Statement of Evidence for Path Claim RAP 11

- 1 The path is shown on the Rugby Board of Health Map of 1851 (original now held by the Warwickshire County Record Office at TD 07/14, with a copy at Z731(U)) as part of a complex of three paths, all coloured yellow in the same way as other paths and footways, with no barriers between them. The reference table on this map shows that this colour means the route has a 'Macadam or Ballast' surface, which suggests that it was maintained by a public body, such as the Highway Authority.
- 2 The path is shown on the first edition of the Ordnance Survey six inch map (1887), and all subsequent maps.
- 3 A site visit shows that the path has a well maintained, tarmac, surface with street lights, a 'Church Walk' street name plate and a 'no cycling' roundel, which means that it must be a public highway as a 'no cycling' Order can only be made on a public highway. The boundary walls give no indication of any previous walls, gates, or other possible barriers across the path, except for a bollard at the west end. The path is in heavy, daily, use.
- 4 It is considered, therefore, that it is reasonable to allege that the path subsists as a public footpath and should be recorded as such on the Definitive Map.
