briefly, why do you believe this route is any public by of the wrong status)
The soute is a gap at the end of W197, which would otherwise be a
cul-de-sac, was considered to be public under the 1932 Act, was
included in the claim by Eathorne Parily Council in the 1950's
and has always been used as a public right of way.

1) the whole route has existed since the early 19th Century - see estate may at cR20011 and all Ordnance Survey maps since. 2) The plan submitted in 1936, under the 1932 Act(as part of a comprehensive survey of the County), shows the whole route as being a public highway. 3) The original 1950's claim by the Eathorpe Parish Council showed the whole route coloured (including the part in Marton) and described it as going to the parish boundary and road'.				
4) The neute has a 1970's style finger post at the village root together with 2 sets of more recent way marks.	ad in Merton,
