

## Warwickshire County Council

### Road Traffic Regulation Act 1984

#### The Warwickshire County Council (District of Warwick) (Civil Enforcement Area) (Waiting Restrictions, On-Street Parking Places and Residents' Parking) (Consolidation) (Variation EV1) Order 2020

### 1. Background

Warwickshire County Council declared a climate emergency in July 2019. As part of its commitment to put environmental issues at the heart of its decision making, a number of electric vehicle charging points have been installed in district and borough car parks and on-street in Warwickshire.

### 2. Statement of Reasons

It is proposed to provide parking bays for electric vehicle charging at various locations in Warwick District. This will improve the amenities in the area through which the roads run and have a beneficial impact on air quality.

### 3. Schedule

Consultation Drawing	Street	Town	ParkMap Tile	Revision No.
TR/11234-01	Market Place	Warwick	GB 53	1
TR/11234-02	Northgate Street	Warwick	GA 53	2

#### **1. Market Place, Warwick – provision of parking for electric vehicles**

Two bays at the southern end of the echelon parking bays are to be made available for electric vehicle charging only. Hybrid vehicles will be permitted to use the bays provided they are being charged. This will remove eligibility for parking for non-electric vehicles in these two bays.

The remaining 10 bays south of the proposed electric vehicle only bays will be available for electric or non-electric vehicles.

To allow sufficient time for electric vehicles to be charged, the waiting restrictions have been increased to a maximum stay of two hours, with no return in four hours.

No fee for parking will apply to electric vehicles which are being charged while parked in any bay which provides a facility for electric vehicle charging.

The most northerly bay will be restricted to disabled motorists in possession of a blue badge.

## **2. Northgate Street, Warwick - provision of parking for electric vehicles**

The two most southerly parking spaces on the eastern side of the carriageway are to be made available for electric vehicle charging only. Hybrid vehicles will be permitted to use the bays provided they are being charged. This will remove eligibility for parking for non-electric vehicles in these spaces.

Parking spaces to the north of the two most southerly spaces will be available for electric or non-electric vehicles, with charge points for electric and hybrid vehicles.

No fee for parking will apply to electric vehicles which are being charged while parked in any bay which provides a facility for electric vehicle charging.

## **4. Existing orders to be varied**

The Warwickshire County Council (District Of Warwick) (Civil Enforcement Area) (Waiting Restrictions, On-Street Parking Places and Residents' Parking) (Consolidation) Order 2017

## **5. Priority - High**
