The following extracts are taken from the School Admissions Code, in relation to the education of children outside of their chronological year group:

2.17 Parents may seek a place for their child outside of their normal age group, for example, if the child is gifted and talented or has experienced problems such as ill health. In addition, the parents of a summer born child * may choose not to send that child to school until the September following their fifth birthday and may request that they are admitted out of their normal age group – to reception rather than year 1. Admission authorities **must** make clear in their admission arrangements the process for requesting admission out of the normal age group.

2.17A Admission authorities **must** make decisions on the basis of the circumstances of each case and in the best interests of the child concerned. This will include taking account of the parent's views; information about the child's academic, social and emotional development; where relevant, their medical history and the views of a medical professional; whether they have previously been educated out of their normal age group; and whether they may naturally have fallen into a lower age group if it were not for being born prematurely. They **must** also take into account the views of the head teacher of the school concerned. When informing a parent of their decision on the year group the child should be admitted to, the admission authority **must** set out clearly the reasons for their decision.

2.17B Where an admission authority agrees to a parent's request for their child to be admitted out of their normal age group and, as a consequence of that decision, the child will be admitted to a relevant age group (i.e. the age group to which pupils are normally admitted to the school) the local authority and admission authority **must** process the application as part of the main admissions round, unless the parental request is made too late for this to be possible, and on the basis of their determined admission arrangements only, including the application of oversubscription criteria where applicable. They **must not** give the application lower priority on the basis that the child is being admitted out of their normal age group. Parents have a statutory right to appeal against the refusal of a place at a school for which they have applied. This right does not apply if they are offered a place at the school but it is not in their preferred age group.

** The term summer born children relates to all children born from 1 April to 31 August. These children reach compulsory school age on 31 August following their fifth birthday (or on their fifth birthday if it falls on 31 August). It is likely that most requests for summer born children to be admitted out of their normal age group will come from parents of children born in the later summer months or those born prematurely.*

Any requests received in relation to the deferred entry of **summer-born children** will be considered alongside the following guidance from the Department for Education (DfE):

**“Advice on the admissions of summer born children
For local authorities, school admission authorities and parents”
(December 2014)**

Statutory Assessments

There are statutory assessments, checks and tests which must be completed by all pupils at the end of each phase of education, and the results reported to the DfE.

These may be deferred or taken early, but it could disadvantage the child in some circumstances to do this.

In Primary (and Infant/Junior) schools, statutory assessments occur in the following year groups:

- Reception
- Year 1
- Year 2
- Year 6

Statutory testing occurs in Year 2 and Year 6 of Primary (and Infant/Junior) schools.

Each individual case **must** be discussed with the Statutory Assessment Team, so that parents and schools are clear about the impact of any change to the normal admission procedures. A child who is registered outside of their chronological year group will complete statutory assessments in line with the year group in which they are taught and registered.

Children working outside of their chronological year group **must** be registered in the cohort which they are taught in. Failure by a school to input this information correctly will result in the child being reported as missing when the Assessment Team report to the Department for Education (DfE). The Assessment Team **must** be notified when a child is educated outside of their chronological year group and await written confirmation from that team that the reporting has been amended so that the child will not be reported as missing.

Where a school does not comply with statutory reporting duties, or does not complete these correctly, this will result in incomplete data being submitted to the DfE.

SECTION 3: STARTING SCHOOL

The majority of children will start school, and attend on a full-time basis, in the September following their fourth (4th) birthday. In Warwickshire, children will start their education at this point in the Reception year group.

However, in some cases it may be more appropriate that a child starts school on a **part-time basis** initially, or starts later in the school year – for example, in the Spring term, after the Easter holidays. This is referred to as **'Delayed Entry'**.

There are many reasons that it may be appropriate to delay the point at which a child starts school. These could concern medical issues which a child has, special educational needs which are either confirmed or being assessed, or the child may not be emotionally, socially or psychologically 'ready' to start school during the term after their fourth birthday.

For some children - for example, in the case of some 'summer-born children' (those born between 1st April and 31st August) it may be appropriate to request that the child starts school a year later so that the child is educated in the chronological year group below where they should be. This is referred to as **'Deferred Entry'**.

The Law states that children have to be in full-time education by the start of the term following their fifth birthday. This is referred to as 'compulsory school age'.

REQUESTING PART-TIME ADMISSION FOR CHILDREN DUE TO START SCHOOL

When a child starts school in Reception, the offer of a place is made on the assumption that attendance will be on a full-time basis, from September. However, part-time admission can be agreed in certain cases. This is where the child will still start in Reception in September but will attend for fewer hours, either for a short period or more long-term. Part-time admission could be appropriate for a child who tires easily, possibly due to a medical condition.

An application for a school place **must** be made in line with the coordinated process, and all relevant deadlines adhered to, so that a school offer can be made prior to the request for part-time admission being made by the parent/carer.

This request must be made in writing directly to the head teacher of the school at which an offer has been made and accepted. This may be a preferable alternative than delaying entry until later in the year as it will give the child the opportunity to settle in gradually but they will still be able to make friends and become familiar with the educational setting.

Children who are admitted to a school on a part-time basis are required to complete statutory assessments of the National Curriculum as instructed and timetabled by the DfE, as part of the cohort in which they are taught. This includes the completion of the Early Years statutory assessment at the end of the reception year.

If you wish to combine a part-time school place with any other childcare provider, your child's free entitlement will be used to pay for the school provision. You will need to pay the childcare provider for the hours used at the private provision.

The child must have started attending on a full-time basis by the time they reach compulsory school age.

REQUESTING DELAYED ENTRY FOR CHILDREN DUE TO START SCHOOL

It may be appropriate for a child to start in Reception later in the school year, perhaps due to medical issues or because they are a summer-born child and are just not ready to start school in the September.

An application for a school place **must** be made in line with the coordinated process, and all relevant deadlines adhered to, so that a school offer can be made prior to the request for delayed entry being made by the parent/carer.

This request must be made in writing directly to the head teacher of the school at which an offer has been made and accepted. If a delayed entry is agreed then the school place will be held until the date it is agreed that the child will start school.

This may be a preferable alternative than deferring entry completely until a whole year later as it will give the child the opportunity to settle into Reception, make friends and become familiar with the educational setting, and then be prepared to start in Year 1 the following September.

Children who admitted, after a period of delayed entry, are required to complete statutory assessments of the National Curriculum as instructed and timetabled by the DfE, as part of the cohort in which they are taught. This includes the completion of the Early Years statutory assessment at the end of the reception year.

Where a deferred entry is agreed with the admissions authority The parent/carer is responsible for sourcing any childcare provision which is required prior to the child starting at school later in the academic year, and the child will still receive their free entitlement based on 15 Universal hours or 30 Extended Entitlement hours (eligibility criteria applies) over 38 weeks of the year (annual equivalent of 570 or 1140 hours) until they start school.

The child must have started attending school on a full-time basis by the time they reach compulsory school age.

THINGS TO CONSIDER WHEN APPLYING FOR PART-TIME ADMISSION AND DELAYED ENTRY

Although there may be justifiable reasons why a child should start their education in Reception on a part-time basis or start later in the school year as an approved delayed entry pupil, the parent/carer should give this route careful consideration prior to a request being made.

Part-time admission may mean that the child will miss out on a range of learning opportunities carried out in the Reception class, as well as some of the play-based curriculum. They may also take more time to develop the required physical stamina to meet the demands of attending for a whole school day. Whilst part-time admission will still give the child access to all relevant learning opportunities, there will be less time for the child to practice them, meaning that they may not become as proficient in the relevant learning which forms part of the Early Years' Curriculum. This could also disadvantage the child in statutory assessments at the end of the academic year.

If they are attending any form of early years setting in the time not at school, then the curriculum is the same and the above may not apply. There is no funding for early years placements when a reception place is accepted, but the child does not attend the reception class full-time.

As well as the above, where delayed entry is being considered, it is also worth bearing in mind that this will mean that the child will miss out on a range of class activities which are administered at the start of the Autumn term, which are designed to help the children settle into school life and the routines of the school day. They will also be joining the year group at a later time than the majority of other children so friendship groups and social circles will already be well-established.

Where a child has identified Special Educational Needs and part-time admission or delayed entry has been agreed, it may be the case that funding or support in relation to those needs may not be consistent.

Where part-time admission (or flexi-schooling) has been agreed, any previous agreement in respect of School Transport Assistance may not continue, as these arrangements are usually put in place with contractors who work to normal school hours.

REQUESTING DEFERRED ENTRY

A formal request for **deferred entry** should be made to the Admissions Service in the autumn term of the year before the child is chronologically due to start school. For example, for a child who is due to start in school in September 2017, the request for deferred entry should be made by no later than 1st December 2016.

An application for the child to start school **must** also be completed and sent with the request. This ensures that the child can still be considered for a school place which is relevant to their chronological age group, if the request for deferred entry is denied. If the request is approved then the application will be withdrawn and a new application must be made for the following year of entry, in line with the co-ordinated admission arrangements for that particular year of entry.

Even if a school and /or the local authority agree to your request for a deferred entry there is no guarantee that your child will be allocated a place at any of the schools in your application. This is because in deferring, you are withdrawing this year's application and reapplying in the next year, when the process begins again. However, you can then apply for a reception place even though your child's chronological cohort is with Y1.

The application form, and the form which must be completed in order to request deferred entry, can be found on the website: **www.warwickshire.gov.uk/admissions**

School admission authorities are responsible for making the decision on whether or not a child will be admitted outside their normal age group. The admission authority in the case of community and voluntary-controlled schools is the LA and in the case of academies, foundation, trust, voluntary-aided and free schools, it is the academy trust or governing body of the school.

However, where a child has an Education, Health and Care (EHC) Plan or a Statement of Special Educational Needs (SEN), the decision rests with the Local Authority (LA) and must be confirmed in the Plan/Statement. Admission authorities are required to make a decision based on the circumstances of each case but must give regard to the views of head teacher of the school.

The LA recommends that the decision is made in consultation with the head teacher of the school concerned, as well as the LA, the parents, and all professionals involved with the child. It is therefore in the interest of the parent/carer making the request to communicate with the Head teacher of the school for which they are seeking delayed or deferred entry so that the interests and needs of the child in each specific case are given full and proper consideration.

Amongst the factors that will be taken into account when deciding whether it is in a child's best interest for deferred entry to be agreed are the following:

- If the child shows a delay and/or slow progress in their personal and emotional development;
- If the child has social skills that are not appropriate to their chronological age group;
- If the child shows delay and/or slow progress in intellectual development / educational skills across the subject area, to an extent that it is not reasonable to expect curriculum differentiation within their chronological year group to be successful;
- As a summer-born child, whether the child was also born prematurely and would otherwise have been placed in the subsequent chronological year group;
- If there is agreement from parents and professionals, including the view of the head teacher(s) involved, that agreeing deferred entry would substantially increase the probability of successful inclusion, in the short, medium and long term;
- If there is, in any other way, clear evidence that the child's needs will be met more effectively out of their chronological year group than within it; and/or
- In accordance with the DfE's advice on the admission of summer born children (December 2014), whether the child will have in any event the opportunity to take full advantage of the Early Years Foundation Stage, whether delivered in a school or early years setting, with an emphasis on learning through play.

In relation to all the above, the Admission Authority will seek views of the child's parents and also request to see any evidence that may exist concerning these factors. In all cases 'best interests' decisions will be based on whether, as a result of any of the factors highlighted above, it appears on the balance of probabilities that the child will be better able to progress if placed out of their chronological year group. The Admission Authority should, where relevant, also take into account the following matters:

- The importance of not delaying or losing any interventions required by the child;
- Whether the request relates to any issues concerning differentiated provision in another placement or another class;
- Whether consideration has been given to what will happen in the long-term (for example whether the child will at some point return to their chronological year group, and the risk of the child choosing to leave school before completing Key Stage 4);
- Whether the child will have a peer group in their new class, which is likely to continue to be somewhere that the child can 'fit in' as the cohort matures.

Consideration should also be given, notwithstanding the requirement to make the decision in the best interests of the child concerned, as to whether the request would impact on the ability of other children to attend their school of choice, or on compliance with the law concerning infant class size.

Each individual case must be discussed with the Statutory Assessment Team, so that parents and schools are clear about the impact of any change to the normal admission procedures, and subsequent changes to statutory assessment and testing dates.

THINGS TO CONSIDER WHEN APPLYING FOR DEFERRED ENTRY

Whilst deferred entry may be the most appropriate option for some children, it is worth noting that there will be consequences if such a route is approved. The child will be educated out of their chronological year group and so could be a whole year older than the rest of their peers. This could affect the child on a long-term basis, both psychologically and emotionally, as they mature and begin to recognise that they are different to the rest of their classmates.

Deferred entry may mean an extra year with an alternative early years provider. Whilst the curriculum may be the same as the reception class, the setting will be different. Funding will be available for the free entitlement based on 15 Universal hours or 30 Extended Entitlement hours (eligibility criteria applies) over 38 weeks of the year (annual equivalent of 570 or 1140 hours), until the child starts school.

When your child transfers to Junior or Secondary school, there is no obligation for the next school to adhere to the agreement which was put in place for deferred entry in Reception. If the new school disagrees that the child should be educated out of their chronological year group, they may be obliged to join their appropriate age cohort and may therefore completely bypass a whole year of education.

As Warwickshire is a county which contains grammar schools, and carries out an 11+ testing process which is based on academic ability in order to consider possible candidates to those schools, it is also important to bear in mind that this will also be affected by deferred entry.

11+ tests are held annually and scores are standardised based on a cohort within a specific age range. Where a child falls outside of that age range, there is no guarantee that the 11+ test for that particular year of entry will be adaptable to a child who does not chronologically fall within the year group for which entry is being sought.

All of the grammar schools within Warwickshire are Academies, meaning that they are their own admission authorities. There is no guarantee, and no obligation on the part of those schools, to continue to educate a child out of their chronological age group.

Where a child has identified Special Educational Needs and deferred entry has been agreed, it may be the case that funding or support in relation to those needs may not be consistent.

Each individual case must be discussed with the Statutory Assessment Team, so that parents and schools are clear about the impact of any change to the normal admission procedures, and subsequent changes to statutory assessment and testing dates.

STARTING SCHOOL A YEAR EARLY

A formal request for **accelerated entry** should be made to the Admissions Service by no later than the end of the autumn term of the year before the child is asking to start school. For example, for a child who is due to start in school in September 2018, but is seeking entry in September 2017, the request for accelerated entry should be made by no later than 1st December 2016.

An application for the child to start school **must** also be completed and sent with the request, as this will be considered if the request for accelerated entry is agreed.

The relevant request form can be found on the website:
www.warwickshire.gov.uk/admissions

See Section 5: 'Accelerated Entry' for further information

SECTION 4: TRANSFERRING TO JUNIOR OR SECONDARY SCHOOL

REQUESTING DEFERRED ENTRY FROM INFANT TO JUNIOR SCHOOL

The majority of children will start school in Reception at a Primary school and will automatically accelerate through the relevant year groups at the same school until the end of Year 6. However, a small number of children will start Reception in an Infant School, which only accommodates children until the end of Year 2. At that point, children will make an application for schools and then transfer to start Year 3 in a Junior or Primary school. A child will normally start in Year 3 in the September following their seventh (7th) birthday.

Where a child is moving from Infant to Junior school, and an agreement is already in place for them to be educated out of their chronological year group, then this arrangement will normally continue, as long as the reasoning for deferring (or accelerating) entry in the first instance still applies. However, even if this is the case, if the school which is being applied for is its own admission authority then there is no guarantee that the arrangement for the child to be educated outside of their chronological year group will continue.

For those requesting deferred entry when transferring from Infant to Junior school - ie: where a request is made to delay entry to Junior school in Year 3 and for the child to repeat a year in Year 2 - specific reasons need to be identified in order for this to be agreed. The child's current school will be consulted on this matter.

School admission authorities are responsible for making the decision on whether or not a child will be admitted outside their normal age group. The admission authority in the case of community and voluntary-controlled schools is the LA and in the case of academies, foundation, trust, voluntary-aided and free schools, it is the academy trust or governing body of the school.

However, where a child has an Education, Health and Care (EHC) Plan or a Statement of Special Educational Needs (SEN), the decision rests with the Local Authority (LA) and must be confirmed in the Plan/Statement.

Admission authorities are required to make a decision based on the circumstances of each case but must give regard to the views of head teacher of the school.

The LA recommends that the decision is made in consultation with the head teacher of the school concerned, as well as the LA, the parents, and all professionals involved with the child. It is therefore in the interest of the parent/carer making the request to communicate with the Head teacher of the school for which they are seeking delayed or deferred entry so that the interests and needs of the child in each specific case are given full and proper consideration.

REQUESTING DEFERRED ENTRY FROM JUNIOR/PRIMARY SCHOOL TO SECONDARY SCHOOL

The majority of children will start their secondary education in Year 7, in the September following their eleventh (11th) birthday. The Local Authority's (LA) policy that pupils should be educated in the year group appropriate to their chronological age still applies.

Where a child is moving from Primary/Junior school and an agreement is already in place for them to be educated out of their chronological year group, then this arrangement will normally continue, as long as the reasoning for deferring or accelerating entry in the first instance still applies. However, even if this is the case, if the school which is being applied for is its own admission authority then there is no guarantee that the arrangement for the child to be educated outside of their chronological year group will continue.

A formal request for **deferred entry** from an Infant to a Junior school, or from Primary/Junior school to Secondary school, should be made to the Admissions Service by no later than the end of the autumn term of the year before the child is chronologically due to transfer to the appropriate year group. For example, for a child who is due to start in Year 3 or Year 7 in September 2017, the request for deferred entry should be made by no later than 1st December 2016.

An application for the child to start in the relevant chronological year group **must** also be completed and sent with the request. This ensures that the child can still be considered for a school place which is relevant to their chronological age group, if the request for deferred entry is denied. If the request is approved then the application will be withdrawn and a new application must be made for the following year of entry, in line with the co-ordinated admission arrangements for that particular year of entry.

The application form, and the form which must be completed in order to request deferred entry, can be found on the website: **www.warwickshire.gov.uk/admissions**

The decision to approve a request for deferred entry will be made in consultation between the LA and/or the admission authority for the school for which deferred entry is being sought, as well as any healthcare providers, medical professionals or other external agencies who are involved with the child and their needs.

The following will be taken into account when a request for deferred entry is being considered:

- the child shows a significant delay and/or little progress in their personal and emotional development;
- social skills are not appropriate to the child's chronological age group;
- the child shows significant delay and/or little progress in intellectual development/educational skills across the subject areas, to an extent that it is not reasonable to expect curriculum differentiation within their correct year group to be successful;
- there is clear evidence that the child's needs will be met more effectively out of their chronological year group than would be possible within.

SECTION 5: ACCELERATED ENTRY

Accelerated entry refers to a child who is educated in the year group above their chronological year group. For example, a child is educated in Year 5 but their age means that they should, chronologically, be taught in Year 4, with peers within the same age range. Parents/carers will usually make a request for the child to be accelerated into the year group above based on the child's academic ability.

However, a school will not normally request that a child is educated in the year above their chronological age, or agree to such a request based simply on academic ability. This is because the curriculum can be adapted and differentiated to meet the needs of many ranges of academic ability within a cohort.

Such a request may be agreed to, however, if a child moves into the county from overseas and there is a history of that child being educated in the chronological year group above.

THINGS TO CONSIDER WHEN APPLYING FOR ACCELERATED ENTRY

Whilst accelerated entry may be the most appropriate option in very exceptional cases, it is worth noting that there will be consequences if such a route is approved. The child will be educated out of their chronological year group and so will be a whole year older than the rest of their peers. This could affect the child on a long-term basis, both psychologically and emotionally, as they mature and begin to recognise that they are different to the rest of their classmates. It could also have a serious impact on a child starting school in Reception where that child is only 3 years of age, due to the nature and length of the school day and the expectation for every child to participate fully in school life. They may not have the stamina to cope with such demands and may find the experience of formal schooling very stressful at that age.

When your child transfers to Junior or Secondary school, there is no obligation for the next school to adhere to any agreement which was put in place for accelerated entry previously. If the new school disagrees that the child should be educated out of their chronological year group, the child may then be forced to join their appropriate age cohort and may therefore completely bypass a whole year of education.

As Warwickshire is a county which contains grammar schools, and carries out an 11+ testing process which is based on academic ability in order to consider possible candidates to those schools, it is also important to bear in mind that this will also be affected by accelerated entry.

11+ tests are held annually and scores are standardised based on a cohort within a specific age range. Where a child falls outside of that age range, there is no guarantee that the 11+ test for that particular year of entry will be adaptable to a child who does not chronologically fall within the year group for which entry is being sought.

All of the grammar schools within Warwickshire are Academies, meaning that they are their own admission authorities. These schools would have to be in agreement that such a child could be tested alongside the peers of the year group for which admission is being sought, and those schools would also have to be in agreement that the child could enter the school either a year above or below their chronological age group. There is no guarantee, and no obligation on the part of those schools, that such an agreement will be made.

Each individual case must be discussed with the Statutory Assessment Team, so that parents and schools are clear about the impact of any change to the normal admission procedures, and subsequent changes to statutory assessment and testing dates.

REQUESTING ACCELERATED ENTRY FOR RECEPTION, JUNIOR OR SECONDARY SCHOOL

A formal request for **accelerated entry** should be made to the Admissions Service in the autumn term of the year *before* the child is asking to start school or transfer to junior/secondary school. For example, for a child who is due to start in school in September 2018, but is seeking entry in September 2017, the request for accelerated entry should be made by no later than 1st December 2016.

An application for the child to start school **must** also be completed and sent with the request, as this will be considered if the request for accelerated entry is agreed. The relevant request form and appropriate application can both be found on the website: **www.warwickshire.gov.uk/admissions**

SECTION 6: IN-YEAR ADMISSIONS

In some cases, children may need to move from one school to another during the academic year. This may be due to the fact that a family have moved into Warwickshire from another county, or from overseas. This is referred to as an 'in-year admission'.

Where a child is moving from one school to another as an in-year admission, and an agreement is already in place for them to be educated out of their chronological year group, this arrangement will normally continue, as long as the reasoning for deferring or accelerating entry in the first instance still applies. However, even if this is the case, if the school which is being applied for is its own admission authority then there is no guarantee that the arrangement for the child to be educated outside of their chronological year group will continue.

School admission authorities are responsible for making the decision on whether or not a child will be admitted outside their normal age group. The admission authority in the case of community and voluntary-controlled schools is the LA and in the case of academies, foundation, trust, voluntary-aided and free schools, it is the academy trust or governing body of the school.

However, where a child has an Education, Health and Care (EHC) Plan or a Statement of Special Educational Needs (SEN), the decision rests with the Local Authority (LA) and must be confirmed in the Plan/Statement.

Admission authorities are required to make a decision based on the circumstances of each case but must give regard to the views of head teacher of the school.

The LA recommends that the decision is made in consultation with the head teacher of the school concerned, as well as the LA, the parents, and all professionals involved with the child. It is therefore in the interest of the parent/carer making the request to communicate with the Head teacher of the school for which they are seeking delayed or deferred entry so that the interests and needs of the child in each specific case are given full and proper consideration.

A formal request for **deferred or accelerated entry** as an in-year admission should be made to the Admissions Service at the same time as submitting the 'Change of School' application form. Further information about the in-year admissions process, as well as the appropriate request form to complete in order for the child to be considered to be educated outside of their chronological year group, can be found on the following website: **www.warwickshire.gov.uk/changingschool**

SECTION 7: WHAT TO DO NEXT

A school place has been offered and accepted for entry into **Reception**, for the correct chronological year group, and you wish to make a request for **part-time** entry:

- Once you've been allocated a school place, speak to the head teacher as soon as possible to request part-time admission.

If you would like to request **delayed entry into Reception** until later in the academic year, for the correct chronological year group:

- You will still need to apply for a school place as if for September entry but this place will be held open for you until the time it is agreed that your child should start at the school. Once you've been allocated a place you will need to speak to the head teacher to make arrangements for delayed admission.
- Summer-born children must take up the school place offered by the summer term at the latest.
- Autumn and spring-born children must take up the school place offered at the start of the term after their 5th birthday (compulsory school age).

If you would like to request **deferred entry** for your child to start school in **Reception** in the year below their chronological age (ie: a year later):

- You should complete and return the appropriate request form which can be found on our website: **www.warwickshire.gov.uk/admissions**
- You must also complete an application for your child to start school at the point which is relevant to their age, and abide by all relevant deadlines associated with that process. This is to ensure that your child is still offered a school place if your request for deferred entry is not agreed.

If you would like to request **accelerated entry** for your child to start school in **Reception** in the year above their chronological age (ie: a year earlier):

- You should complete and return the appropriate request form which can be found on our website: **www.warwickshire.gov.uk/admissions**
- You should also complete an application for your child to start school at the point for which accelerated admission is being sought. This is to ensure that your child is then considered for a school place if the request is agreed. If the request is not agreed then your application will be automatically withdrawn and you will be required to submit a new application for the relevant entry year.

If you would like to request for your child to be **educated outside of their chronological year group**, either in line with the automatic transfer from one key stage to the next, or as an in-year admission:

- You should complete and return the appropriate request form which can be found on our website: **www.warwickshire.gov.uk/admissions**

Once a child has been admitted to a school it is for the head teacher to decide how best to educate them. In some cases, it may be appropriate for a child who has been admitted out of their normal age group to be moved to their normal age group, but in others it will not. Any decision to move a child to a different age group should be based on sound educational reasons and should be made by the head teacher in consultation with the parents.

SECTION 8: APPEALS

1. PARENTS WHO WANT THEIR CHILD EDUCATED OUTSIDE THEIR CHRONOLOGICAL AGE GROUP

There is no appeal process in relation to a request being refused for a child to be educated outside of their chronological year group.

2. SCHOOL PLACE ALLOCATION

Parents who are refused a place at a school for which they have applied, have the right of appeal to an independent admission appeal panel.

As the purpose of the appeals process is to consider whether a child should be admitted to a particular school, parents do not have a right of appeal if they have been offered a place and it is not in the year group that the parents prefer.

SECTION 9: COMPLAINTS

You may make a complaint if you feel the admission authority's decision to refuse your application for deferred or accelerated entry is wrong because:

- the admission authority's published process for considering applications has not been correctly followed; or
- the Admissions Code or government guidance has not been correctly followed

You can make a formal complaint through the following channels:

- Local Authority maintained schools (eg: Community and Voluntary-Controlled) = **Local Authority complaints procedure**. Further information can be found on the website: www.warwickshire.gov.uk/complaints
- Own Admission Authority schools (eg: Academies, Free and Voluntary-Aided) = the **published complaints procedure of the school** for which deferred or accelerated entry has been requested.

If you are unhappy with the way the Local Authority or maintained school has handled your complaint you may then refer your complaint to the Local Government Ombudsman.

If you are unhappy with the way an Academy has handled your complaint you may then refer your complaint to the Education and Skills Funding Agency who will consider the complaint on behalf of the Secretary of State for Education. More information is available at: www.gov.uk

If your child has an Education, Health and Care (EHC) Plan and your request for them to be educated outside of their chronological year group has been refused then you can ask the SENDAR team about your right to appeal through an SEN Tribunal. Further information can be found on the SENDAR website at: www.warwickshire.gov.uk/sen

SECTION 10: USEFUL INFORMATION

- A request for deferment (including in relation to 'summer-born' children) or accelerated entry should be made by the **relevant deadlines** as outlined in this document, and in line with the admissions arrangements for the requested year of entry. Any requests (or applications for school places) not received by the relevant deadlines will not be considered.
- An **application for a school place** must be submitted with any request for delayed or deferred admission. Any applications not submitted by the relevant deadline may affect the consideration and outcome of the request.
- **Reasons and evidence** to be taken into consideration must be submitted with the request form. Any delay in those documents being submitted may affect the outcome of the request. Any evidence or supporting documentation not received by the deadline will not be considered.
- Please ensure that you have read this document fully before submitting your formal request for deferred or accelerated entry.

GLOSSARY

Academic year – the academic year (or ‘school year’) commences in September and finishes in July

ACE – Attendance, Compliance and Enforcement team

Admissions Service – will process applications for children into all year groups, including in-year admissions

Chronological year group – the year group, or cohort, which a child should be entered into according to their age, along with peers of the same age range

Compulsory School Age – the beginning of the term after a child’s 5th birthday

Deferred Entry – the child will start school a year later, or will be placed into the chronological year group below for those who are already of compulsory school age

Delayed Entry – the child will start school in their correct chronological year group but will start school later in the academic year

EHC Plan – Education, Health and Care Plan

EMTAS – Ethnic, Minority and Traveller Achievement Service

In Care/Looked After – children in the care of, or provided accommodation by, the Local Authority, eg: children who have been placed into foster care

In-year admission – changing school at any point of the school year, which is not in line with a transfer admission

Part-time admission – a child will obtain a school place in line with the admission arrangements for the relevant year of entry but will not attend full-time. The child must have started attending on a full-time basis by the time they reach compulsory school age

Previously Looked After – children who were in the care of the Local Authority but ceased to be so because they were adopted immediately after, or became subject to a Child Arrangements Order (eg: Residency Order or Special Guardianship Order)

SENDAR – Special Educational Needs, Disability, Assessment and Review service

Transfer admission – the natural point at which a child will move into the next key stage, ie: starting school in Reception, transferring into Year 3 from a Junior, and transferring into Year 7 at a secondary school.
