EXECUTIVE SUMMARY

This Childcare Sufficiency Assessment meets Warwickshire County Council's legal duties to report annually on how it is meeting the statutory duties. These duties are specified in the Childcare Act 2006 and 2016 to secure sufficient early years and childcare and to make an assessment available to the public. This document is available to all parents & carers via the Warwickshire County Council website, and to elected members.

The Childcare Sufficiency Assessment is a strategic tool that analysis and evaluates the current childcare sufficiency, and overall market forces including demand. It is used to underpin the work of the Council's Early Years and Childcare Entitlements, Sufficiency and Business Team and in part that of the Early Years Quality, Standards and Safeguarding Team along with the Integrated Disability Service, and supports the following strategies within the Council Plan 2022 to 2027:

- We want Warwickshire to have a thriving economy and places that have the right jobs, skills, education and infrastructure;
- We want to be a county where all people can live their best lives; where communities and individuals are supported to live safely, healthily, happily and independently.

With specific focus on the following strand:

- Deliver our Child Friendly Strategy - Happy, healthy, safe children - Through education, improve life opportunities for children, young people and those with special education needs and disabilities.

Place Monitoring - Warwickshire childcare needs are managed at county, district & borough level and then in smaller more localised geographical Lower Early Years Planning (LEYPA) areas of which there are 41. This enables a review in detail of each the local area needs and target any actions as required.

Working with childcare providers data supplied in Autumn Term 2021 and wider data sources the current supply and demand of childcare has been mapped and used to identify any areas of pressure.

Warwickshire sees an overall good supply of early years and childcare places, with local childcare markets meeting most family needs. Continuous monitoring and development are required to ensure this remains the case and focused work must be undertaken in a small number of areas where place pressures are identified or experienced during the peak take up time in the Summer term. The majority of services are concentrated in urban areas, with fewer services in the rural and county border areas, which is to be expected linked to demand.

Market Forces - The national picture sees reports of childcare providers closing due to the impact of the Covid-19 pandemic, changes to workforce availability and economy pressures. Warwickshire has seen a small number of provider closures, however at the current time these have been balanced with the opening of new provision within local areas. There is an increase in the sale of sole trader nursery provisions which are transferring to the ownership of medium sized chain operations. Statistically there has been a higher than usual drop in registered childminders, which make up 36% of the county's childcare services, however many of these closures linked to dormant registrations being resigned. The pandemic did also initiate a reduction of childminders due to retirement or health reasons,

including those of family members, due to the nature of the service and risk being higher as delivery of the service is from individuals own homes.

Provision and Places - In Warwickshire, the Council is not the direct provider of childcare services in the majority of cases. Most of the market force is that of the private, voluntary and independent sector. Therefore we need to work in close partnership with this sector and offer support as necessary. The mixed market of place delivery offers flexibility and choice to parents / carers across the county.

There has been a **5.2% decrease** in provider numbers since 2020 seeing a total of **993 providers** operating currently providing **22,145** childcare places. We can note that there has been the need to estimate place availability for some providers that did not return information which increases the approximate place availability to **27,952**

There are currently 376 providers of 2Help places seeing an increase of 16.8% with 3192 places offered which is a decrease of 8.1%. With 500 providers offering the 3 and 4 year old entitlements seeing an increase of 9.2% of providers offering 11,575 places. Although there has been an overall increase of 25.9% in out of school provision up to 175 providers the numbers of places have decreased by 5.3% to 4,243.

Quality - The overall offer from providers sees **94%** of early years providers holding Good or Outstanding Ofsted gradings.

Population - The county has seen an overall growth of 2.8% in the child population with 119,153 children resident. Of the 119,153 children **31,789** are under 5 years old, an increase of **0.6%** since the last assessment. **48,146** children fall within the age group of 5 years to 11 years, an increase of **2.2%** and may need childcare out of school hours. There is a noted **3.5% increase in birth rates** for the county and along with occupation of new houses demand for all types of places can be expected to increase.

Place Take Up - Overall providers report good occupancy levels across the county with **86.1%** of places filled an increase of 1.8%. There has been a **4.1% increase** in children eligible for a funded 2Help place with internal monitoring now seeing an **increase in place take up to 75%** (internal Summer Term 2022 monitoring).

Of the 3 and 4 year olds eligible for a funded places there has been a **3.2% increase** to 13,299 children. **46.6%** of these children are of **statutory school age** and will, in the main, be taking up a full time place in school with **47%** of children accessing a funded 3 and 4 year old place within the nursery place sector. The overall place take up in Warwickshire has seen a **decrease of 2.1% to 93.6%**. This does see **6.4%** of Warwickshire's children not recorded as accessing a place however due to the rural nature of the county and the substantial number of other bordering local authorities it is reasonable to predict these children will be **taking up a place in another local authority**.

Areas of Pressure - Assessment of the demand, take up and supply along with local data does identify that there may be place pressures in some of the Lower Early Years Planning areas listed below:-

- Lillington, Sydenham, Stratford Town, Clopton and some outlying areas of Shipston;
- Bedworth South West, Camp Hill and Boughton.

These specific areas will see a priority focus in the academic year 2022/ 23 to endeavour to reduce place pressures and achieve some capacity increases within each area. This is noted to be in part already underway for Lillington and Clopton areas with increased places established from September 2022. Lack of suitable premises continues to be a barrier in the Sydenham area of Leamington Spa.

Special Education Needs and Disabilities – The Department for Work and Pensions data indicates that 9% of children have a prevalence to disability nationally. This translates to 10,724 children in Warwickshire, a 15.6% increase with 2,861 children being under the age of 5 years old an increase of 13.2%. Of the providers that offer places supporting children with one or more SEN/D type which there is a decrease of 4.6% of places. Work continues to be undertaken by the related teams as part of the SEND Change Programme to continue to provide the necessary support for the sector linked to meeting place needs.

Next steps

The Early Years and Childcare Entitlements, Sufficiency and Business Team will continue to work with the Family Information Service and other partner services to monitor any localised place pressures identified. Bespoke support is offered to parents and carers needing support to find a place by the Family Information Service.

With the marked increase in child numbers, alongside a decrease in the overall number of places and the increasing levels of occupancy being reported by early years and childcare providers, it is clear that demand and supply must be monitored very closely to ensure growth is managed to keep up with the increase in demand.

The Early Years and Childcare Teams work will be led by the full action plan with a specific focus on creation of additional places in pressure areas, raising awareness of gaps for nursery providers and where more rural or smaller place needs focusing on childminder business creation.

The ongoing work to create continued new places where new schools are built is now embedded as part of strategic planning, which supports local areas of significant housing growth. While a focus on school sites that currently do not have early years and childcare offers will be a consideration.

Recruitment and retention pressures for the sector as seeing teams link with the Department for Work and Pension, Skills and Economy Team and third party support organisation to provide advice, guidance and wider promotion of the work opportunities within the early years and childcare sector to improve engagement from the employment market.

****A full list of the targeted actions can be found on page 11 of this document.***

INTRODUCTION

Local authorities are required by legislation under the Childcare Act 2006 to:

- a. secure sufficient childcare, so far as is reasonably practicable, for working parents, or parents who are studying or training for employment, for children aged 0-14 (or up to 18 for disabled children);
- b. secure sufficient free early years provision for eligible young children;
- c. assess the sufficiency of the childcare in their area at least every three years.

The Children and Families Act 2014 removed the requirement on local authorities to prepare assessments of the sufficiency of childcare in their area at least every three years. However, local authorities are required to report annually to council elected members on how they are meeting their duty to secure sufficient early years and childcare places, and to make this report available to parents. It is therefore still necessary to carry out assessments of sufficiency in order to meet the legal duty.

To secure sufficient childcare places, local authorities should take into account

- What is 'reasonably practicable' when assessing what sufficient childcare means in their area;
- the state of the local childcare market, including the demand for specific types of providers in a particular locality and the amount and type of supply that currently exists;
- the state of the local labour market including the sufficiency of the local childcare workforce;
- the quality and capacity of childcare providers, including their funding, staff, premises, experience and expertise.

Local authorities should also

- encourage schools to offer out-of-hours childcare from 8.00am to 6.00pm and in school holidays;
- encourage existing providers to expand and new providers to enter the local childcare market ;
- encourage providers to take a sustainable business approach to planning.

The Childcare Act 2016 added an additional duty on local authorities to secure the equivalent of 30 hours free childcare over 38 weeks of the year for qualifying children.

This Childcare Sufficiency Assessment meets Warwickshire County Council's legal duties – it is available to all parents / carers via the Warwickshire County Council website, and to elected members.

Reports need to include:

- A specific reference to how the local authority is ensuring that there is sufficient childcare available to meet the needs of: disabled children; children from families in receipt of the childcare element of Working Tax Credit or Universal Credit; children with parents who work irregular hours; children aged two, three and four taking up funded early education places; school age children; and children needing holiday care;

- Information about the supply and demand of childcare for particular age ranges of children, and the affordability, accessibility and quality of provision;
- Details of how any gaps in childcare provision will be addressed.

The Childcare Sufficiency Assessment underpins the work of the Council's Early Years and Childcare Entitlements, Sufficiency and Business Team, and supports the following strategies within the Council Plan 2022 to 2027:

- We want Warwickshire to have a thriving economy and places that have the right jobs, skills, education and infrastructure;
- We want to be a county where all people can live their best lives; where communities and individuals are supported to live safely, healthily, happily and independently.

With specific focus on the strands:

- Deliver our Child Friendly Strategy - Happy, healthy, safe children;
- Through education, improve life opportunities for children, young people and those with special education needs and disabilities.

An overview of the national childcare context

The most important recent policy change has been the Childcare Act 2016. Its main focus was the introduction of 30 Hours funded childcare for eligible 3 and 4 year olds for 38 weeks per year.

This change is detailed in the [Statutory guidance for Local Authorities - Early Education and Childcare](#), which sets out what settings and local authorities must do to comply with the law.

Funded Places for 2 Year Olds

All local authorities carried out significant expansion in order to meet the statutory requirement to secure early education places for eligible 2 year olds. This programme has had a large impact on Warwickshire's childcare market.

Warwickshire established approximately 2,200 new childcare places as a result of this policy change.

Families will be eligible for a funded place if they receive one of the following benefits:

- Income Support
- Income based Job Seekers Allowance (JSA)
- Income related Employment and Support Allowance (ESA)
- Universal Credit where the household income from work is £15,400 pa or less after tax
- Child tax credits and a household income of £16,190 or less before tax
- Guaranteed element of State Pension Credit
- Support through Part 6 of the Immigration & Asylum Act or been refused asylum in the UK section 4
- Working Tax Credit 4 week run – on

Or any of the following apply:

- Child has a current statement of SEN or an Education, Health and Care Plan;
- Child receives Disability Living Allowance
- Child is “Looked After” by the local authority
- Child has left care through special guardianship or an adoption or child arrangements order

Around 260,000 two year olds in England are now able to take up a place under this programme (approximately 40% of all 2 year olds).

Early Years Pupil Premium

The Government provides additional funding to support closing the attainment gap between disadvantaged children and their peers. The funding is paid at the rate of £342 per year for each qualifying child. Settings and schools will be monitored on how this is utilised at inspection and how they have used this additional funding to improve the outcomes of the specific children for whom the funding has been paid.

Children aged 3 and 4 will qualify if they are accessing the funded early years’ entitlement, and their parents receive one or more of the following:

- Income support
- Income based Jobseekers Allowance
- Income related Employment and Support Allowance
- Support under Part 6 of Immigration & Asylum Act 1999
- Guaranteed element of State Pension Credit
- Child Tax Credit and an annual income less than £16,190
- Working Tax Credit 4 week run – on
- Universal Credit and an annual net earned income not exceeding £7,400

Or the child

- Has been looked after by the local authority
- Has been adopted from care
- Has left care through special guardianship
- Has been subject to a child arrangement order (residence order)

This additional funding helps to support the financial viability of early years’ settings and make a positive contribution to our childcare sufficiency position. Data on take up of this funding is included in the Childcare Sufficiency Assessment. Increasing take up is a priority for the local authority.

Introduction of 30 Hours Funded Childcare

The Government introduced legislation via the Childcare Act 2016 to extend the free entitlement for some 3 and 4 year olds. The entitlement applies to children in families where all parents are working, and each parent earns on average a weekly minimum equivalent to 16 hours at national minimum wage or national living wage, and less than £100,000 per year.

The introduction of this extension means that around 390,000 three and four year olds nationally are eligible for 30 hours per week of funded childcare, instead of the 15 hours previously available (which remains as the universal entitlement for other families).

The number of new childcare places needed depends on a number of factors, including

- How many eligible parents take up the new entitlement;
- The extent to which eligible parents already pay for additional hours of childcare over and above the existing 15 funded hours;
- How quickly eligible parents choose to make use of all of the additional 15 hours to which they would be entitled;
- The level of spare capacity in the system.

Warwickshire continues to accommodate the growing number of 30 Hours places during the academic years as follows:

Autumn Term 2018	2,752
Spring Term 2019	3,842
Summer Term 2019	4,339
Summer Term 2020 *	4,334
Summer Term 2021*	4,704
Summer Term 2022	5151

* (Covid impact – possible reduced place take up)

There are sufficient places overall across Warwickshire to meet demand for the 30 Hours Funded Childcare offer, but within this favourable position there are a small number of localities where parents may be unable to find a place at their particular provider of choice, or for the specific attendance pattern that they need. The local authority's duty is to secure sufficient childcare, and not to guarantee a place at a specific provider or for a specific attendance pattern. Nevertheless, parental concerns about access to a place at their provider of choice can be one of the indicators of pressure on sufficiency more generally.

The local authority continues to monitor the impact of the introduction of 30 Hours funded childcare to see if the provision of these places is affecting the availability of places for families who qualify only for the universal 15 hours funded places, and the impact on the provision of places for funded 2 year olds.

ACTION PLAN

Based on the period overall, the supply of early years and childcare places in Warwickshire remains good, with local childcare markets meeting the majority of the needs of families.

There are however, a number of areas where gaps have been identified for specific types of childcare provision. These are highlighted in the Gaps Analysis within the Childcare Sufficiency Assessment and will be focused on when delivering the Action Plan.

In Warwickshire, the Council is not the direct provider of childcare services in the majority of cases. The majority market force is that of the private, voluntary and independent sector to address any identified gaps and meet our sufficiency duty. We therefore need to work in close partnership with this sector and offer support as necessary.

The childcare market is a volatile and fragile one with the impact of Covid-19 on business health alongside an escalating national shortage of suitably qualified early years professionals creating substantial pressures upon the sector. Providers can open and close with little notice, causing rapid and sometimes significant changes to the sufficiency of places.

Although the Childcare Sufficiency Assessment is a detailed document, it is useful to supplement the information it contains with up to date local knowledge of what is happening 'on the ground'. The Early Years and Childcare Entitlements, Sufficiency and Business team provides targeted support in areas where the supply of childcare is poor or likely to reduce, intervening where possible, at an early stage where settings are struggling to provide a good quality sustainable service, and providing support to newly registering settings offering funded places for the first time.

The Action Plan highlights the following aspects of the early years and childcare sector where the local authority needs to focus its support for the forthcoming year:

Type of provision	Action required
Recovery from the COVID-19 Pandemic impact	<ol style="list-style-type: none">1.Continued close monitoring of the childcare market on a short, medium- and long-term basis.2. Work with the sector to review support requirements linked to financial sustainability going forwards.3.Ongoing assessment of the impact of COVID-19 on the sufficiency of early years and children places.4. Demand monitoring for places linked to impact on the work force and job market e.g. increase in need for Funded 2 year Old places and more demand for 30 hour funded places.
Funded 2 Year Old places	<ol style="list-style-type: none">1. Prospective new providers to be signposted to gap areas.2. Existing providers to be encouraged to expand via support with financial planning.

Type of provision	Action required
	<p>3. Existing providers to be supported to retain places for funded 2 year olds where there is evidence of need, when considering whether to adopt other business models e.g. expansion of 30 Hours funded places for 3 and 4 year olds.</p> <p>4. New and existing childminders to be supported to take funded children.</p> <p>5. Include early years premises within any new school sites developed to meet increased demand from new housing.</p> <p>6. Recruitment and staffing shortages – utilising council services to support the sector, where possible, with recruitment and promotion of the career choices within the early years and childcare sector.</p>
Funded places for 3 and 4 year olds	<p>1. Prospective new providers to be signposted to gap areas:</p> <ul style="list-style-type: none"> a. Targeted campaign to recruit new childminders. <p>2. Focus on supporting providers with financial planning.</p> <p>3. Retain sufficient 30 hours funded childcare places but ensure that sufficient childcare places are available to meet other types of demand, especially places for funded 2 year olds. LA to do this by:</p> <ul style="list-style-type: none"> a. Providing robust data for schools and settings to assess local demand. b. Working with schools with nursery classes to encourage expanding opening hours/providing a more flexible offer for working parents. c. Supporting providers to work in partnerships so that each contributes part of the 30 hour offer – this applies particularly to schools and childminders. <p>4. New and existing childminders to be supported to take funded children.</p> <p>5. Include early years premises within any new school sites developed to meet increased demand from new housing.</p> <p>6. Recruitment and staffing shortages – utilising council services to support the sector, where possible, with recruitment and promotion of the career choices within the early years and childcare sector.</p>
After School & Holiday Care	<p>1. Encourage schools to commission external providers if they do not wish to provide a service directly themselves and offer support with financial planning and provider selection process.</p>

Type of provision	Action required
	<p>2. Signpost childminders to areas where no existing childminder pick-ups from schools exist.</p> <p>3. Support schools who wish to open their own directly run provision, by clarifying legal requirements, advising on financial planning, and providing local sufficiency data.</p> <p>4. Utilise the Holiday Activity and Food Programme to meet the provision need for some part time working eligible families.</p>
Affordable childcare	<p>1. Support providers to review fee structures and business models in areas of deprivation, where low income families cannot afford to pay market rates for childcare but provision is still required.</p> <p>2. Encourage regular financial forecasting and use of strong debt management policies, e.g. by providing examples and templates.</p> <p>3. Support settings to maximise available income (e.g. Early Years Pupil Premium) by providing publicity to raise parents' awareness of the benefits of take up for their child. Continue to raise awareness of the existence of EYPP to settings and advise on how to claim.</p> <p>4. Work with Family Information Service to promote tax credits and other Government help with childcare costs to families, with a particular focus on raising awareness and take up of tax free childcare.</p>
Quality of provision	<p>1. We will strive to have no Inadequate settings. The Local Authority will:</p> <ul style="list-style-type: none"> a. work with settings who receive an Ofsted judgement of Requires Improvement or Inadequate to address the actions raised in their report by providing regular support visits from an Early Years Advisory Teacher or Practitioner. b. suspend Early Education Funding for new children at settings who receive a judgement of Requires Improvement or Inadequate (working within the Early Education and Childcare Statutory Guidance for Local Authorities issued by the Department for Education), to ensure that children only receive their early education entitlement at high quality settings. c. commission the Warwickshire Early Years Hub to work alongside Warwickshire's Early Years team to support the sector to maintain and improve quality practice. d. where capacity allows, work with providers who are registered but not yet inspected.

Type of provision	Action required
Support for children with SEN/D	<p>We will expect all children to be able to access a place that meets their needs. The LA will:</p> <ul style="list-style-type: none"> a. administer an Inclusion Fund so that additional resources can be made available to support children to attend an appropriate local setting. b. publicise the Disability Access Fund to parents and Early Years providers so that additional funding of £800 per year can be paid to settings who support eligible children. c. promote the WInckS kitemark so that settings who deliver exceptional inclusive practice can be recognised and parents signposted to them.

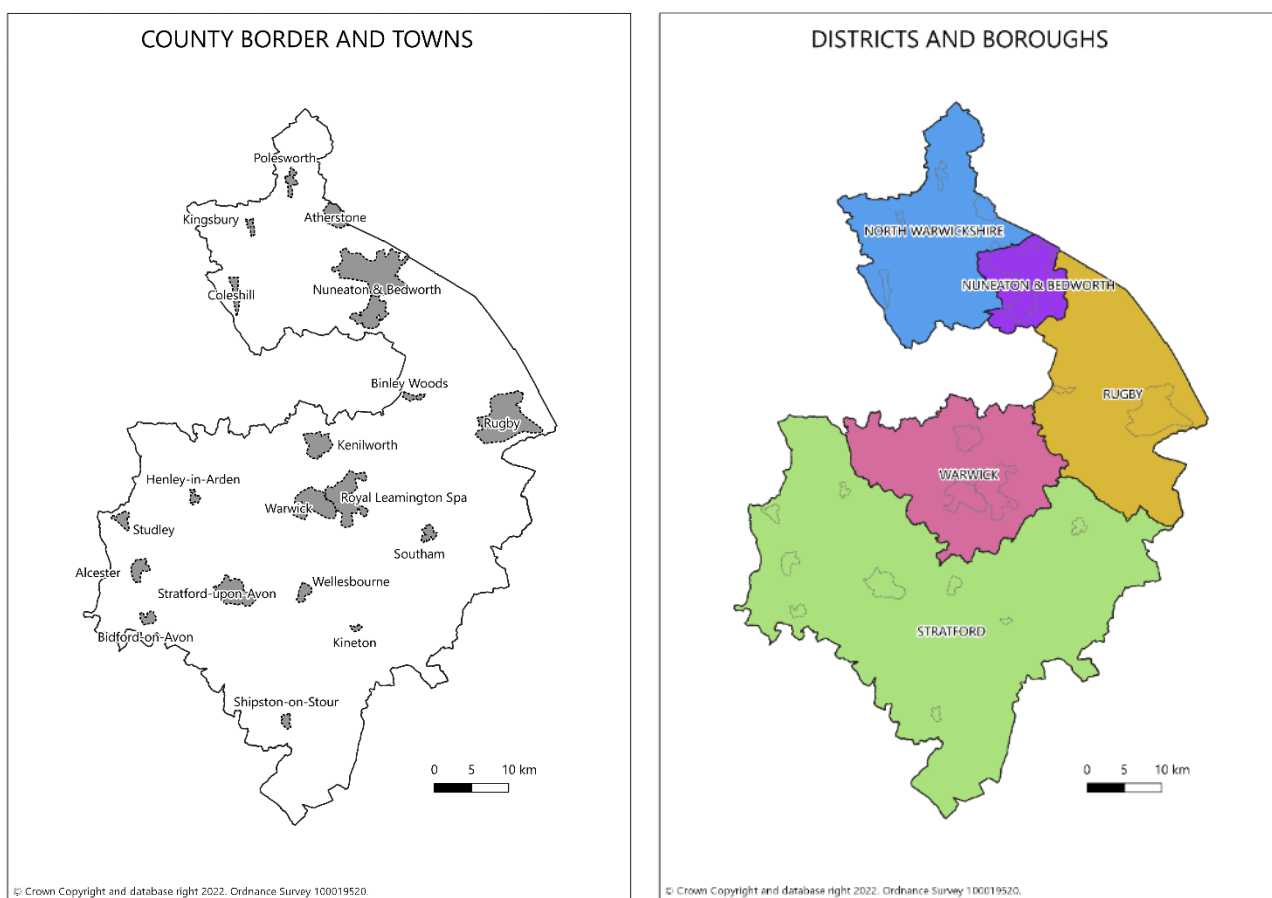

Notes on the Sufficiency Assessment

Previous Assessments

No Childcare Sufficiency Assessment was produced in 2021 owing to the Coronavirus pandemic. Instead, the Early Years & Childcare Entitlements, Sufficiency & Business team conducted two COVID-19 Business Health Check surveys. The surveys collected sufficiency data from the county's Early Years childcare providers. That data has been incorporated in this assessment where appropriate.

Geographical Terms

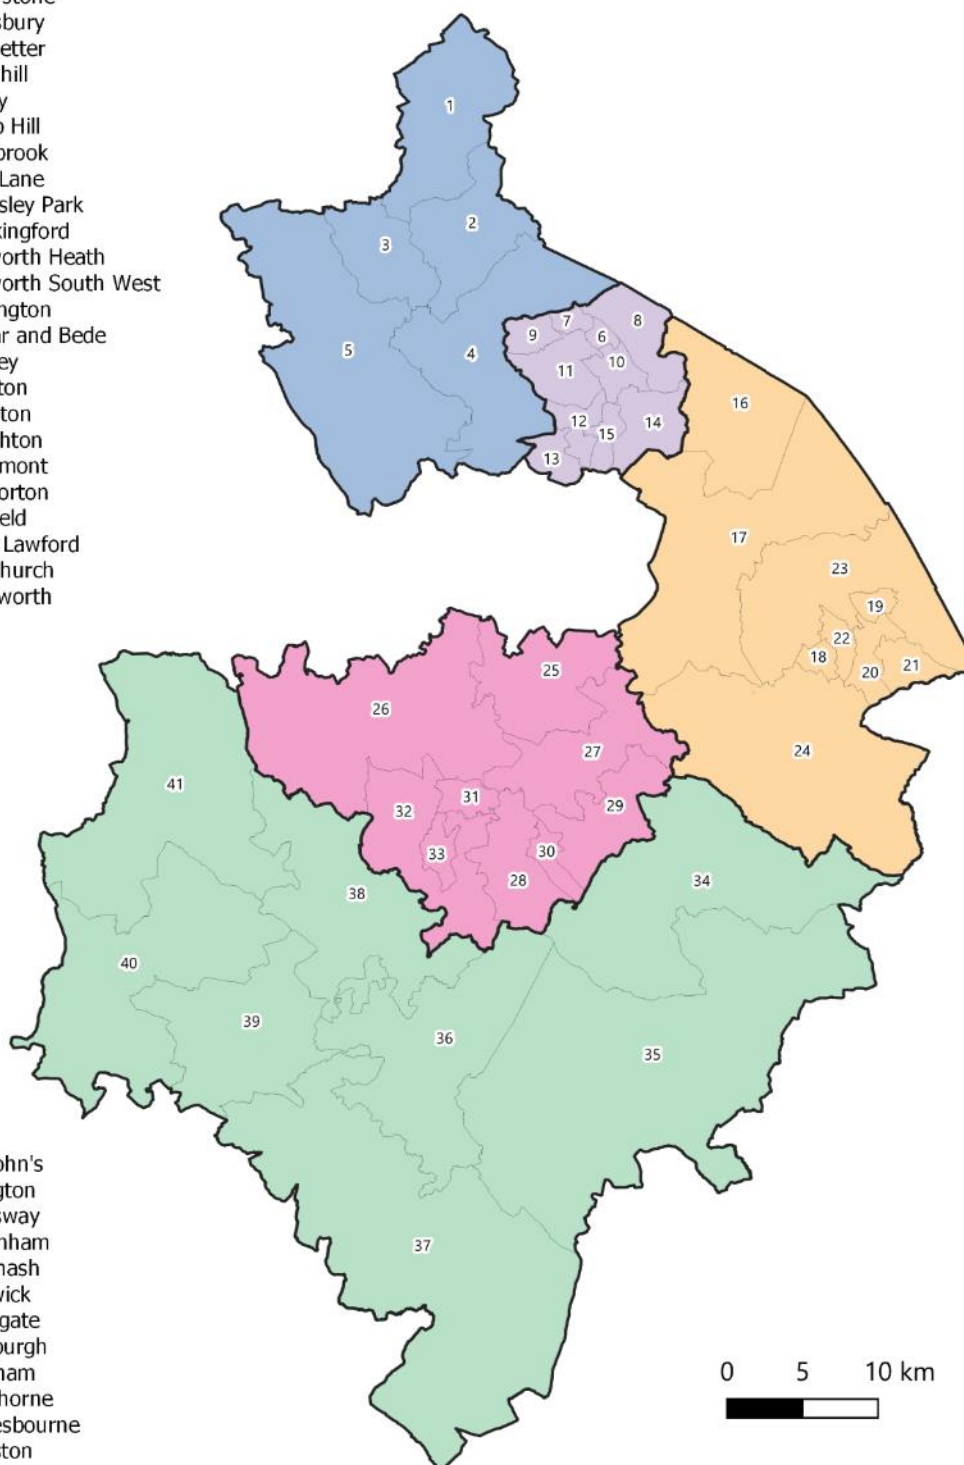

Other than where stated, this assessment focuses on childcare provision and population groups located within the Warwickshire county border. Data is principally presented at county level and then at the level of DISTRICTS AND BOROUGHES.

For finer detail, data is broken down to PLANNING AREAS. These are sub-divisions of the districts and boroughs.

PLANNING AREAS

- 1 Polesworth
- 2 Atherstone
- 3 Kingsbury
- 4 Mancetter
- 5 Coleshill
- 6 Abbey
- 7 Camp Hill
- 8 Ladybrook
- 9 Park Lane
- 10 Riversley Park
- 11 Stockingford
- 12 Bedworth Heath
- 13 Bedworth South West
- 14 Bulkington
- 15 Poplar and Bede

Section I: LOCAL INFORMATION

Population

There are **119,153** children in Warwickshire, a **2.8%** increase since the last sufficiency assessment.

(Office for National Statistics)

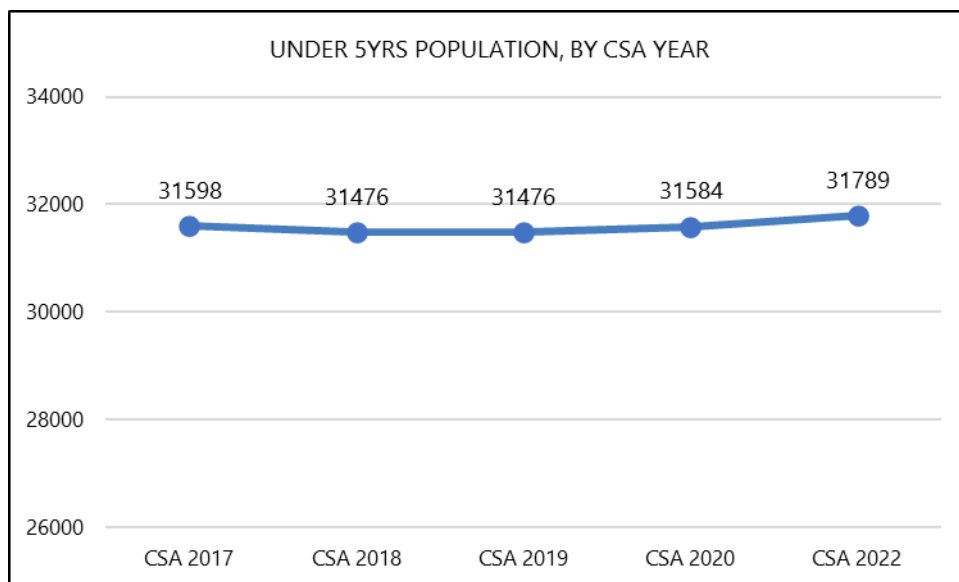

The district/borough with the largest number of children is Nuneaton & Bedworth (**28,531**), and children resident there have the youngest age profile.

DISTRICT/BOROUGH	Number of individuals aged under 18yrs							CSA 2022		
	CSA 2017	CSA 2018	CSA 2019	CSA 2020	CSA 2022	Graph	% Change since CSA 2020	Under 5yrs	5yrs to 11yrs	12yrs to 17yrs
North Warwickshire	12232	12281	12451	12627	12809		+1.4%	25.7%	40.9%	33.5%
Nuneaton & Bedworth	27203	27403	27751	27945	28531		+2.1%	28.4%	40.4%	31.3%
Rugby	23087	23312	23725	24093	25142		+4.4%	26.2%	40.4%	33.4%
Stratford	23016	23203	23523	23934	24881		+4.0%	25.7%	39.8%	34.5%
Warwick	27124	26947	26972	27329	27790		+1.7%	26.7%	40.8%	32.5%

Child population estimates, by district/borough

(Office for National Statistics)

This assessment will look at the sufficiency of Early Years provision in particular detail. There are **31,789** children aged under 5yrs in Warwickshire, a **0.6%** increase since the last sufficiency assessment.

(Office for National Statistics)

The district/borough with the largest number of children aged under 5yrs is Nuneaton & Bedworth (**8,089**).

Number of individuals aged under 5yrs							
DISTRICT/BOROUGH	CSA 2017	CSA 2018	CSA 2019	CSA 2020	CSA 2022	Graph	% Change since CSA 2020
North Warwickshire	3319	3332	3400	3354	3291		-1.9%
Nuneaton & Bedworth	7964	7991	8051	7983	8089		+1.3%

Warwick	1467	1437		-2.0%
WARWICKSHIRE	6003	6216		+3.5%

New births over a twelve-month period, by district/borough
(South Warwickshire NHS Foundation Trust)

Families

The number of families with dependent children in Warwickshire has decreased by **1.0%** since the time of the last sufficiency assessment.

(HM Revenue & Customs)

The district/borough with the largest number of families with dependent children is Nuneaton & Bedworth. It also has the largest proportion of families with three or more children (**14.8%**).

DISTRICT/BOROUGH	All families with children							CSA 2022

Areas of disadvantage

The Indices of Multiple Deprivation are a series of indicators that determine the degree of deprivation of all Lower Super Output Areas (LSOAs) in England. These are then ranked based on their relative deprivation score. According to the latest Indices, Warwickshire has pockets of deprivation across the county.

There are **48** LSOAs that fall within the top 30% most deprived LSOAs in the country ("IMD 1-3"), with **6** in the top 10%. The majority of the most deprived LSOAs in Warwickshire fall within the Nuneaton & Bedworth borough.

DISTRICT/BOROUGH	Number of LSOAs	LSOAs in top 30% most deprived areas	Percentage of LSOAs in top 30% most deprived areas
North Warwickshire	38	5	13.2%
Nuneaton & Bedworth	82	30	36.6%
Rugby	60	7	11.7%
Stratford	73	1	1.4%
Warwick	86	5	5.8%
WARWICKSHIRE	339	48	14.2%

Number of LSOAs in the top 30% most deprived areas nationally, by district/borough
(Ministry of Housing, Communities & Local Government)

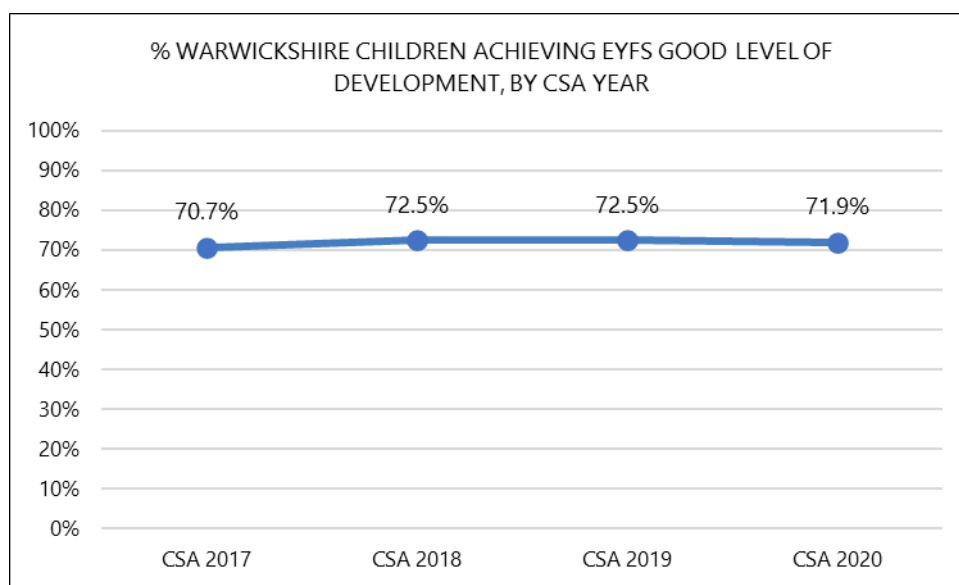

The Nuneaton & Bedworth borough has the county's highest proportion of children living within LSOAs classed as the most deprived.

(Ministry of Housing, Communities & Local Government / Office for National Statistics)

Child development

Owing to the Coronavirus pandemic, there have been no Early Years Foundation Stage (EYFS) assessments since the last sufficiency assessment. However, during the last round of EYFS assessments, **71.9%** of the children resident in Warwickshire and completing their assessments within the county achieved a Good Level of Development (GLD).

(Department for Education)

The highest performing district/borough was Warwick with **74.5%** of children achieving a GLD, whereas in Nuneaton & Bedworth the rate was **68.5%**. There are also variations between boys and girls, with girls performing better than boys in all areas.

DISTRICT/BOROUGH	% of resident children achieving GLD					CSA 2020

Warwickshire children achieving a Good Level of Development, by district/borough
(Department for Education)

Additional child development data is available from the Wellbeing and Lifestyles Behaviour Review, an annual health needs assessment conducted at a range of key stages in schools on behalf of the School Health and Wellbeing Service. The Review continued throughout the coronavirus pandemic, albeit with a smaller number of participants.

For children at school entry (Reception), the Review is undertaken using a questionnaire completed by the children's parents. Among the questions, parents are asked whether their children have achieved a series of developmental milestones.

Question	Answer	% (if question answered)	
Can your child use the toilet/ potty independently?	Needs adult help	9.6%	
	Wears nappies during the day	3.5%	
	Yes	87.0%	
Can your child ask for help and be understood?	Always	60.0%	
	Never	2.6%	
	Often	25.2%	
	Sometimes	12.2%	
Can your child ask for help when feeling unwell?	Always	70.6%	
	Never	0.9%	
	Often	19.3%	
	Sometimes	9.2%	
Can your child feed themselves using a knife, fork and spoon independently?	Needs adult help	7.9%	
	No	1.8%	
	Yes	90.4%	
Can your child follow simple instructions?	Always	58.3%	
	Never	1.7%	
	Often	34.8%	
	Sometimes	5.2%	
Can your child listen for a short period of time to a story?	Always	52.2%	
	Never	3.5%	
	Often	33.9%	
	Sometimes	10.4%	
Can your child play kindly with other children?	Always	53.1%	
	Never	1.8%	
	Often	38.1%	
	Sometimes	7.1%	
Can your child share their ideas?	Always	53.0%	
	Never	4.3%	
	Often	32.2%	
	Sometimes	10.4%	
Can your child take off unbuttoned clothes independently?	Needs adult help	24.3%	
	No	2.6%	
	Yes	73.0%	
Can your child wash and dry their hands independently?	Needs adult help	6.9%	
	No	2.6%	
	Yes	90.5%	
Has anyone expressed concerns about your child's behaviour?	No	93.9%	
	Yes	6.1%	
Has anyone expressed concerns about your child's diet?	No	91.2%	
	Yes	8.8%	
Has anyone expressed concerns about your child's hearing?	No	95.6%	
	Yes	4.4%	
Has anyone expressed concerns about your child's speech and	No	80.7%	
	Yes	19.3%	
Is your child confident to ask for help?	Always	46.9%	
	Never	3.5%

Section II: CHILDCARE OFFER

Services

There are **993** known childcare services in Warwickshire, a decrease of **5.2%** since the last sufficiency assessment.

(Family Information Service / Early Years & Childcare Entitlements, Sufficiency & Business)

Childcare services are available across the county, with the majority concentrated in urban areas. Areas with fewer services are generally rural and found towards the county border.

There are also **14** Children and Family Centres in the county, offering flexible support for families with young people aged 0-19 years (or 25 years with additional needs).

Places

There are **22,145** confirmed childcare places currently offered in Warwickshire, a decrease of **7.1%** since the last sufficiency assessment.

(Family Information Service)

The district/borough with the largest number of places is Warwick (**5,578**). The district/borough with the smallest number of places is North Warwickshire (**2,476**).

Total confirmed childcare places

Number of confirmed childcare places, by type
(Family Information Service)

Over the past eleven years, though there has been a decline in the number of childcare services in Warwickshire, the total number of confirmed childcare places has remained largely the same.

(Family Information Service / Early Years & Childcare Entitlements, Sufficiency & Business)

Additionally, we can use the number of confirmed places to establish an average number of places per service type and district/borough. Assigning that average to childcare services that have not confirmed their number of places allows us to estimate that the county's actual total number of childcare places is **27,952**.

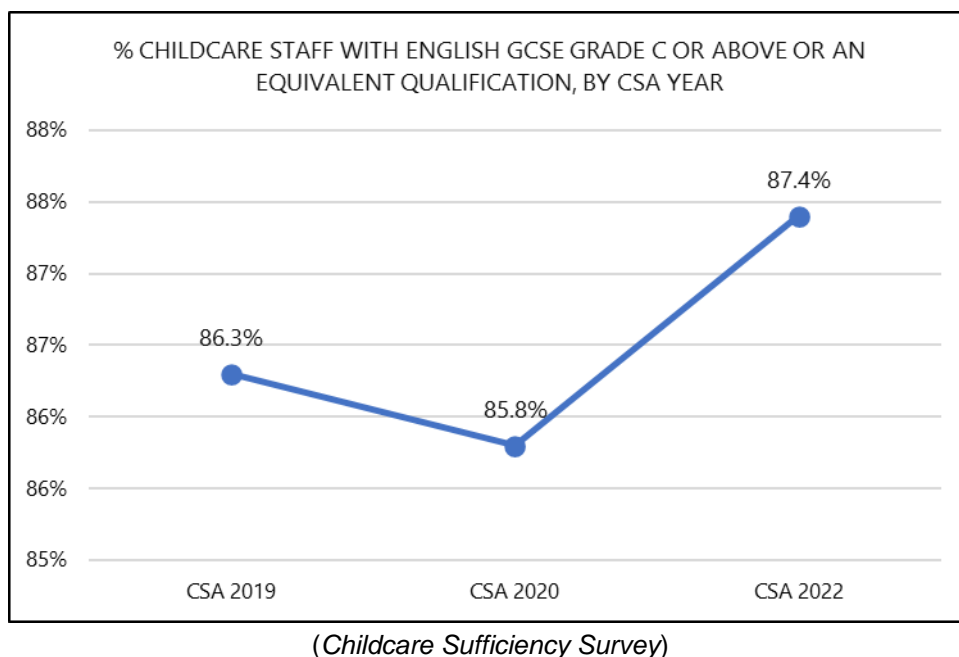

(Family Information Service / Early Years & Childcare Entitlements, Sufficiency & Business)

Workforce

The Childcare Sufficiency Survey asks Warwickshire's childcare providers (focusing on the Early Years sector) about their workforce.

87.4% of the staff who work directly with children have GCSE English at Grade C or above, or an equivalent qualification. At the time of the last sufficiency assessment it was **85.8%**.

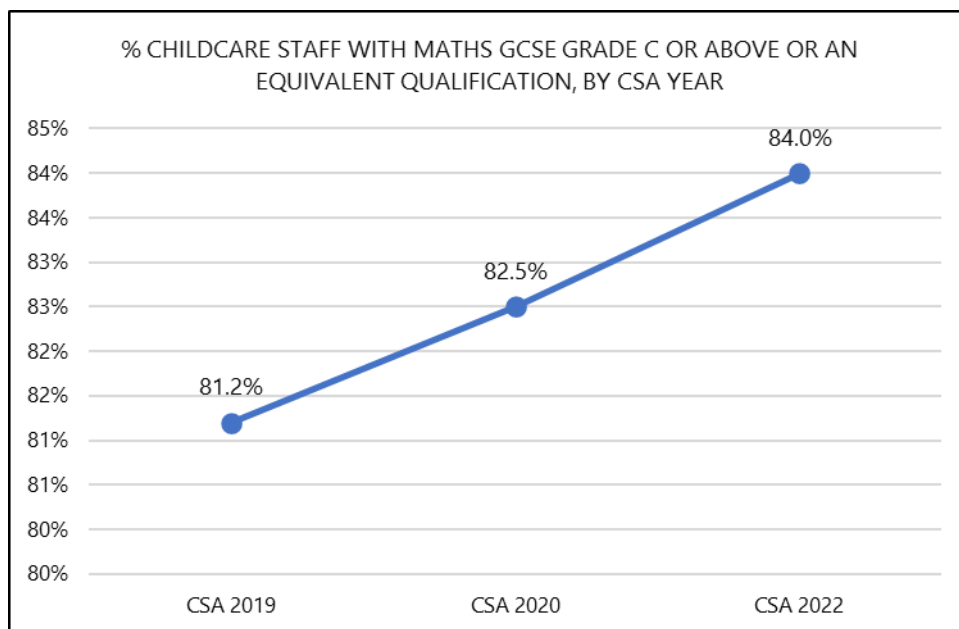

Settings in the North Warwickshire district currently have the lowest percentage of staff with English grade C or above (**80.1%**).

DISTRICT/BOROUGH	English grade C or above

The percentage of staff with Maths GCSEs at Grade C or above, by district/borough
(Childcare Sufficiency Survey)

In autumn 2021, the Childcare Sufficiency Survey asked providers whether they have sufficient numbers of staff. This followed-up on the same question asked in COVID-19 Business Health Checks that were conducted in summers 2020 and 2021.

82.9% of respondents reported having sufficient numbers of staff, down from **93.5%** in the first Business Health Check.

(COVID-19 Business Health Check / Childcare Sufficiency Survey)

The district/borough with the smallest percentage of providers reporting sufficient numbers of staff was Warwick (**68.3%**).

DISTRICT/BOROUGH	Percentage of respondents with sufficient staff				
	BHC 2020	BHC 2021	CSA 2022	Graph	% Change since BHC 2021
North Warwickshire	93.1%	97.3%	92.6%		-4.8%
Nuneaton & Bedworth	97.2%	88.7%	86.9%		-2.0%

WARWICKSHIRE	93.5%	87.0%	82.9%		-4.7%

Childcare providers reporting sufficient numbers of staff, by district/borough
(COVID-19 Business Health Check / Childcare Sufficiency Survey)

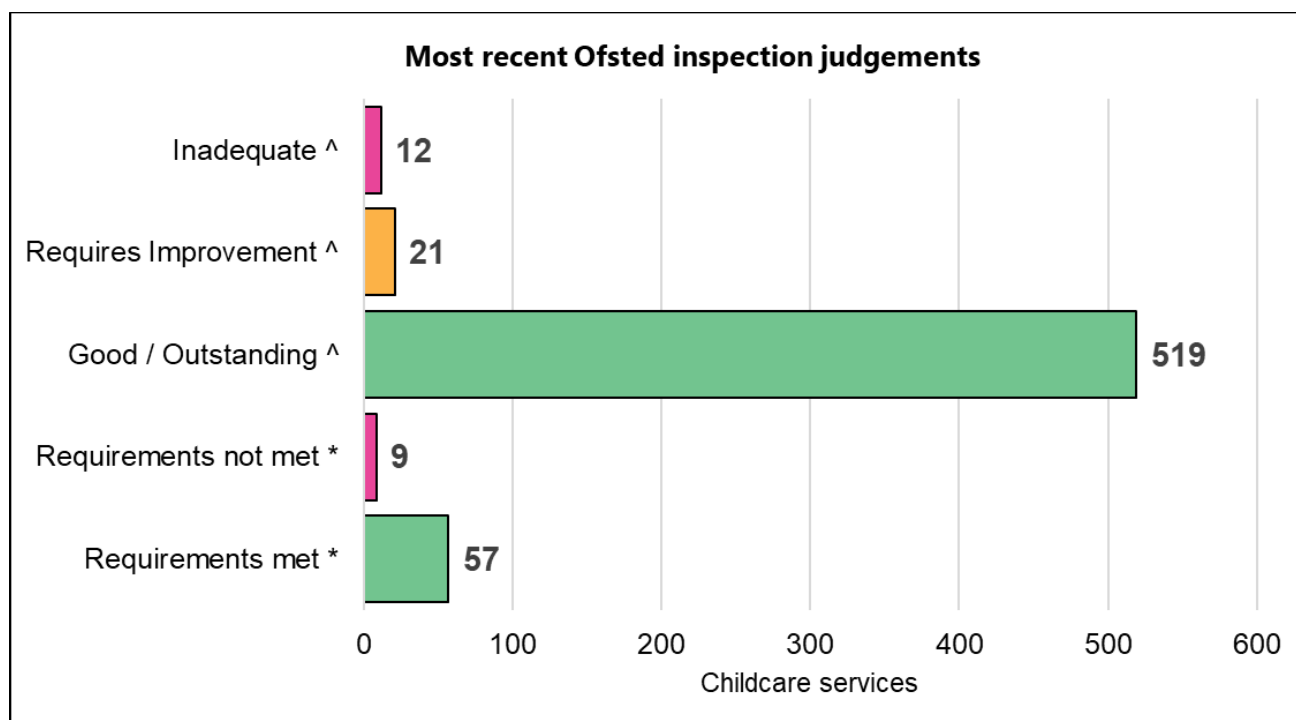

Providers with insufficient numbers of staff were asked the reason for that insufficiency. Difficulty in recruiting has been the most common reason cited since 2021.

REASONS FOR STAFF INSUFFICIENCY	Percentage of respondents				
	BHC 2020	BHC 2021	CSA 2022	Graph	% Change since BHC 2021
Staff have left to pursue other careers	3.5%	14.8%	11.0%		-25.7%
Staff unable to work due to shielding / illness	20.7%	1.6%	3.7%		+125.6%
Unable to recruit	27.6%	50.8%	57.3%		+12.8%
Other	48.3%	32.8%	28.0%		-14.6%

The reasons for staff insufficiency
(COVID-19 Business Health Check / Childcare Sufficiency Survey)

Quality

Most childcare services in Warwickshire are subject to periodic Ofsted inspections. The type of inspection depends on their status and childcare type. Currently the vast majority of services that have been inspected have judgements of Good or Outstanding, or the equivalent judgement for their inspection type.

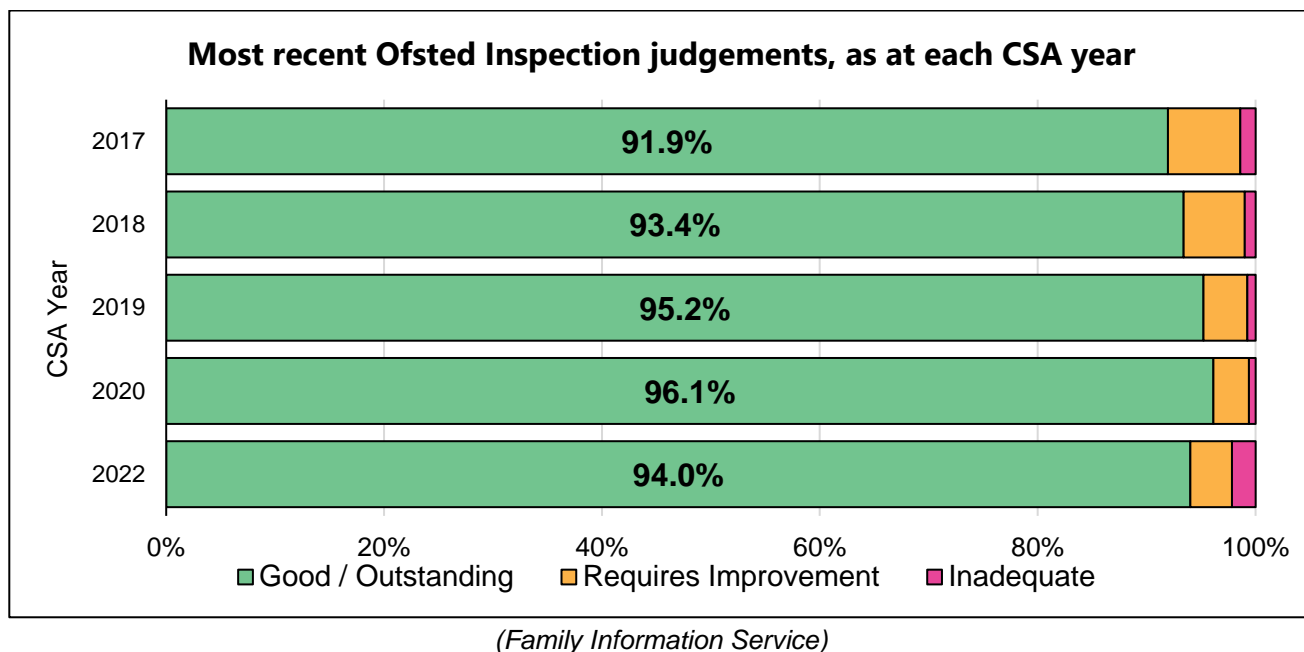

^ Full [Early Years Register](#) inspections

* [Childcare register](#) or [No children on roll](#) inspections.

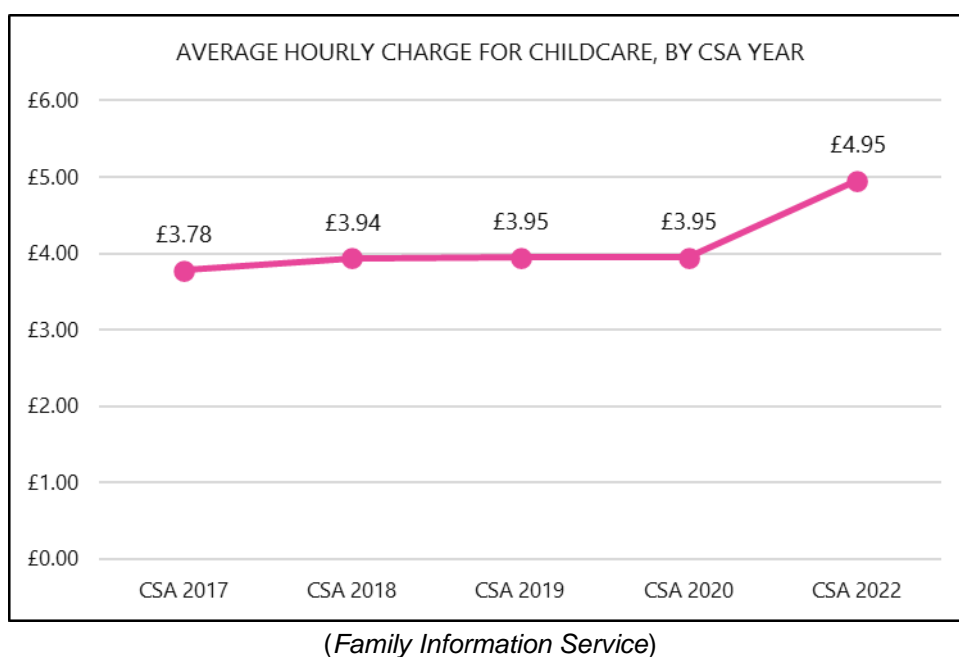

(Family Information Service)

94.0% of the childcare services to have received full Early Years Register inspections were rated Good or Outstanding by Ofsted at their most recent inspection. **2.2%** were rated as Inadequate.

Affordability

The average hourly cost of a childcare place of any kind, outside of free or subsidised places, is **£4.95**. At the time of the last sufficiency assessment it was **£3.95**.

The increase in average hourly charges can be explained to a degree by the effects on the market of the coronavirus pandemic, and by the unique circumstances and payment structures of the wide variety of childcare services submitting information to the Family Information Service (e.g. home childcarers, private nursery schools, nursery units of independent schools).

The cheapest childcare places are found in the North Warwickshire district (**£4.52ph**) and the Nuneaton & Bedworth borough (**£4.58ph**). The costliest childcare places are found in the Warwick district (**£5.57ph**).

DISTRICT/BOROUGH	Average charge per hour					Graph	% Change since CSA 2020
	CSA 2017	CSA 2018	CSA 2019	CSA 2020	CSA 2022		
North Warwickshire	£3.42	£3.71	£3.76	£3.58	£4.52		+26.3%
Nuneaton & Bedworth	£3.49	£3.53	£3.53	£3.54	£4.58		+29.4%
Rugby	£3.84	£3.91	£3.85	£3.84	£5.05		+31.5%

Average hourly charge, by childcare service type
(Family Information Service)

The Childcare Sufficiency Survey collects more detailed cost information on places for Early Years age groups. The average hourly cost of a childcare place for children aged under 5 years old, outside of free or subsidised places, is **£5.22**. At the time of the last sufficiency assessment it was **£4.94**.

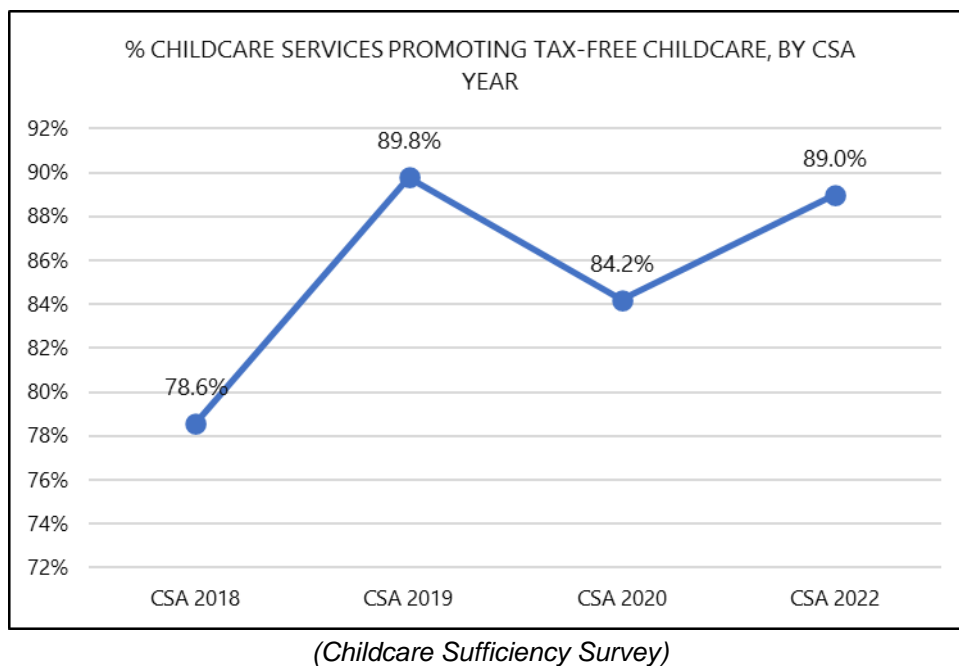

The cheapest childcare places for children under 5 years old are found in the North Warwickshire district (£4.66ph). The costliest childcare places are found in the Stratford district (£5.72ph).

Average hourly charge for children under 5 years old, by district/borough
(Childcare Sufficiency Survey)

The increase in the hourly charge is alleviated for early years age groups by the continued availability of funded childcare places for some two year-old children (see [Children aged two taking up free places](#)) and for all three and four year-old children (see [Children aged three and four taking up free places](#)).

Help is also more widely available via the Tax-Free Childcare scheme, which has been promoted to parents by **89.0%** of the applicable childcare services in the county. At the time of the last sufficiency assessment that figure was **84.2%**.

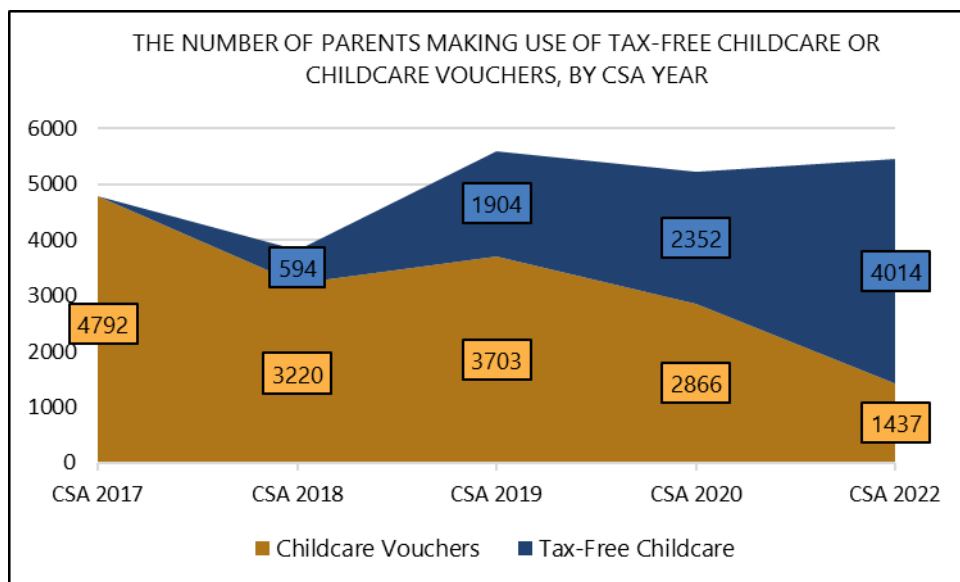

At the time of the last sufficiency assessment, Stratford district had the lowest percentage of childcare services promoting the scheme (**75.3%**). It now has the highest percentage (**94.0%**).

(Childcare Sufficiency Survey)

Take-up

Childcare services in the county have filled **86.1%** of the total number of places they can offer, suggesting services are experiencing healthy demand for places while still having capacity to accommodate more children. At the time of the last sufficiency assessment, childcare services in the county had filled **85.9%** of their total places.

The district/borough to have filled the highest percentage of its total available places is North Warwickshire (**89.6%**). The district/borough to have filled the smallest percentage of its total available places is Stratford (**83.5%**).

Section III: PRIORITY GROUPS

Children aged two taking up free places

Local information

A number of 2-year-old children are entitled to a funded early education place for up to 15 hours a week, known in Warwickshire as the 2Help scheme. The Department for Education has identified **1,485** Warwickshire children as eligible for this entitlement, a **4.1%** increase since the last sufficiency assessment.

(Department for Education)

The district/borough with the largest number of eligible children is Nuneaton & Bedworth.

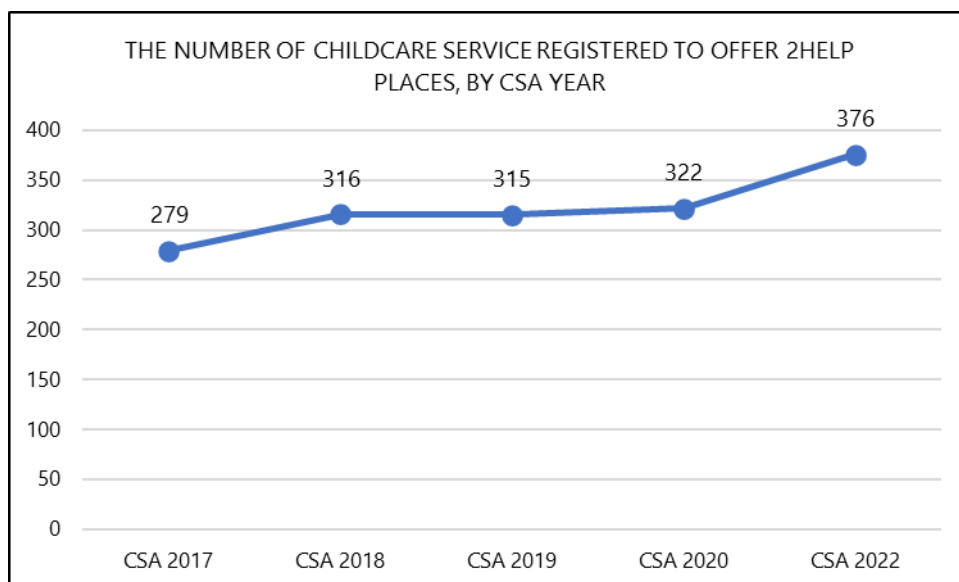

DISTRICT/BOROUGH	Eligible children					Graph	% Change since CSA 2020
	CSA 2017	CSA 2018	CSA 2019	CSA 2020	CSA 2022		
North Warwickshire	187	180	175	166	171		+3.0%
Nuneaton & Bedworth	586	597	517	513	534		+4.1%
Rugby	291	172	274	286	273		-4.5%
Stratford	234	195	231	217	254		+17.1%
Warwick	285	278	247	244	253		+3.7%
WARWICKSHIRE	1583	1422	1444	1426	1485		+4.1%

Children eligible to 2Help places, by district/borough
(Department for Education)

In addition to these base numbers, the Early Years & Childcare Entitlements, Sufficiency & Business team will identify other eligible children throughout the year by way of direct applications from other families that meet the eligibility criteria.

Services

376 childcare services are registered to offer 2Help places, a **16.8%** increase since the last sufficiency assessment.

(Early Years & Childcare Entitlements, Sufficiency & Business)

The district/borough with the largest number of childcare services offering 2Help places is Nuneaton and Bedworth (**84**). This is also where the largest number of eligible children reside.

Childcare services registered to offer 2Help places

2Help providers with sufficient staff, by district/borough
(Childcare Sufficiency Survey)

Quality

Currently the vast majority of services that are registered to offer 2Help places and have been inspected by Ofsted have judgements of Good or Outstanding, or the equivalent judgement for their inspection type.

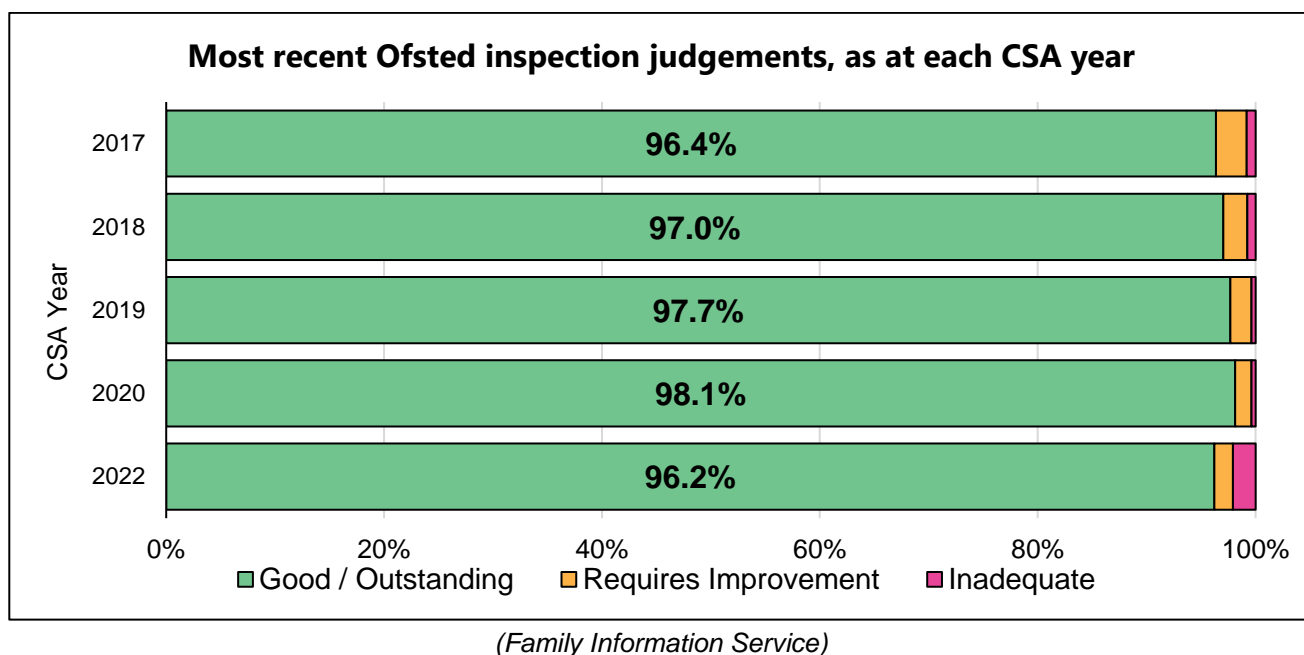

^ Full Early Years Register inspections

* Childcare register or No children on roll inspections.

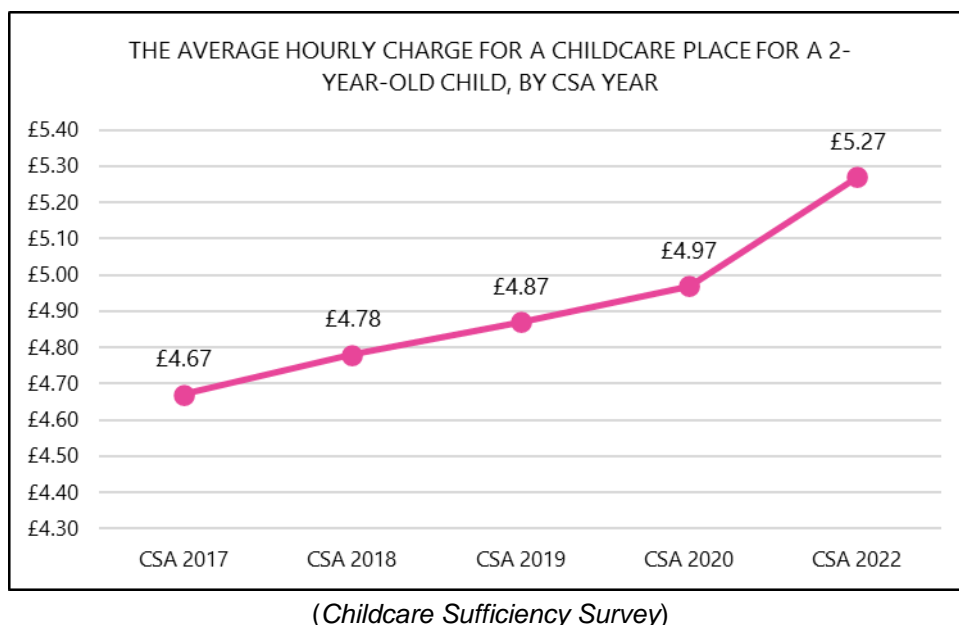

(Family Information Service)

96.2% of the childcare services to have received full Early Years Register inspections were rated Good or Outstanding by Ofsted at their most recent inspection. **2.1%** were rated as Inadequate.

Affordability

Without the funded hours, the average hourly cost of a childcare place for 2Help children would be **£5.27**, an increase of **6%** since the last sufficiency assessment.

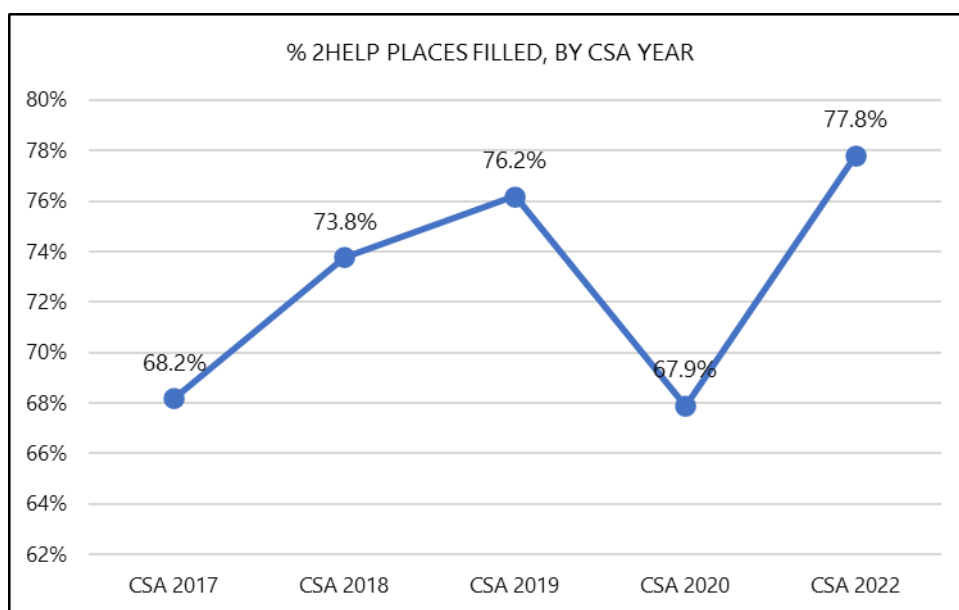

The cheapest non-funded childcare places for 2-year-old children are found in the North Warwickshire district (**£4.68ph**). The costliest non-funded childcare places are found in the Stratford district (**£5.76ph**) and the Warwick district (**£5.70ph**).

Average charge per hour for two year-old children outside funded hours							
DISTRICT/BOROUGH	CSA 2017	CSA 2018	CSA 2019	CSA 2020	CSA 2022	Graph	% Change since CSA 2020
North Warwickshire	£4.11	£4.22	£4.39	£4.41	£4.68		+6.1%

Average hourly charge for a childcare place for a 2-year-old child, by district/borough
(Childcare Sufficiency Survey)

Take-up

Childcare services in the county have filled **77.8%** of the total number of 2Help places that they can offer, suggesting services are experiencing healthy demand for funded places while still having capacity to accommodate more children if eligibility numbers increase. At the time of the last sufficiency assessment, childcare services in the county had filled **67.9%** of their total number of 2Help places.

(Childcare Sufficiency Survey)

The district/borough to have filled the highest percentage of its total available 2Help places is Nuneaton & Bedworth (**82.9%**). The district/borough to have filled the smallest percentage of its total available places is Warwick (**69.8%**).

Percentage of 2Help places filled							
DISTRICT/BOROUGH	CSA 2017	CSA 2018	CSA 2019	CSA 2020	CSA 2022	Graph	% Change since CSA 2020
North Warwickshire	76.2%	88.1%	75.1%	76.9%	80.2%		+4.3%

Children aged three and four taking up free places

Local information

There are **13,299** 3 and 4-year-olds in Warwickshire, a **3.2%** increase since the last sufficiency assessment. All of these children are entitled to 15 hours per week of universal Early Education (uEE) places for 3 and 4 year olds until they attend school or reach compulsory school age.

(Office for National Statistics)

The largest number of this age group live in the Nuneaton & Bedworth borough.

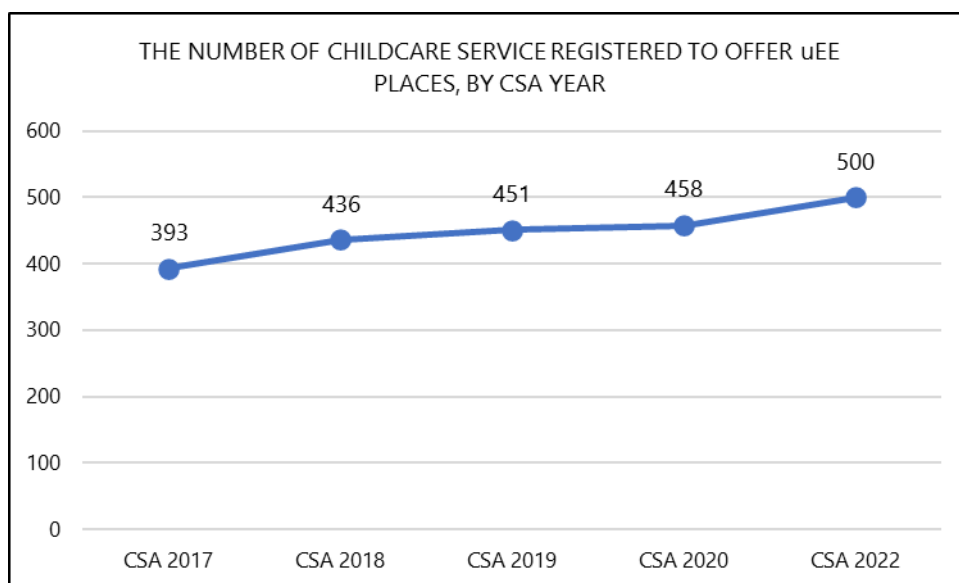

3 & 4 year-old population							
DISTRICT/BOROUGH	CSA 2017	CSA 2018	CSA 2019	CSA 2020	CSA 2022	Graph	% Change since CSA 2020

(Childcare Sufficiency Survey)

Quality

Currently the vast majority of services that are registered to offer uEE places and have been inspected by Ofsted have judgements of Good or Outstanding, or the equivalent judgement for their inspection type.

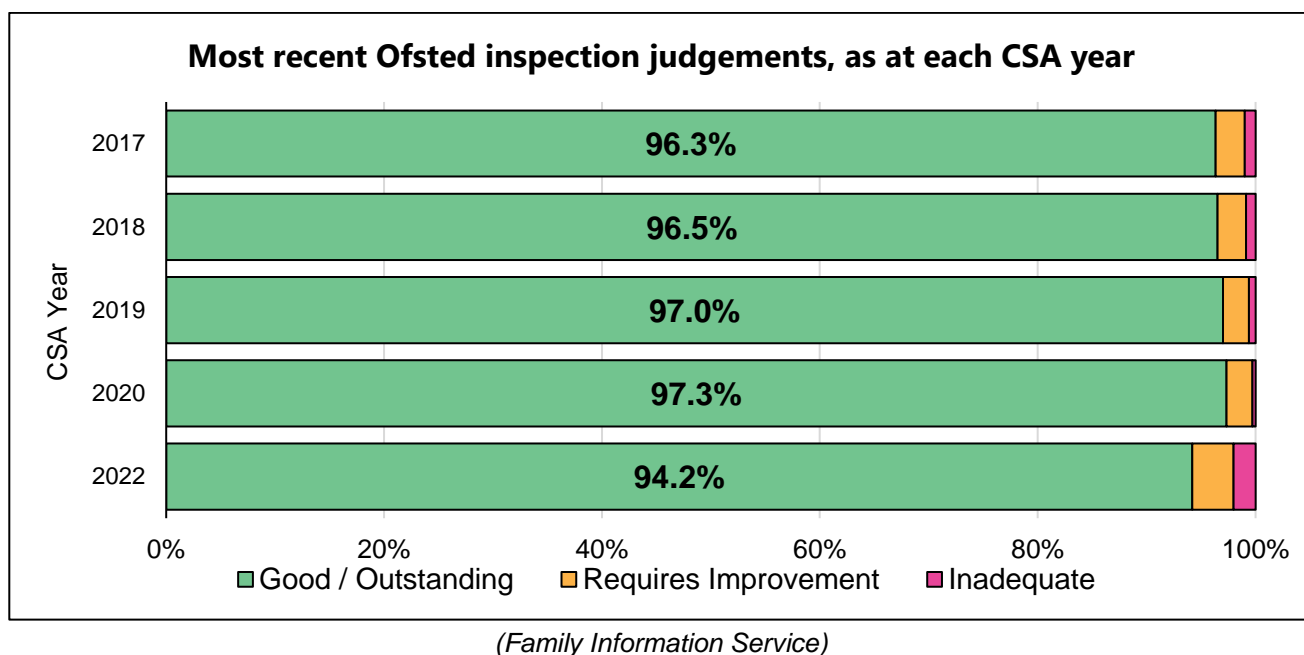

^ Full [Early Years Register](#) inspections

* [Childcare register](#) or [No children on roll](#) inspections.

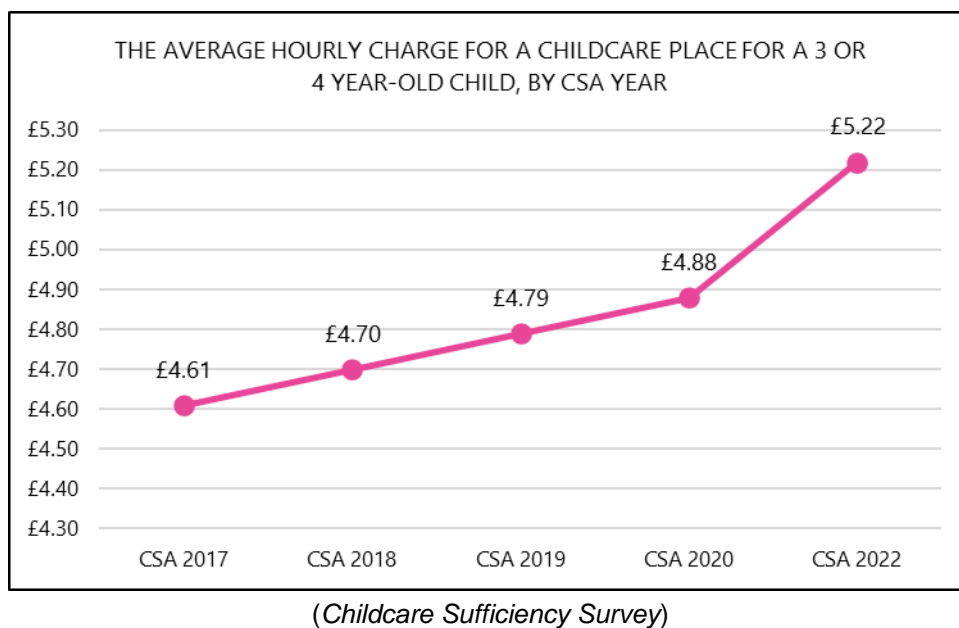

(Family Information Service)

94.2% of the childcare services to have received full Early Years Register inspections were rated Good or Outstanding by Ofsted at their most recent inspection. **2.0%** were rated as Inadequate.

Affordability

Without the funded hours, the average hourly cost of a childcare place for 3 and 4-year-old children would be **£5.22**, an increase of **7.0%** since the last sufficiency assessment.

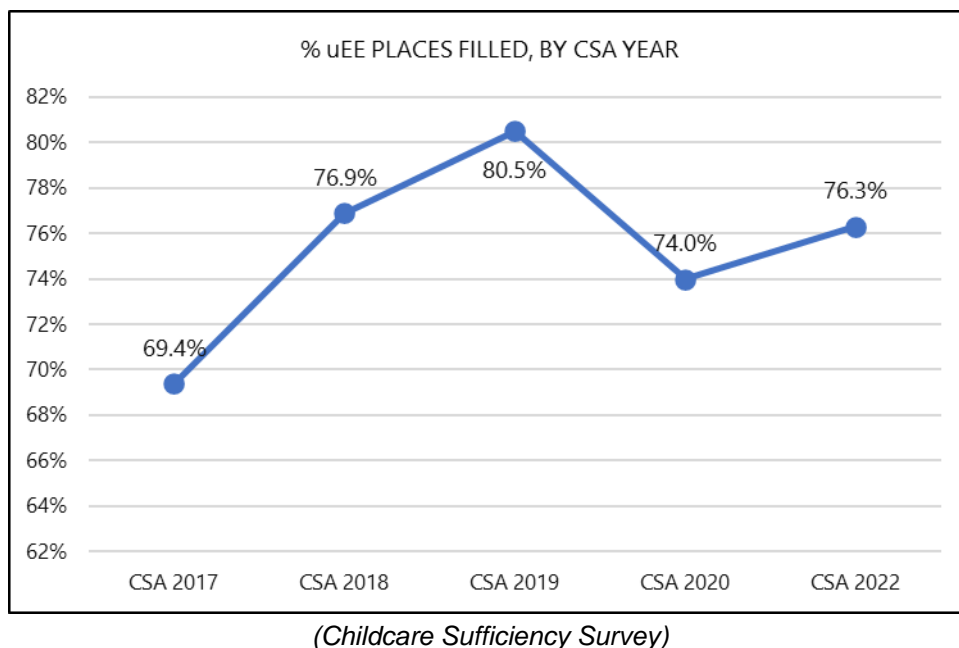

The cheapest non-funded childcare places for 3 & 4-year-old children are found in the North Warwickshire district (**£4.62ph**) and the Nuneaton & Bedworth borough (**£4.73ph**). The costliest non-funded childcare places are found in the Stratford district (**£5.82ph**).

Average charge per hour for three and four year-old children outside funded hours							
DISTRICT/BOROUGH	CSA 2017	CSA 2018	CSA 2019	CSA 2020	CSA 2022	Graph	% Change since CSA 2020
North Warwickshire	£4.08	£4.11	£4.36	£4.36	£4.62		+6.0%
Nuneaton & Bedworth	£4.24	£4.28	£4.43	£4.65	£4.73		+1.7%
Rugby	£4.74	£4.52	£4.72	£4.75	£5.17		+8.8%
Stratford	£4.76	£5.05	£5.11	£5.27	£5.82		+10.4%
Warwick	£4.97	£5.22	£5.23	£5.27	£5.54		+5.1%
WARWICKSHIRE	£4.61	£4.70	£4.79	£4.88	£5.22		+7.0%

Average hourly charge for a childcare place for a 3 or 4-year-old child, by district/borough
(Childcare Sufficiency Survey)

Take-up

Childcare services in the county have filled **76.3%** of the total number of uEE places that they can offer, suggesting services are experiencing healthy demand for funded places while still having capacity to accommodate more children. At the time of the last sufficiency assessment, childcare services in the county had filled **74.0%** of their total number of uEE places.

The district/borough to have filled the highest percentage of its total available uEE places is North Warwickshire (**81.8%**). The district/borough to have filled the smallest percentage of its total available places is Stratford (**71.0%**).

Percentage of uEE places filled							
DISTRICT/BOROUGH	CSA 2017	CSA 2018	CSA 2019	CSA 2020	CSA 2022	Graph	% Change since CSA 2020
North Warwickshire	74.4%	90.6%	80.7%	82.7%	81.8%		-1.1%
Nuneaton & Bedworth	78.1%	71.4%	83.7%	73.8%	76.8%		+4.1%
Rugby	70.3%	79.2%	85.2%	74.7%	75.4%		+0.9%
Stratford	65.4%	68.3%	78.1%	74.0%	71.0%		-4.1%
Warwick	61.1%	73.3%	77.0%	70.0%	76.9%		+9.9%
WARWICKSHIRE	69.4%	76.9%	80.5%	74.0%	76.3%		+3.1%

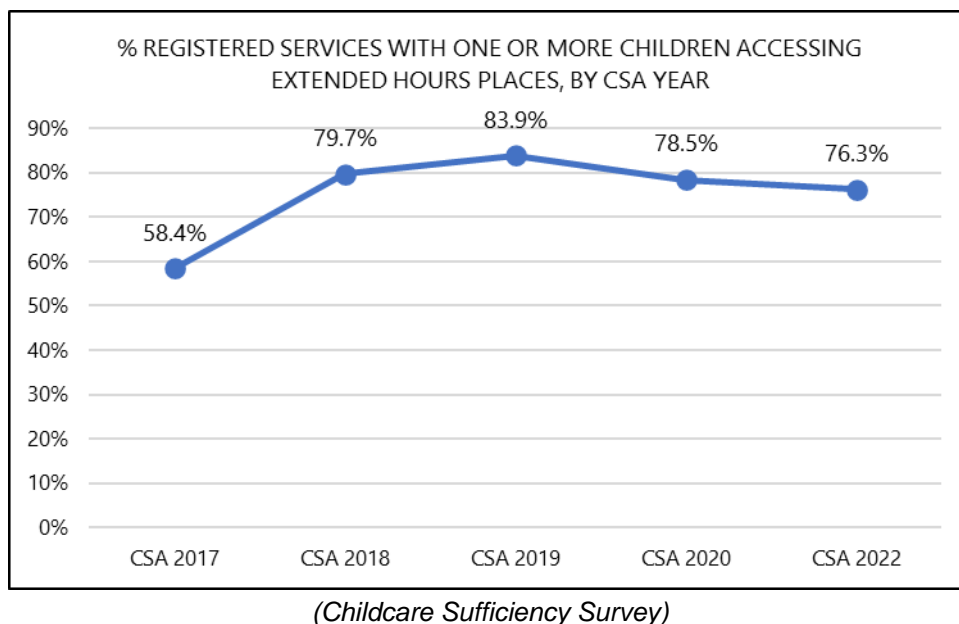

The percentage of uEE places filled, by district/borough
(Childcare Sufficiency Survey)

Of the Warwickshire children accessing uEE places at childcare services in the county, **59.8%** are taking some or all of their hours in their local Planning Area. At the last sufficiency assessment it was **60.7%**.

95.2% are taking some or all of their hours in their local district/borough. At the last sufficiency assessment it was also **95.2%**.

7.0% of the children accessing uEE places at Warwickshire childcare services are resident outside the county. At the last sufficiency assessment it was **6.1%**.

76.3% of the services registered to offer uEE places have one or more children accessing the additional 15 hours free childcare places that are available to some families. At the time of the last sufficiency assessment it was **78.5%**.

93.6% of Warwickshire’s 3 and 4-year-old children are accessing uEE places at Warwickshire childcare services, attending a Warwickshire maintained nursery school, or are in the reception class of a Warwickshire school. At the last sufficiency assessment it was **95.7%**.

The break down is as follows: **44.8%** of Warwickshire’s 3 and 4-year-old children are accessing uEE places. **2.2%** are attending a maintained nursery school. **46.6%** are in school reception classes.

Of the remaining **6.4%** of the population, a proportion will live near the county border and be accessing Early Years provision in neighbouring counties.

Children with special educational needs and disabilities

Local information

The annual Family Resources Survey produced by the Department for Work and Pensions indicates that children have a **9%** prevalence of disabilities nationally. This translates to **10,724** children with disabilities in Warwickshire, a **15.6%** increase since the last sufficiency assessment.

(Department for Work and Pensions / Office for National Statistics)

The Nuneaton & Bedworth borough and the Warwick district have the largest numbers of children with a disability (**2,568** and **2,501** respectively). The North Warwickshire district has the smallest number (**1,153**).

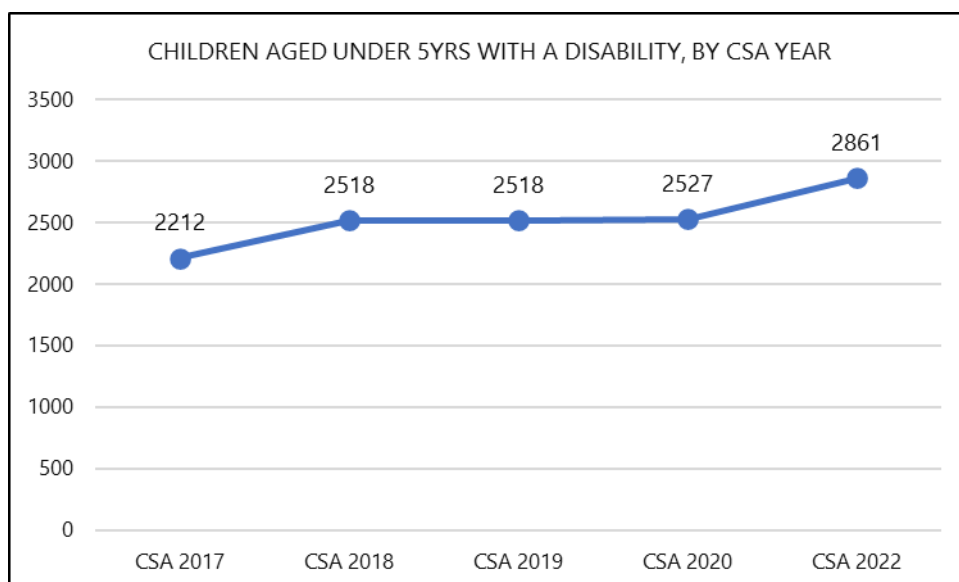

Number of individuals aged under 18yrs with a disability							
DISTRICT/BOROUGH	CSA 2017	CSA 2018	CSA 2019	CSA 2020	CSA 2022	Graph	Change since CSA 2020
North Warwickshire	856	982	996	1010	1153		+14.1%
Nuneaton & Bedworth	1904	2192	2220	2236	2568		+14.9%
Rugby	1616	1865	1898	1927	2263		+17.4%
Stratford	1611	1856	1882	1915	2239		+17.0%
Warwick	1899	2156	2158	2186	2501		+14.4%
WARWICKSHIRE	7886	9052	9154	9274	10724		+15.6%

Children with a disability, by district/borough

(Department for Work and Pensions / Office for National Statistics)

The Family Resources Survey applies this definition of a person with a disability: “A person is considered to have a disability if they have a long-standing illness, disability or impairment which causes substantial difficulty with day-to-day activities.” Accordingly, not all of these children will require specialist support in terms of childcare provision.

There are **2,861** children aged under 5 years old with disabilities in Warwickshire, a **13.2%** increase since the last sufficiency assessment.

(Department for Work and Pensions / Office for National Statistics)

The Nuneaton & Bedworth borough has the largest number of children aged under 5 years old with a disability (**728**). The North Warwickshire district has the smallest number (**296**).

DISTRICT/BOROUGH	Number of individuals aged under 5yrs with a disability					Graph	Change since CSA 2020
	CSA 2017	CSA 2018	CSA 2019	CSA 2020	CSA 2022

WARWICKSHIRE	2212	2518	2518	2527	2861		+13.2%

Children aged under 5 years old with a disability, by district/borough
(Department for Work and Pensions / Office for National Statistics)

The Integrated Disability Service (IDS) works with children that have a diagnosed SEN/D. The tables below detail the number of children that IDS has been working with.

At present we have 539 children in, Early Years and childcare settings supported by IDS 0-5 specialist teachers and SEND childcare co-ordinators. 167 of these are girls. 8 of the younger children are being supported prior in their transition into nursery, due to the level of their complex needs, as training needs to be completed with nursery staff prior to starting.

School Entry	Centre	East	North	Nuneaton & Bedworth	South
2022	105	61	23	134	54
2023	36	20	15	54	18
2024	7	1	2	8	1
Total	148	82	40	196	73

In addition we have another 105 children being supported by Portage for learning at home. 36 are girls.

School Entry	Centre	East	North	Nuneaton & Bedworth	South
2023	8	9	1	8	6
2024	16	8	2	22	6
2025	4	4	3	6	6
2026	0	0	0	0	1
Total	28	21	6	36	14

IDS caseload, Feb 2022
(Integrated Disability Service)

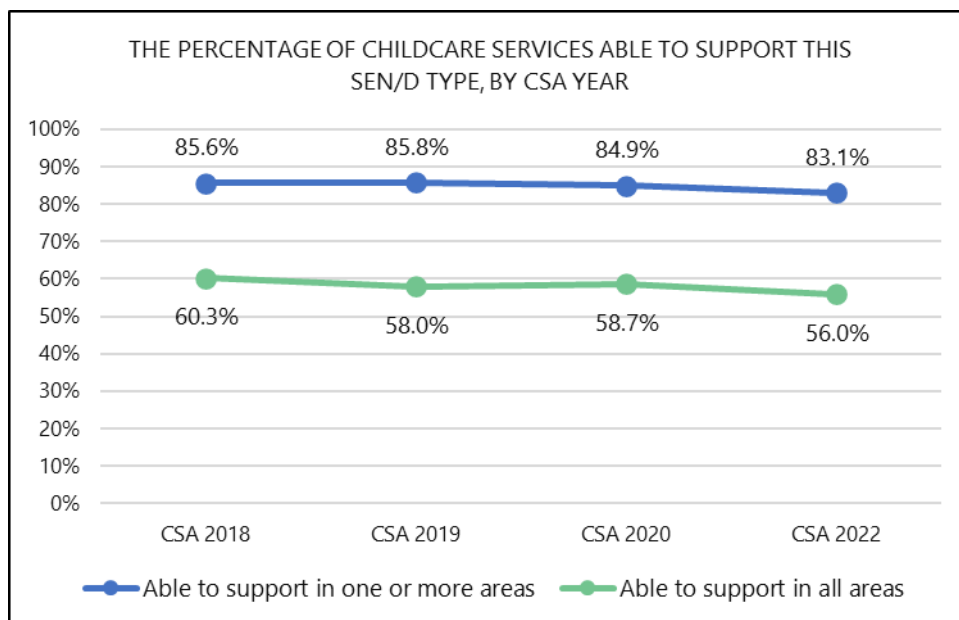

Services

The Childcare Sufficiency Survey asks providers to indicate whether they are able to support SEN/D children in terms of these areas: PHYSICAL ACCESS, SPECIALIST RESOURCES, STAFFING LEVELS, and STAFF EXPERIENCE. The results from the survey are outlined below. It should be noted that the survey focuses primarily on the Early Years sector.

SEN/D type: Cognition and learning

56.0% of providers are able to support this SEN/D type in all areas. At the last sufficiency assessment it was **58.7%**.

83.1% of providers are able to support this SEN/D type in one or more areas. At the last sufficiency assessment it was **84.9%**.

School age children

Local information

There are currently **48,146** children aged from 5 years old to 11 years old in Warwickshire, a **2.2%** increase since the last sufficiency assessment. This age group needs childcare out of school hours, often requiring school drop-offs and pick-ups.

(Office for National Statistics)

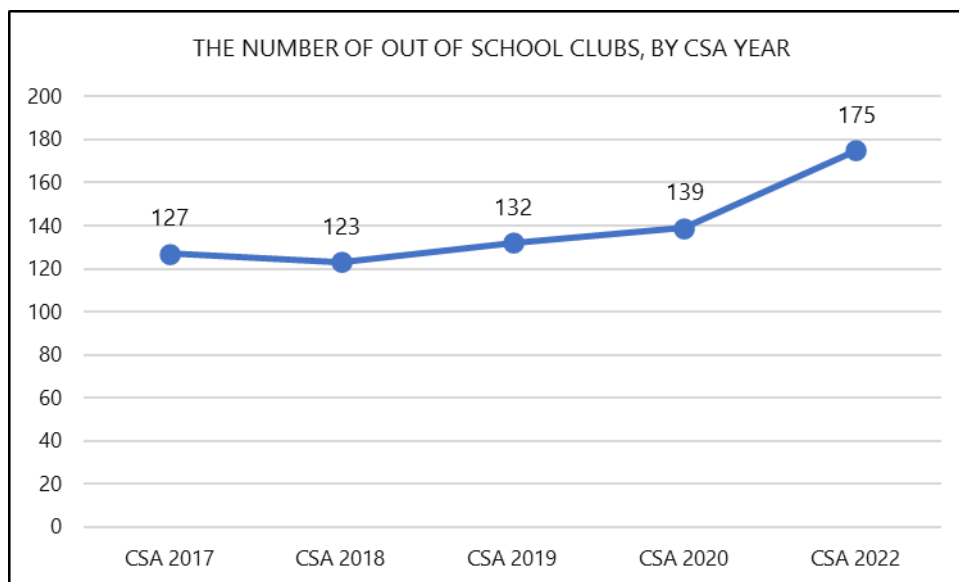

The largest number of this age group live in the Nuneaton & Bedworth borough and the Warwick district.

5yrs - 11yrs population							
DISTRICT/BOROUGH	CSA 2017	CSA 2018	CSA 2019	CSA 2020	CSA 2022	Graph	% Change since CSA 2020

5yrs – 11yrs population, by district/borough
(Office for National Statistics)

Services

There are **175** out of school clubs in Warwickshire, a **25.9%** increase since the last sufficiency assessment, though it should be noted that this year's assessment includes out of school clubs that were not known to the Family Information Service at the time of previous assessments, having since been identified by the Early Years & Childcare Entitlements, Sufficiency & Business team.

(Family Information Service / Early Years & Childcare Entitlements, Sufficiency & Business)

The district/borough with the largest number of out of school clubs is Warwick (**50**). The district/borough with the fewest out of school clubs is North Warwickshire (**18**).

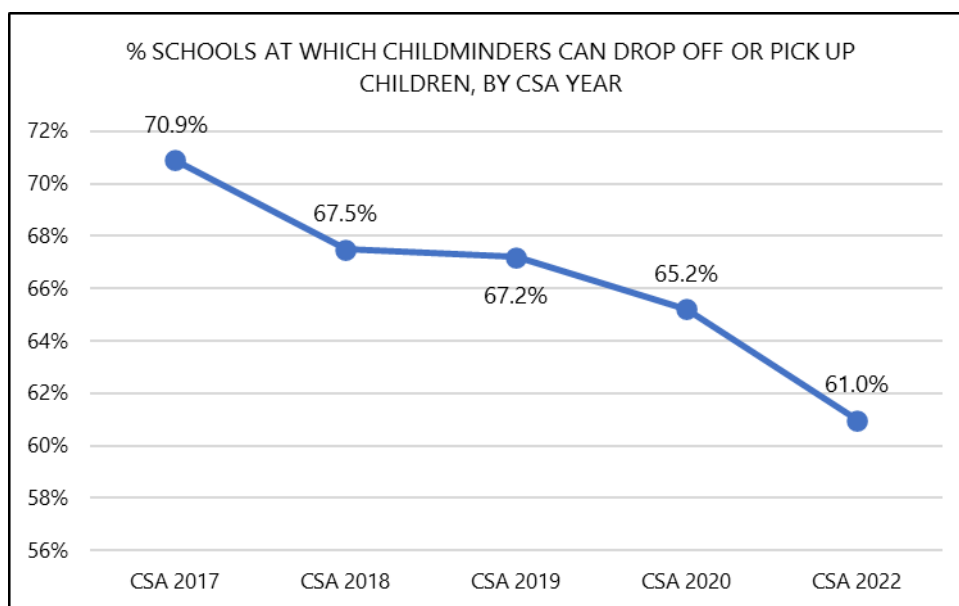

Number of out of school clubs							
DISTRICT/BOROUGH	CSA 2017	CSA 2018	CSA 2019	CSA 2020	CSA 2022	Graph	% Change since CSA 2020
North Warwickshire	11	11	12	12	18		+50.0%
Nuneaton & Bedworth	23	24	25	25	27		+8.0%

Warwick	32	28	32	36	50		+38.9%
WARWICKSHIRE	127	123	132	139	175		+25.9%

Number of out of school clubs, by district/borough

(Family Information Service / Early Years & Childcare Entitlements, Sufficiency & Business)

Additionally, childminders have confirmed their availability to drop off or pick up children at **61.0%** of Warwickshire's infant, junior and primary schools. At the last sufficiency assessment it was **65.2%**. Some childminders indicate that they are "flexible" with regards to dropping off

and picking up from schools without specifying the schools involved, so these percentages are always artificially low.

(Family Information Service)

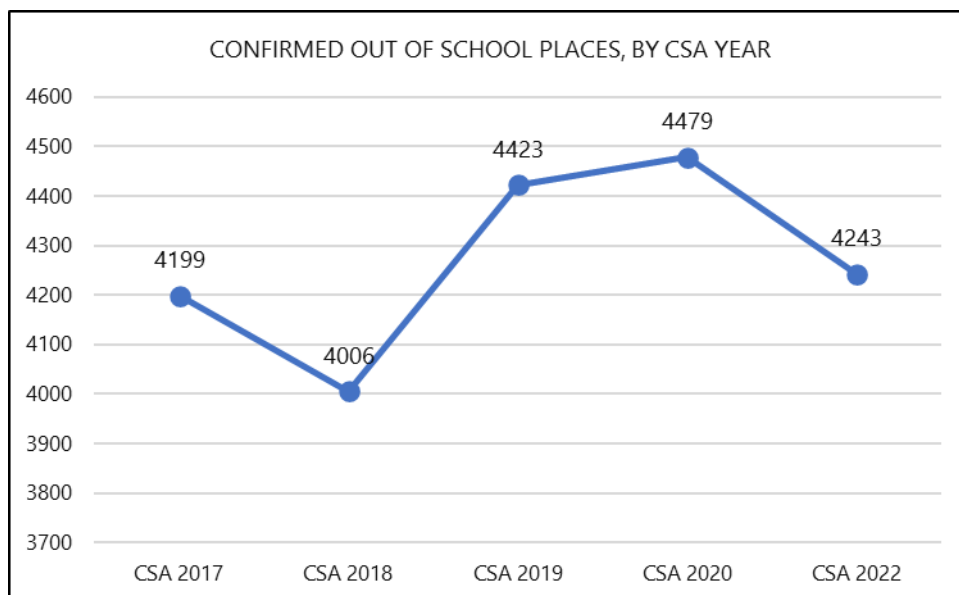

The district/borough with the highest percentage of schools at which childminders have confirmed they would be able to drop off or collect children is Nuneaton & Bedworth (**84.6%**). The district/borough with the smallest percentage is Stratford (**37.9%**).

% of infant, junior and primary schools at which childminders can drop off or pick up children							
DISTRICT/BOROUGH	CSA 2017	CSA 2018	CSA 2019	CSA 2020	CSA 2022	Graph	% Change since CSA 2020

(Family Information Service)

Places

There are **4,243** confirmed places at out of school clubs in Warwickshire, a **5.3%** decrease since the last sufficiency assessment.

(Family Information Service)

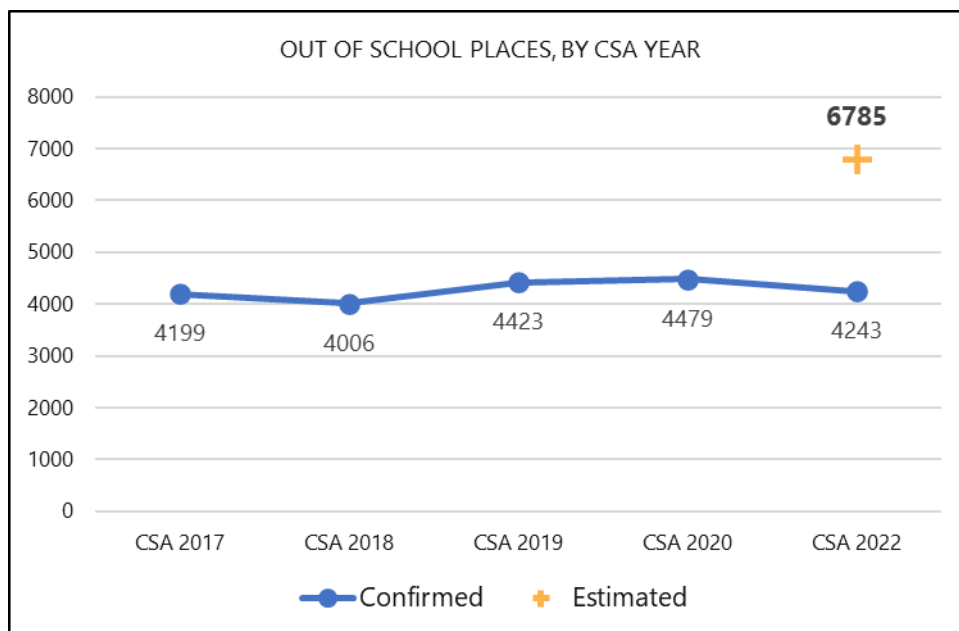

The district/borough with the largest number of confirmed out of school places is Nuneaton & Bedworth (**1,227**). The district/borough with the smallest number of confirmed out of school places is North Warwickshire (**491**).

Confirmed out of school places							
DISTRICT/BOROUGH	CSA 2017	CSA 2018	CSA 2019	CSA 2020	CSA 2022	Graph	% Change since CSA 2020
North Warwickshire	365	365	365	349	491		+40.7%

WARWICKSHIRE	4199	4006	4423	4479	4243		-5.3%

Number of confirmed places at out of school clubs, by district/borough

(Family Information Service)

It should be noted that not all out of school clubs are known to the Family Information Service, while some that are known to FIS don't choose to confirm their total number of places (e.g. out of school clubs run by schools whose pupils have priority access to their out of school places, or clubs run by schools with academy status). Work undertaken by the Early Years & Childcare Entitlements, Sufficiency & Business team has identified many of these clubs and allows us to estimate that the actual total number of out of school places in the county is approximately **6,785**.

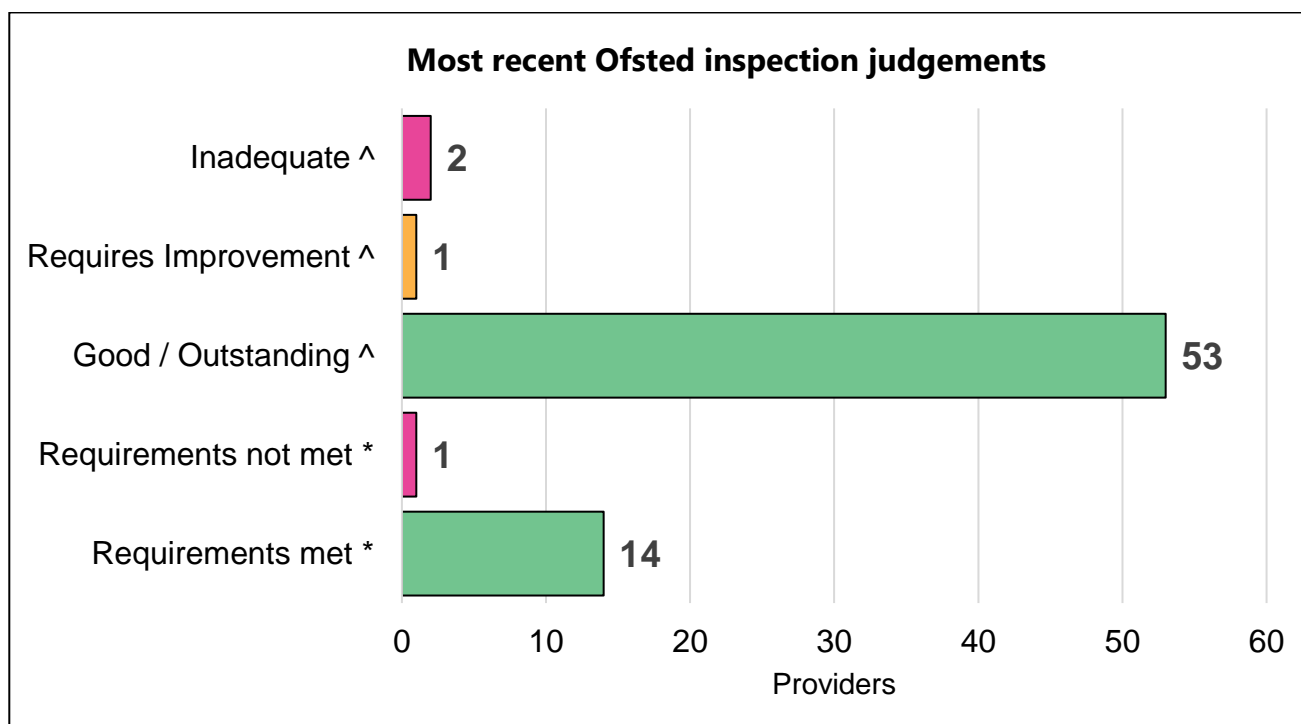

(Family Information Service / Early Years & Childcare Entitlements, Sufficiency & Business)

Workforce

Data on the workforce in out of school clubs is not currently available.

Quality

Currently the great majority of the out of school clubs with providers who have been inspected by Ofsted are run by providers who have inspection judgements of Good or Outstanding, or the equivalent judgement for their inspection type.

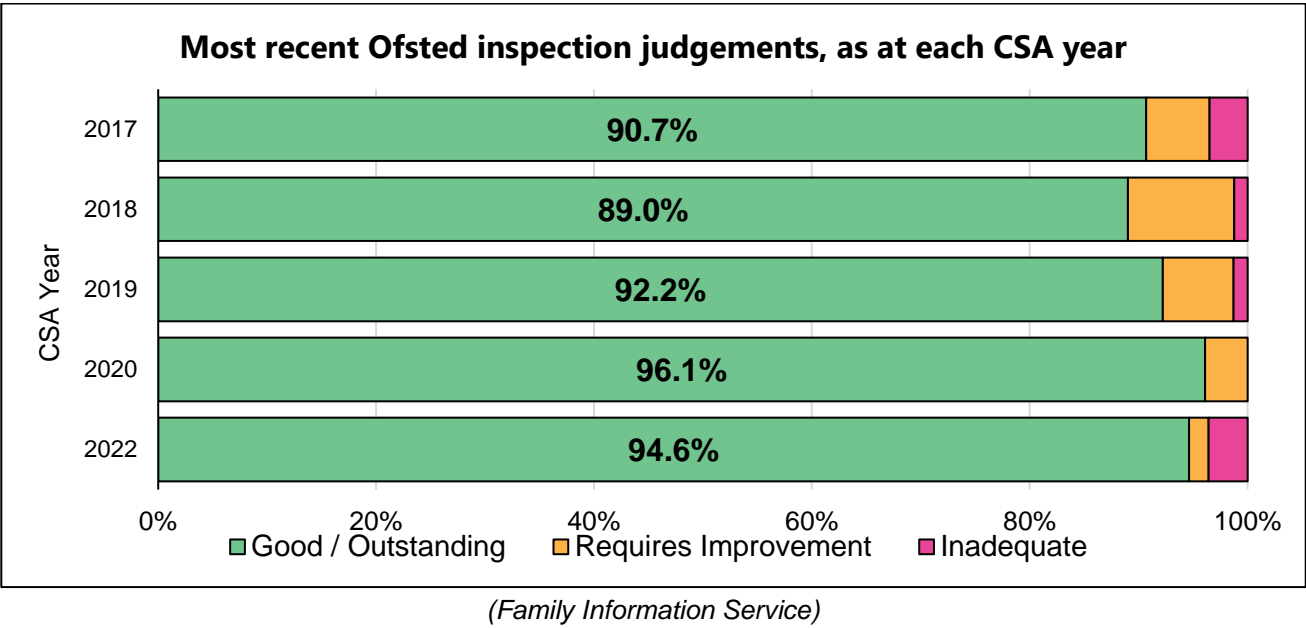

^ Full Early Years Register inspections

* Childcare register or No children on roll inspections.

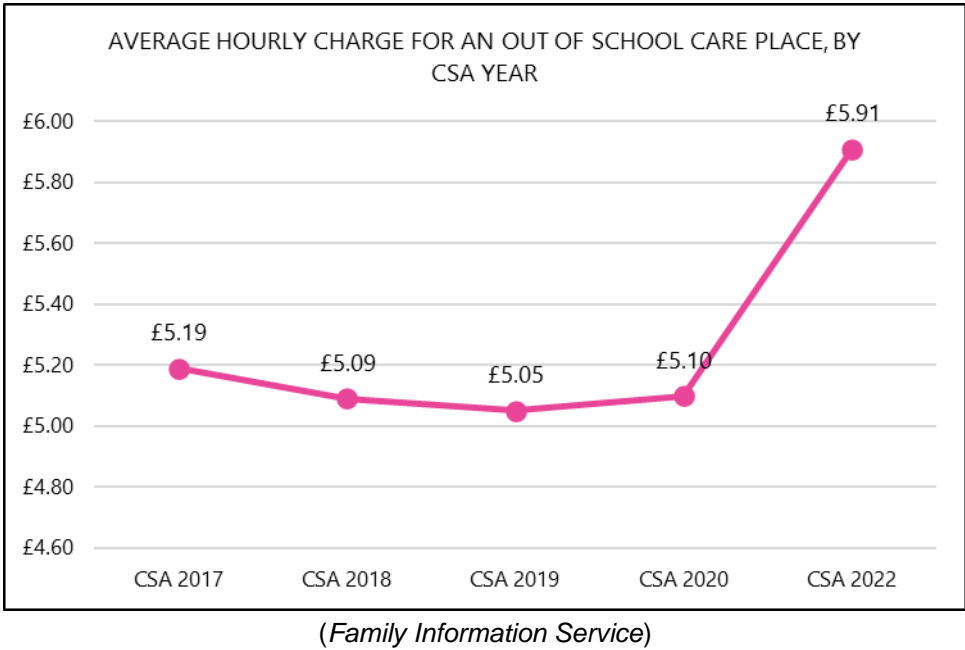

(Family Information Service)

94.6% of the providers to have received full Early Years Register inspections were rated Good or Outstanding by Ofsted at their most recent inspection. **3.6%** were rated as Inadequate.

Affordability

The average hourly cost of a place at an out of school club is **£5.91**. At the time of the last sufficiency assessment it was **£5.10**.

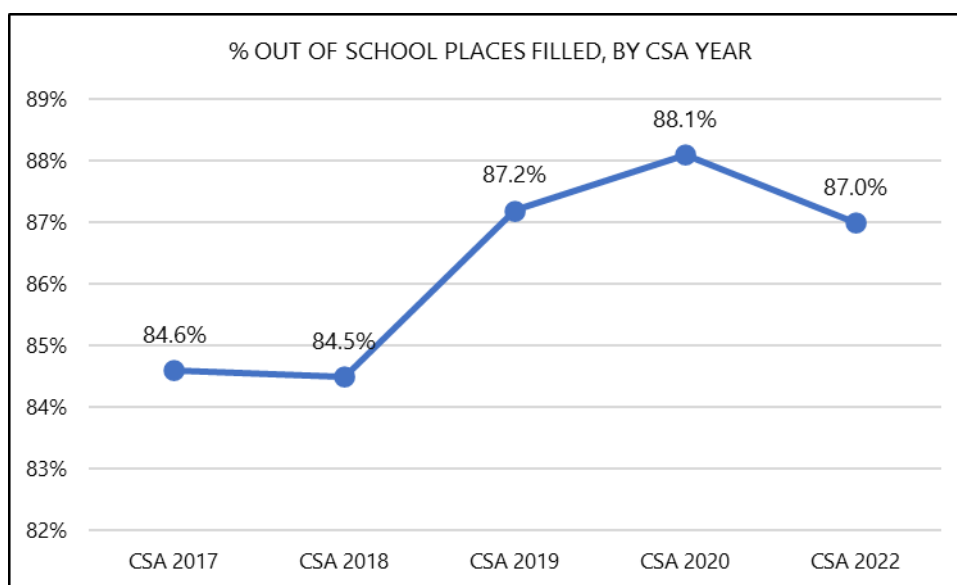

The cheapest out of school places are found in the North Warwickshire district (**£3.76ph**). The costliest out of school places are found in the Warwick district (**£7.71ph**).

Average charge per hour for an OOSC place							
DISTRICT/BOROUGH	CSA 2017	CSA 2018	CSA 2019	CSA 2020	CSA 2022	Graph	% Change since CSA 2020
North Warwickshire	£3.61	£5.22	£5.22	£6.29	£3.76		-40.2%

WARWICKSHIRE	£5.19	£5.09	£5.05	£5.10	£5.91		+15.9%

Average hourly charge for a place at an out of school club, by district/borough
(Family Information Service)

Take-up

The out of school clubs known to the Family Information Service have filled **87%** of the total number of places they can offer, suggesting clubs are experiencing healthy demand for places while still having capacity to accommodate more children. At the time of the last sufficiency assessment, clubs had filled **88.1%** of their total places.

(Family Information Service)

The district/borough to have filled the highest percentage of its total available out of school care places is North Warwickshire (**96.5%**), which is running almost at capacity. The district/borough to have filled the smallest percentage of its total available out of school care places is Warwick (**78.4%**).

Percentage of out of school places filled

Children needing holiday care

Local information

There are currently **87,364** children aged from 5 years old to 17 years old in Warwickshire, a **3.6%** increase since the last sufficiency assessment. This age group needs provision during the school holidays. Holiday provision is of particular benefit to working families with children aged from 5 to 11 years old, for whom holiday schemes can provide another source of childcare.

(Office for National Statistics)

The largest number of the 5yrs-17yrs age group live in the Nuneaton & Bedworth borough and the Warwick district.

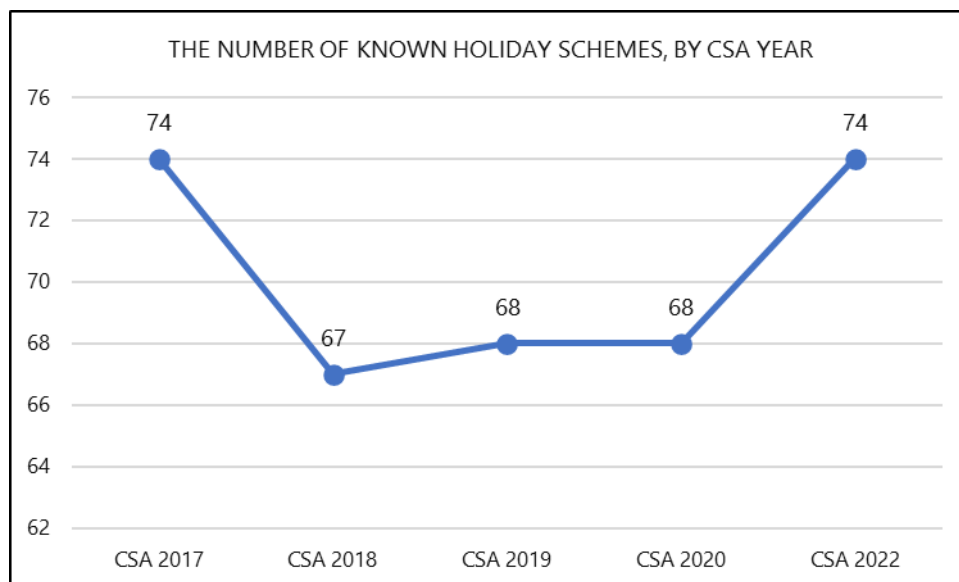

5yrs - 17yrs population							
DISTRICT/BOROUGH	CSA 2017	CSA 2018	CSA 2019	CSA 2020	CSA 2022	Graph	% Change since CSA 2020
North Warwickshire	8913	8949	9051	9273	9518		+2.6%

5yrs – 17yrs population, by district/borough

(Office for National Statistics)

Services

There are **74** known holiday schemes operating in Warwickshire, an **8.8%** increase since the last sufficiency assessment, though it should be noted that this year's assessment includes holiday schemes that were not known to the Family Information Service at the time of previous assessments, having since been identified by the Early Years & Childcare Entitlements, Sufficiency & Business team.

(Family Information Service / Early Years & Childcare Entitlements, Sufficiency & Business)

The districts/boroughs with the largest number of holiday schemes are Warwick (**22**) and Stratford (**21**). The districts/borough with the fewest holiday schemes is North Warwickshire (**8**).

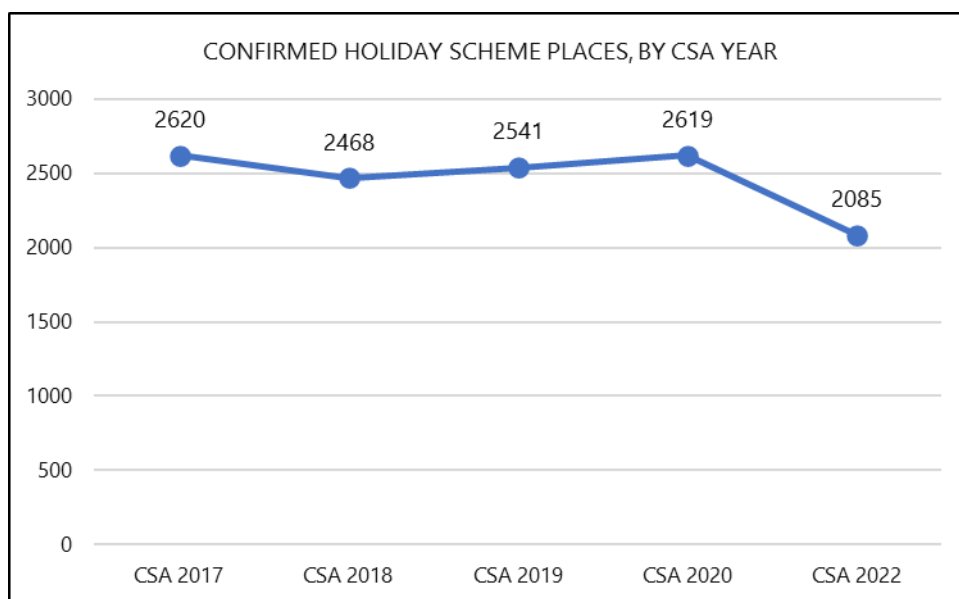

Number of known holiday schemes							
DISTRICT/BOROUGH	CSA 2017	CSA 2018	CSA 2019	CSA 2020	CSA 2022	Graph	% Change since CSA 2020
North Warwickshire	6	6	7	5	8		+60.0%

WARWICKSHIRE	74	67	68	68	74		+8.8%

Number of holiday schemes, by district/borough

(Family Information Service / Early Years & Childcare Entitlements, Sufficiency & Business)

Places

There are **2,085** confirmed places at holiday schemes in Warwickshire, a **20.4%** decrease since the last sufficiency assessment.

(Family Information Service)

The districts/boroughs with the largest number of confirmed holiday scheme places are Warwick and Stratford. The districts/boroughs with the smallest number of confirmed holiday scheme places are North Warwickshire and Nuneaton & Bedworth.

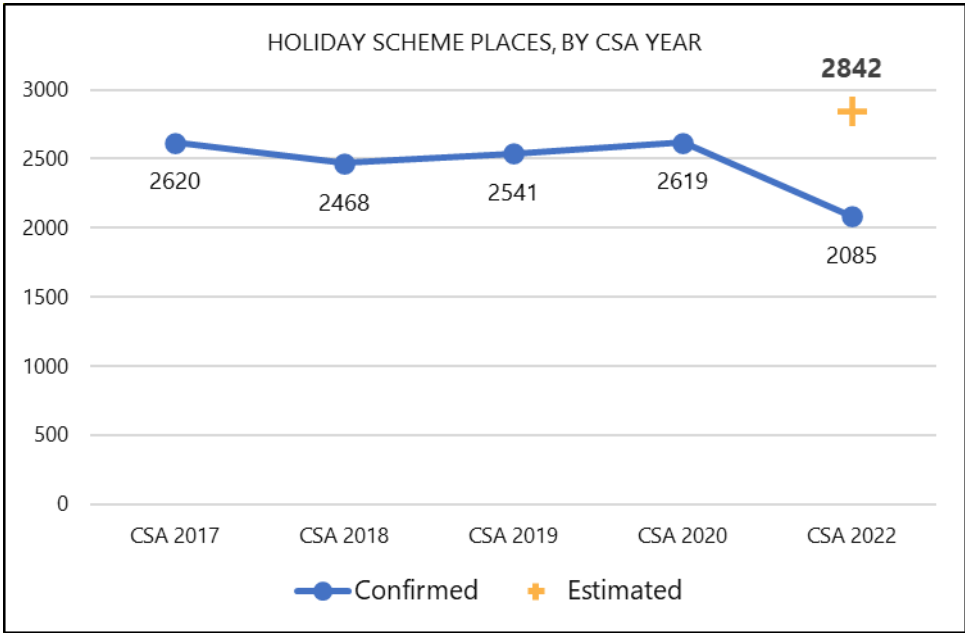

Confirmed holiday scheme places							
DISTRICT/BOROUGH	CSA 2017	CSA 2018	CSA 2019	CSA 2020	CSA 2022	Graph	% Change since CSA 2020
North Warwickshire	222	222	294	254	194		-23.6%

Warwick	804	722	734	867	631		-27.2%
WARWICKSHIRE	2620	2468	2541	2619	2085		-20.4%

Number of confirmed places at holiday schemes, by district/borough

(Family Information Service)

It should be noted that not all holiday schemes are known to the Family Information Service, while some that are known to FIS don't choose to confirm their total number of places (e.g. holiday schemes run by schools whose pupils have priority access to their holiday scheme places, or schemes run by schools with academy status). Work undertaken by the Early Years & Childcare Entitlements, Sufficiency & Business team has identified many of these holiday

schemes and allows us to estimate that the actual total number of holiday scheme places in the county is approximately **2,842**.

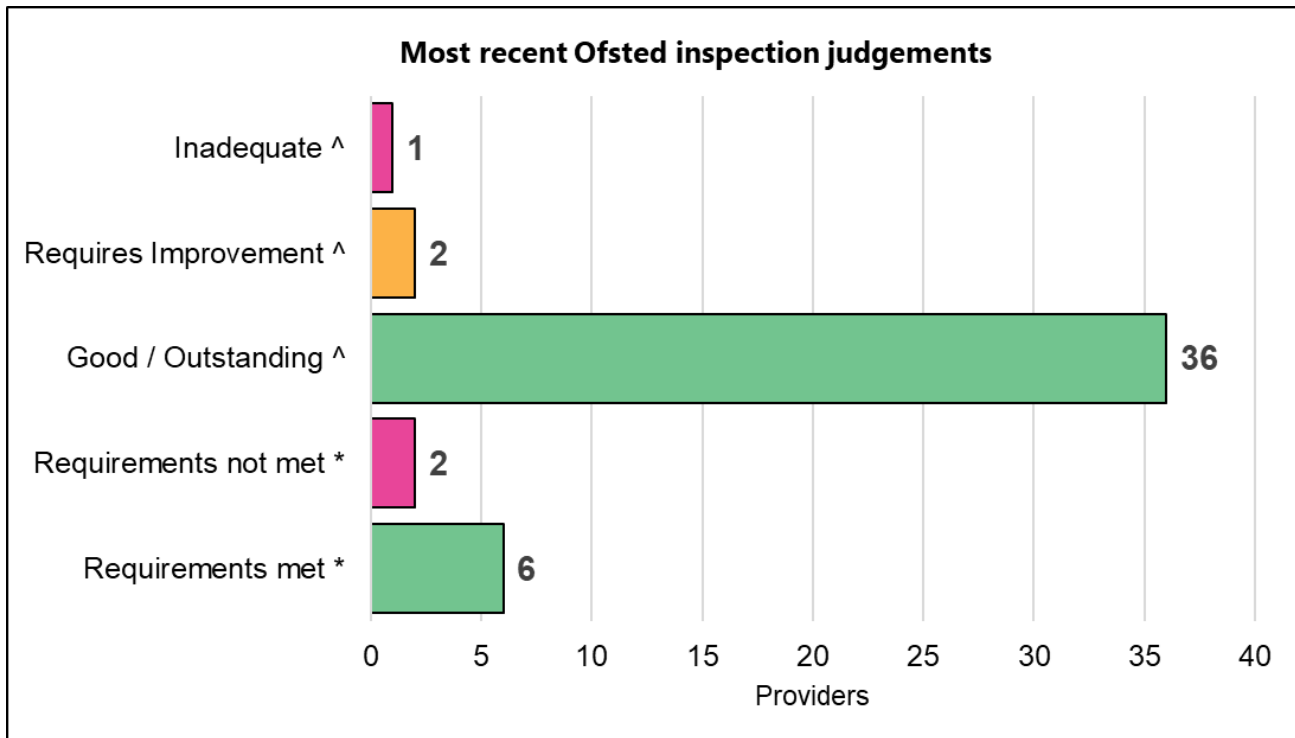

(Family Information Service / Early Years & Childcare Entitlements, Sufficiency & Business)

Workforce

Data on the workforce in holiday schemes is not currently available.

Quality

Currently the great majority of the holiday schemes with providers who have been inspected by Ofsted are run by providers who have inspection judgements of Good or Outstanding, or the equivalent judgement for their inspection type. It should be noted that holiday schemes are not always eligible for inspection, and inspection judgements for providers of holiday schemes may have focused on other childcare services delivered on site by the provider. Therefore in some cases these judgements will be indicative of the likely quality of holiday schemes rather than direct judgements of the schemes themselves.

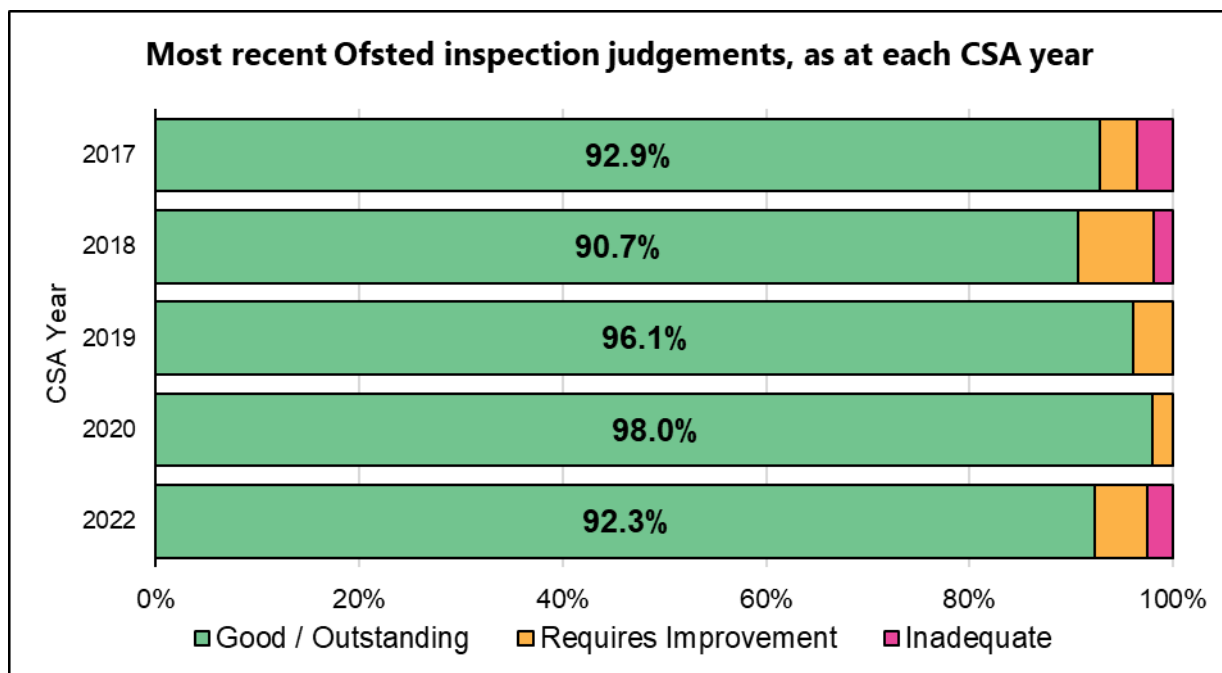

^ Full Early Years Register inspections

* Childcare register or No children on roll inspections.

(Family Information Service)

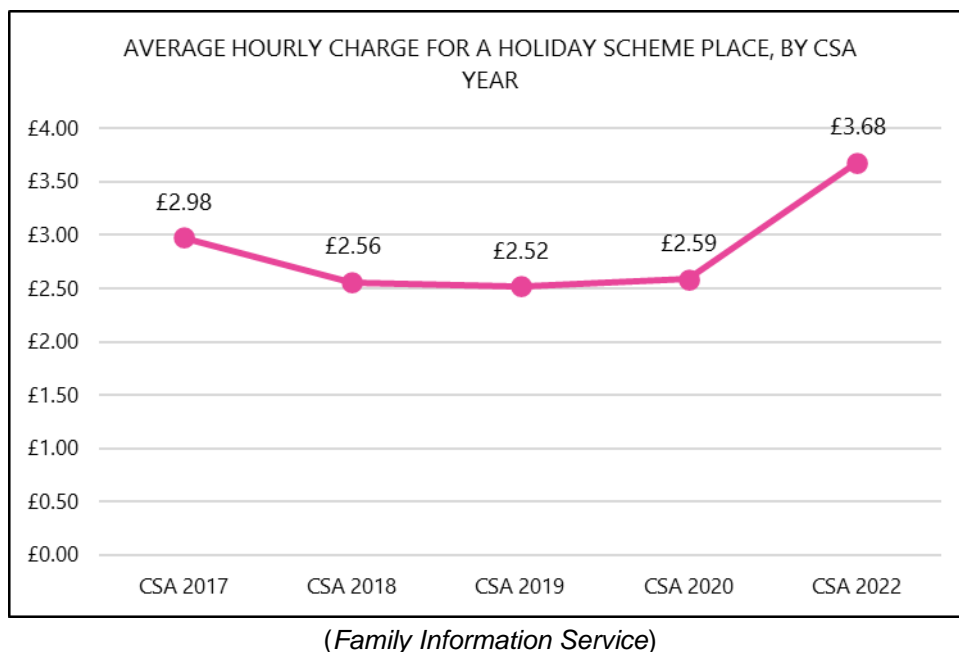

92.3% of the providers to have received full Early Years Register inspections were rated Good or Outstanding by Ofsted at their most recent inspection. **2.6%** were rated as Inadequate.

(Family Information Service)

Affordability

The average hourly cost of a place at a holiday scheme is **£3.68**. At the time of the last sufficiency assessment it was **£2.59**.

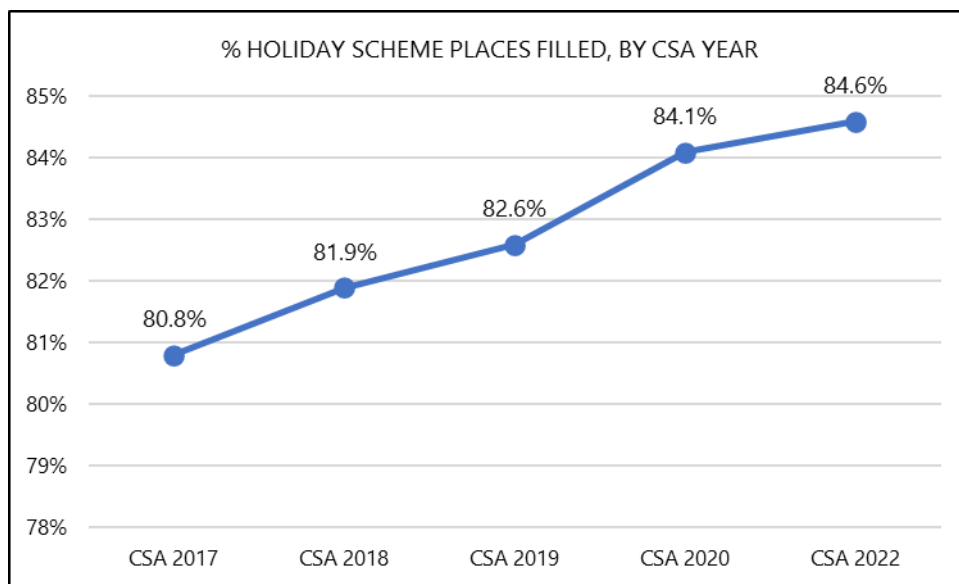

The cheapest holiday scheme places are found in the Nuneaton & Bedworth borough (£3.40ph). The costliest holiday scheme places are found in the Rugby borough (£4.26ph).

Average charge per hour for a holiday scheme place							
DISTRICT/BOROUGH	CSA 2017	CSA 2018	CSA 2019	CSA 2020	CSA 2022	Graph	% Change since CSA 2020
North Warwickshire	£2.80	£2.60	£2.60	£2.60	£3.68		+41.5%

(Family Information Service)

Take-up

The holiday schemes known to the Family Information Service filled **84.6%** of the total number of places they offered in their most recent seasons, suggesting holiday schemes are experiencing healthy demand for places while still having capacity to accommodate more children. At the time of the last sufficiency assessment, holiday schemes had filled **84.1%** of their total places in their most recent seasons.

(Family Information Service)

The district/borough to have filled the highest percentage of its total available holiday scheme places is North Warwickshire (**100%**), where known holiday schemes were running at capacity in the most recent season. The district/borough to have filled the smallest percentage of its total available holiday scheme places is Nuneaton & Bedworth (**76.9%**).

Percentage of holiday scheme places filled							
DISTRICT/BOROUGH	CSA 2017	CSA 2018	CSA 2019	CSA 2020	CSA 2022	Graph	% Change since CSA 2020

Children from families in receipt of the childcare element of Working Tax Credit or Universal Credit

&

Children with parents who work irregular hours

These priority groups benefit from the availability of high quality, flexible childcare and the support it provides parents to obtain and maintain employment. Accordingly, the number, variety, quality and affordability of childcare services across the county is of relevance to these groups, the details of which have been shown in [Section II: Childcare Offer](#).

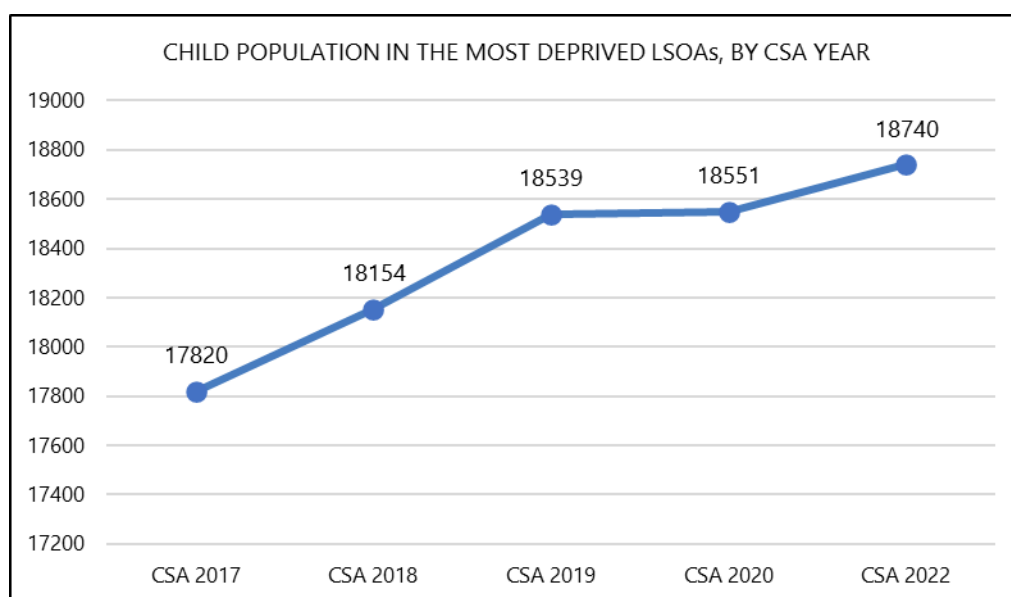

These groups also benefit from the availability of funded Early Years places over more than 38 weeks and the 30 hours extended entitlement, (see [Children aged two taking up free places](#) and [Children aged three and four taking up free places](#)), as well as from the availability of out of school care (see [School age children](#)) and holiday schemes (see [Children needing holiday care](#)).

It is of particular importance to support these groups in the more disadvantaged areas of the county, and so this section will conclude by looking at those particular geographical areas in more detail, considering the nature of the childcare offer within them and how it compares with the offer throughout the county.

Local information

According to the latest Indices of Multiple Deprivation (see [Areas of Disadvantage](#)), 48 of the Lower Super Output Areas (LSOAs) in Warwickshire fall within the top 30% most deprived LSOAs in the country.

There are **18,740** children living in those LSOAs, a **1.0%** increase since the last sufficiency assessment. *That compares to a 3.1% increase in the child population in other LSOAs.*

(Ministry of Housing, Communities & Local Government / Office for National Statistics)

LSOAs, particularly in urban areas, are often very small, and looking at them in isolation can be misleading as residents on both sides of a LSOA boundary will be affected by what goes

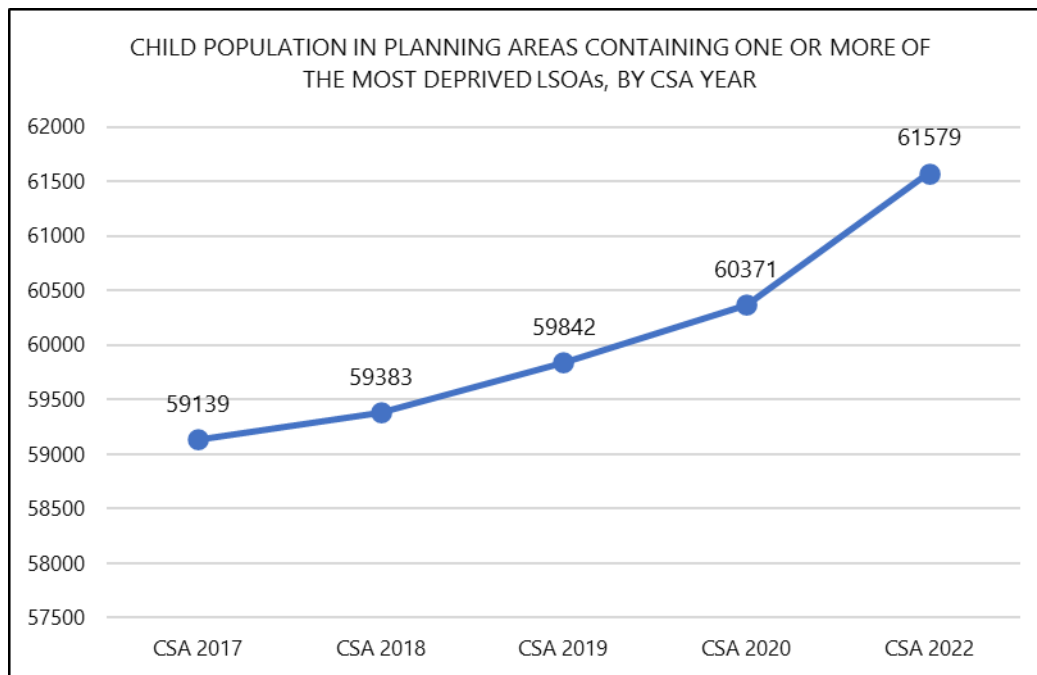

on within it, while residents of any particular LSOA will often access childcare provision in adjacent or nearby LSOAs if services there are more appropriate or convenient for them. Accordingly, details will also be shown here of all Warwickshire Planning Areas that contain one or more of the LSOAs that fall within the top 30% most deprived LSOAs in the country, i.e. those Planning Areas that contain “pockets of deprivation”.

PLANNING AREA (& district/borough)	% of under 5yrs population resident in the most deprived LSOAs	% of 5yrs to 11yrs population resident in within the most deprived LSOAs	% of 12yrs to 17yrs population resident in within the most deprived LSOAs	% of under 18yrs population resident in within the most deprived LSOAs

The number of children under 5 years old living in Planning Areas that contain one or more of the most deprived LSOAs

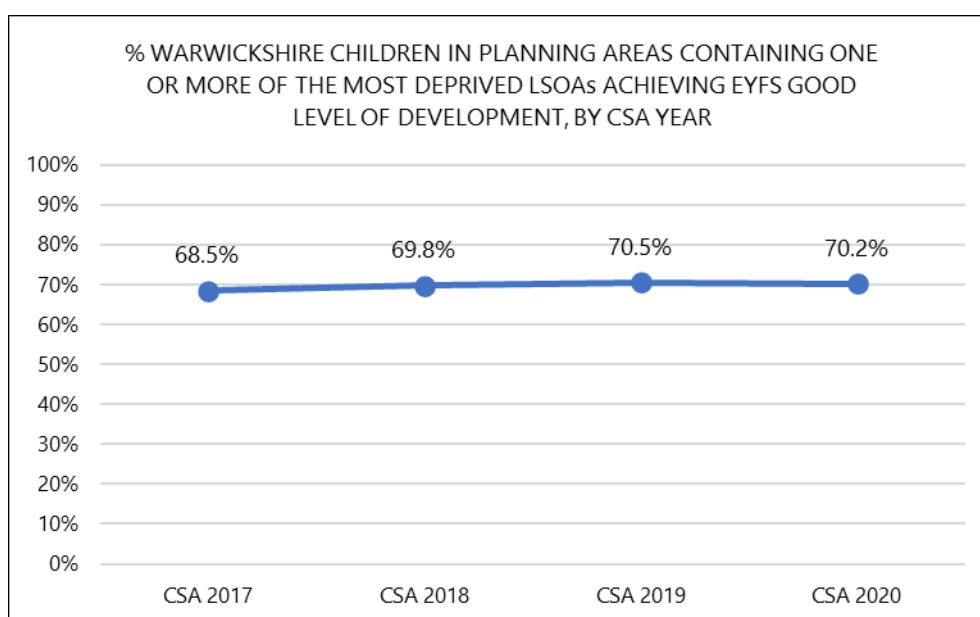

(Ministry of Housing, Communities & Local Government / Office for National Statistics)

Owing to the Coronavirus pandemic, there have been no Early Years Foundation Stage (EYFS) assessments since the last sufficiency assessment. However, during the last round of EYFS assessments, **65.6%** of the Warwickshire children resident in the 30% most deprived LSOAs and completing their assessments within the county achieved a Good Level of Development (GLD). *That compares to **73.2%** in other LSOAs.*

(Department for Education)

70.2% of the Warwickshire children resident in Planning Areas containing one or more of the most deprived LSOAs and completing their EYFS within the county achieved a Good Level of Development (GLD). *That compares to **73.8%** in other Planning Areas.*

(Department for Education)

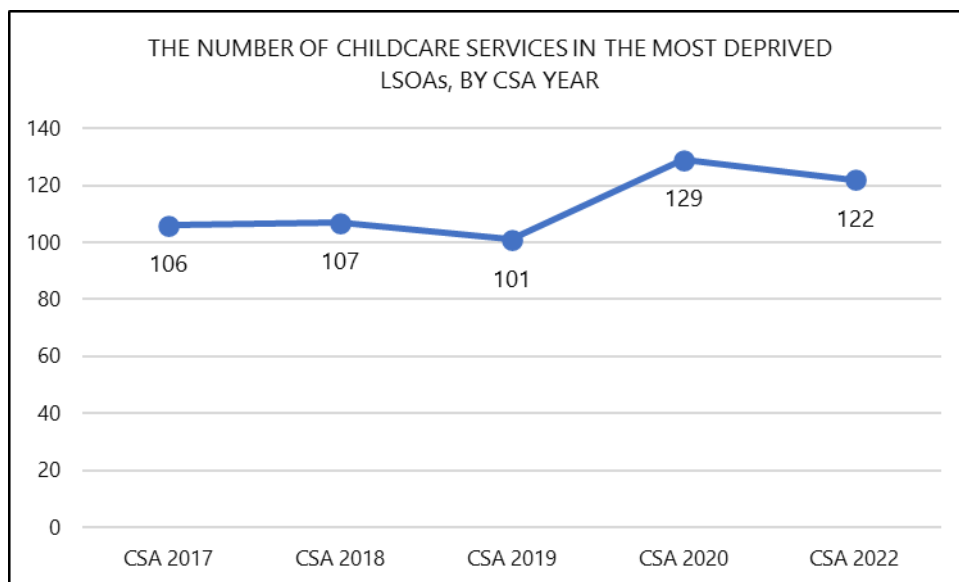

The highest performing of those Planning Areas was Stratford with **79.1%** of children achieving a GLD, whereas in Abbey the rate was **60.3%**.

PLANNING AREA (& district/borough)	% of resident children achieving GLD					CSA 2020

The percentage of children resident in Planning Areas that contain one or more of the most deprived LSOAs achieving a Good Level of Development
(Department for Education)

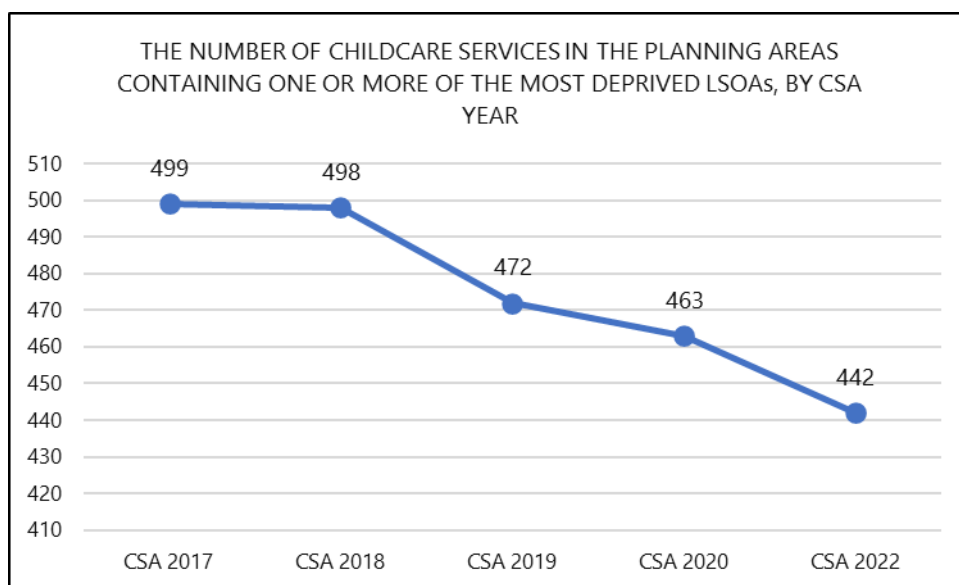

Services

There are **122** known childcare services in the most deprived LSOAs in Warwickshire, a decrease of **5.4%** since the last sufficiency assessment. *That compares to a **5.2%** decrease in other LSOAs.*

(Family Information Service / Early Years & Childcare Entitlements, Sufficiency & Business)

In the Planning Areas that contain one or more of the most deprived LSOAs, there are **442** known childcare services, a decrease of **4.5%** since the last sufficiency assessment. *That compares to a **5.8%** decrease in other Planning Areas.*

(Family Information Service / Early Years & Childcare Entitlements, Sufficiency & Business)

The Planning Area in this group with the largest number of childcare services is Lillington (**54**). The Planning Areas with the smallest numbers are Abbey (**10**) and Bedworth South West (**10**).

Number of childcare services in Planning Areas containing one or more of the most deprived LSOAs, by type
(Family Information Service / Early Years & Childcare Entitlements, Sufficiency & Business)

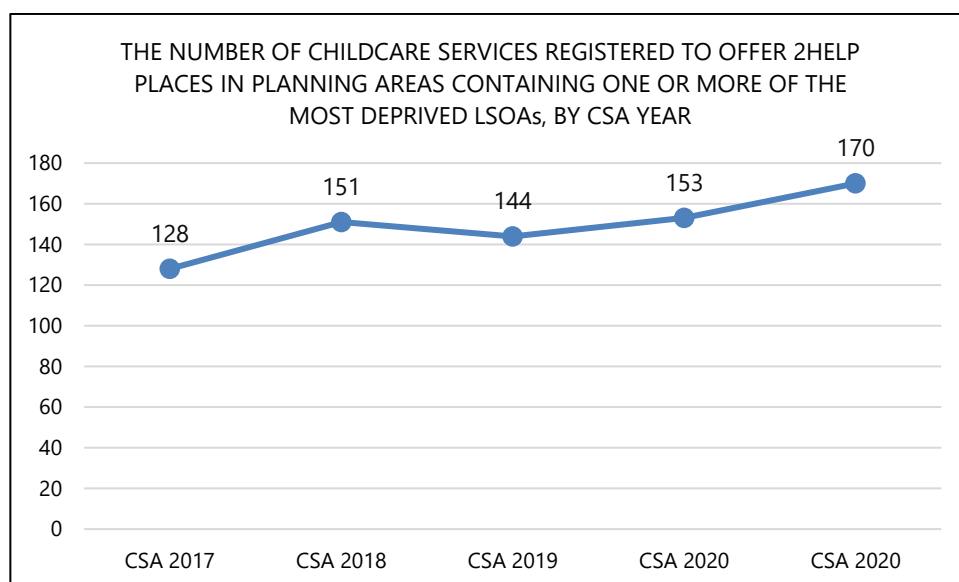

Of the county's 14 Children and Family Centres, **11** are located within these Planning Areas.

49 childcare services are registered to offer 2Help places in the most deprived LSOAs, a **6.5%** increase since the last sufficiency assessment. *That compares to an **18.5%** increase in other LSOAs.*

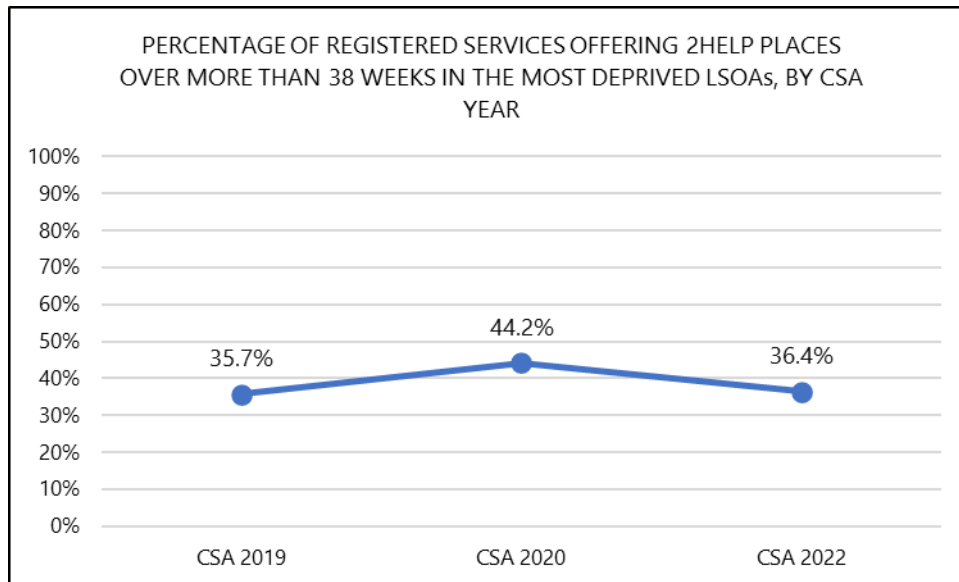

(Early Years & Childcare Entitlements, Sufficiency & Business)

170 childcare services are registered to offer 2Help places in Planning Areas containing one or more of the most deprived LSOAs, an **11.1%** increase since the last sufficiency assessment. *That compares to a **21.9%** increase in other Planning Areas.*

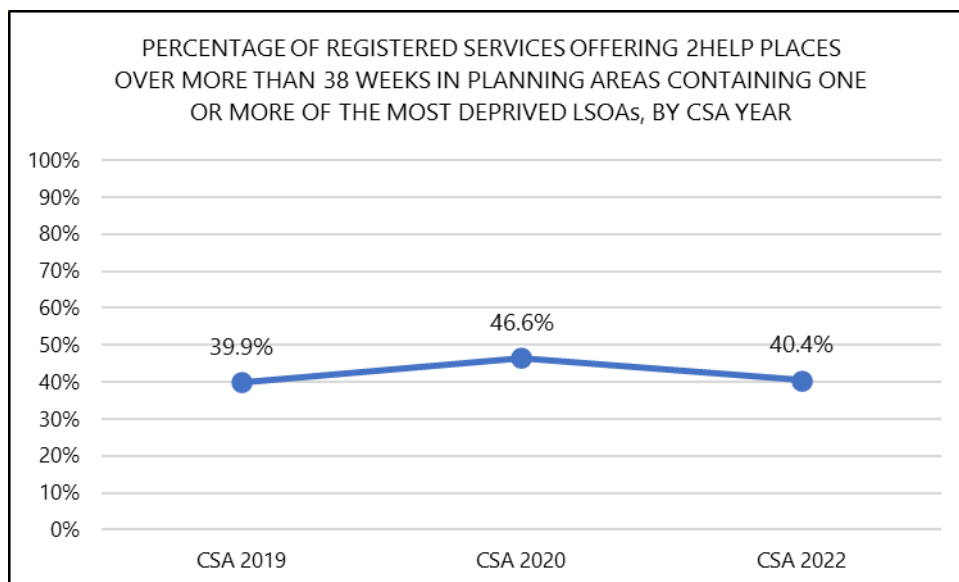

(Early Years & Childcare Entitlements, Sufficiency & Business)

36.4% of the childcare services registered to offer 2Help places in the most deprived LSOAs offer them over more than 38 weeks. At the last assessment it was **44.2%**. *In other LSOAs it is **41.8%**.*

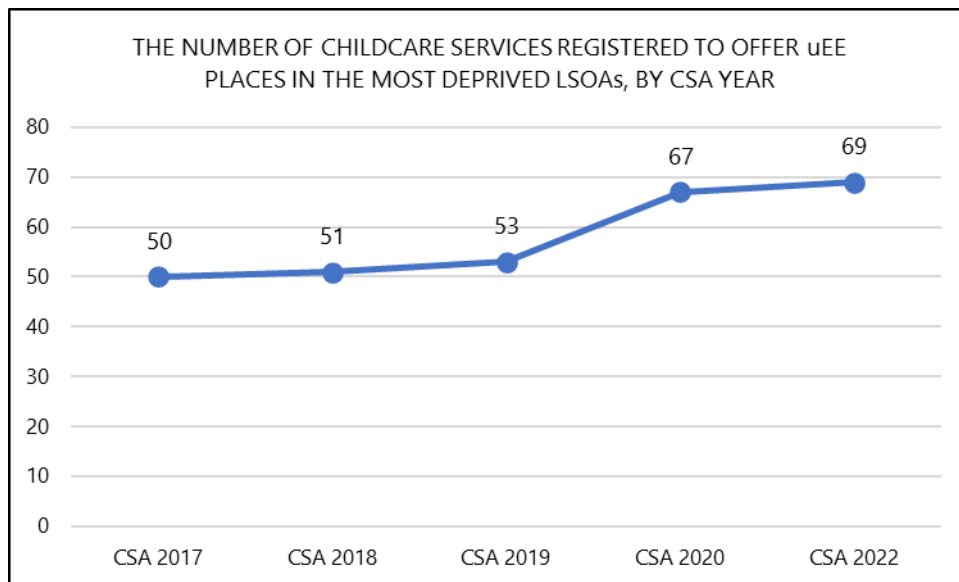

(Childcare Sufficiency Survey)

40.4% of the childcare services registered to offer 2Help places in Planning Areas containing one or more of the most deprived LSOAs offer them over more than 38 weeks. At the last assessment it was **46.6%**. *In other Planning Areas it is 41.8%.*

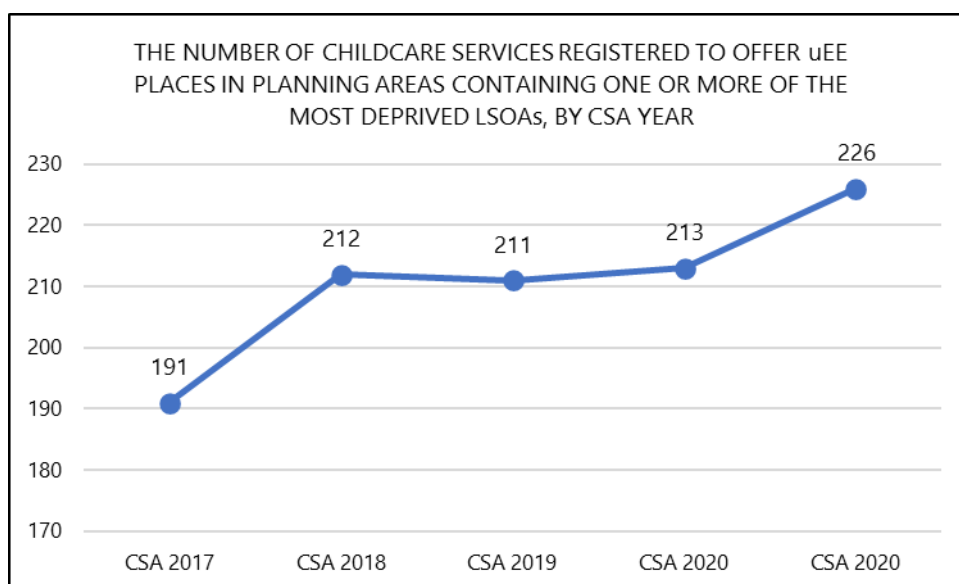

(Childcare Sufficiency Survey)

69 childcare services are registered to offer universal Early Education (uEE) places for 3 and 4 year olds in the most deprived LSOAs, a **3.0%** increase since the last sufficiency assessment. *That compares to a 10.2% increase in other LSOAs.*

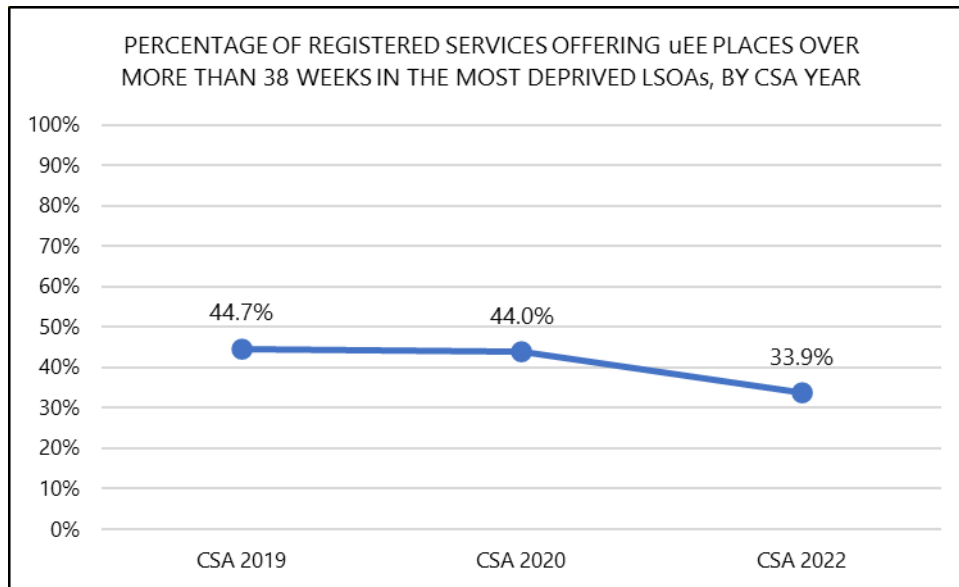

(Early Years & Childcare Entitlements, Sufficiency & Business)

226 childcare services are registered to offer uEE places in Planning Areas containing one or more of the most deprived LSOAs, an **6.1%** increase since the last sufficiency assessment. *In other Planning Areas there has been an **11.8%** increase.*

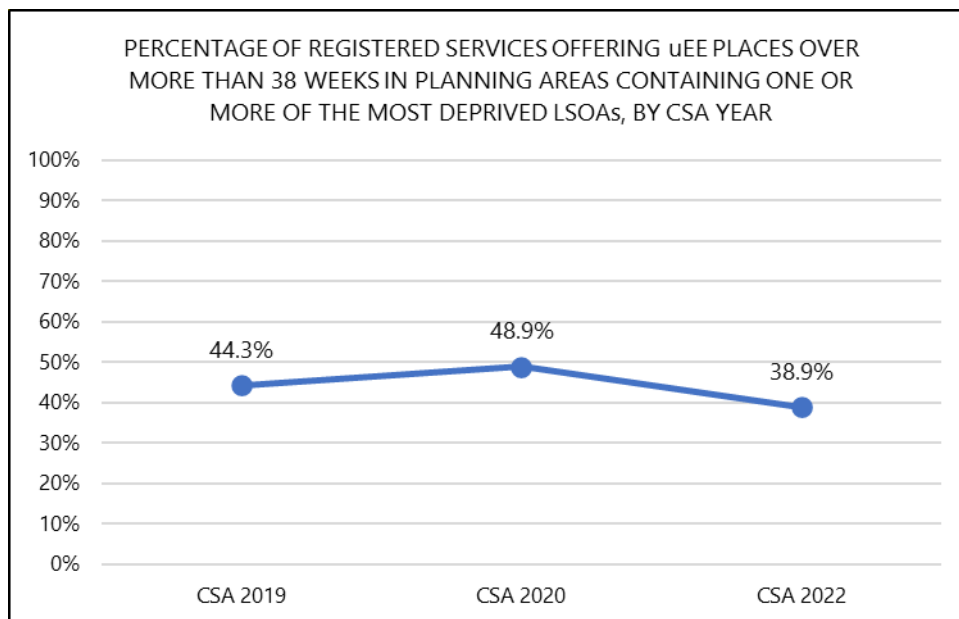

(Early Years & Childcare Entitlements, Sufficiency & Business)

33.9% of the childcare services registered to offer uEE places in the most deprived LSOAs offer them over more than 38 weeks. At the time of the last assessment it was **44.0%**. *In other LSOAs it is **40.0%**.*

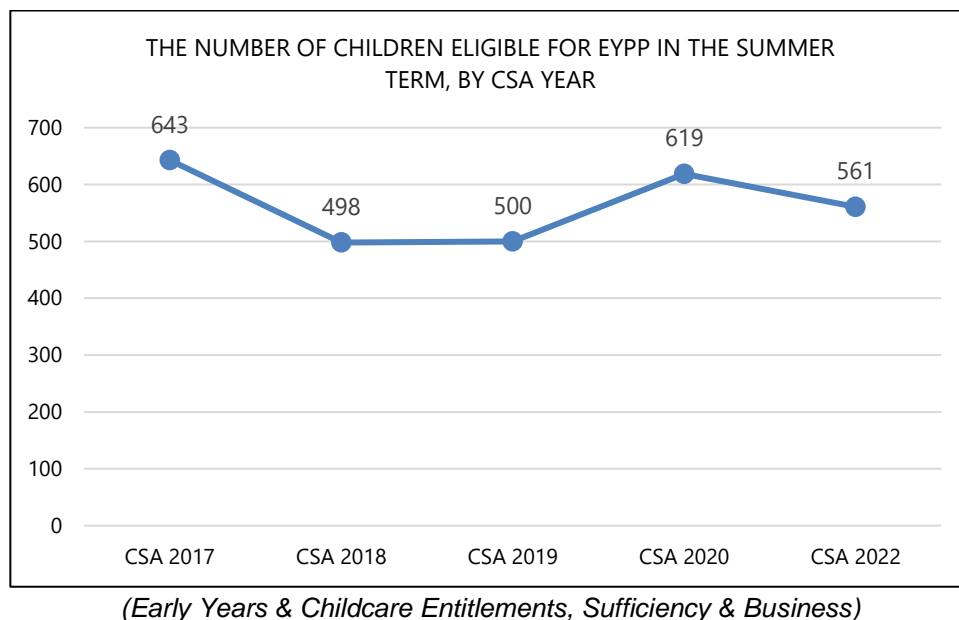

(Childcare Sufficiency Survey)

38.9% of the childcare services registered to offer uEE places in Planning Areas containing one or more of the most deprived LSOAs offer them over more than 38 weeks. At the time of the last assessment it was **48.9%**. *In other Planning Areas it is 39.5%.*

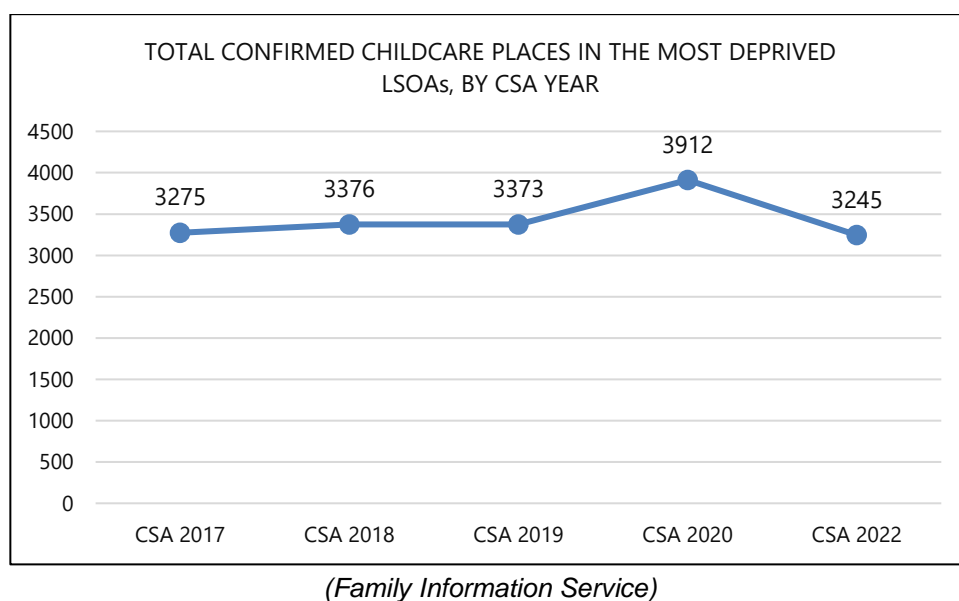

(Childcare Sufficiency Survey)

Additionally, the Early Years Pupil Premium (EYPP) programme allows Early Years settings to claim extra funding for children that meet eligibility criteria for deprivation.

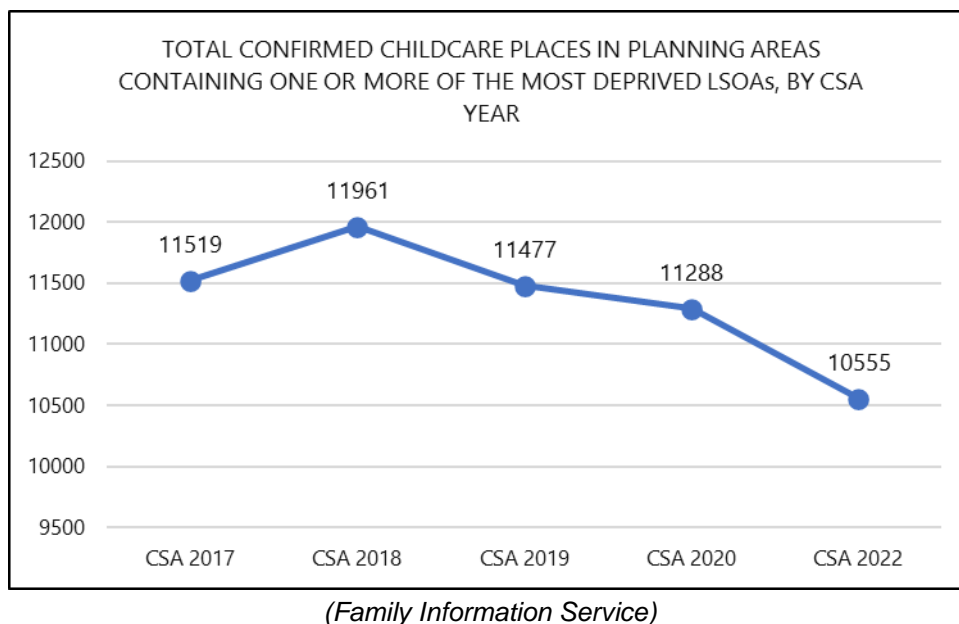

Places

There are **3,245** confirmed childcare places currently offered in the most deprived LSOAs in Warwickshire, a decrease of **17.1%** since the last sufficiency assessment. *That compares to a 5.1% decrease in other LSOAs.*

In the Planning Areas that contain one or more of the most deprived LSOAs, there are **10,555** confirmed childcare places currently offered, a decrease of **6.5%** since the last sufficiency assessment. *That compares to a 7.6% decrease elsewhere.*

The Planning Areas in this group with the largest number of places are Kingsway (**1,106**) and Lillington (**1,007**). The Planning Areas with the smallest numbers are Abbey (**283**) and Whitnash (**290**).

Number of confirmed childcare places in Planning Areas that contain one or more of the most deprived LSOAs, by type
(Family Information Service)

Childcare services in the most deprived LSOAs offer a total of **431** 2Help places, a **37.4%** decrease since the last sufficiency assessment. *That compares to a 0.9% decrease in other LSOAs.*

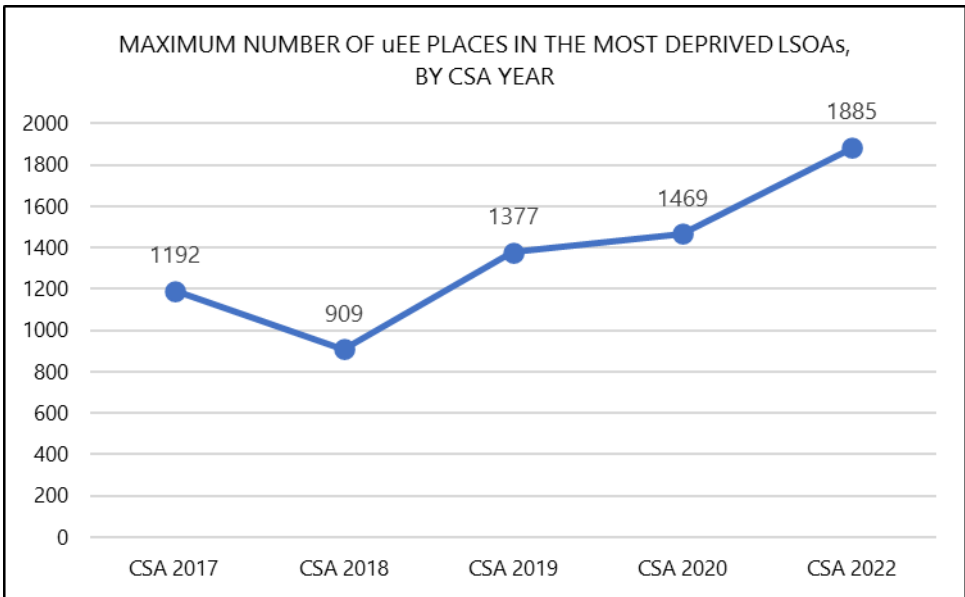

Childcare services in Planning Areas containing one or more of the most deprived LSOAs offer a total of **1,621** 2Help places, a **5.3%** decrease since the last sufficiency assessment. *That compares to a 10.8% decrease in other Planning Areas.*

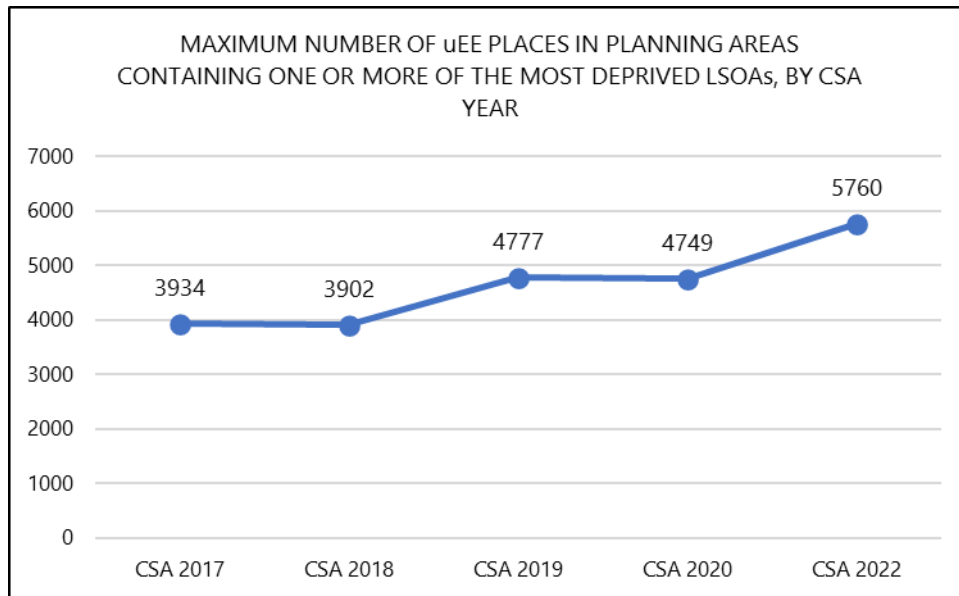

(Childcare Sufficiency Survey)

Childcare services in the most deprived LSOAs offer a total of **1,885** universal Early Education (uEE) places for 3 and 4 year olds, a **28.3%** increase since the last sufficiency assessment. *That compares to a 1.3% increase in other LSOAs.*

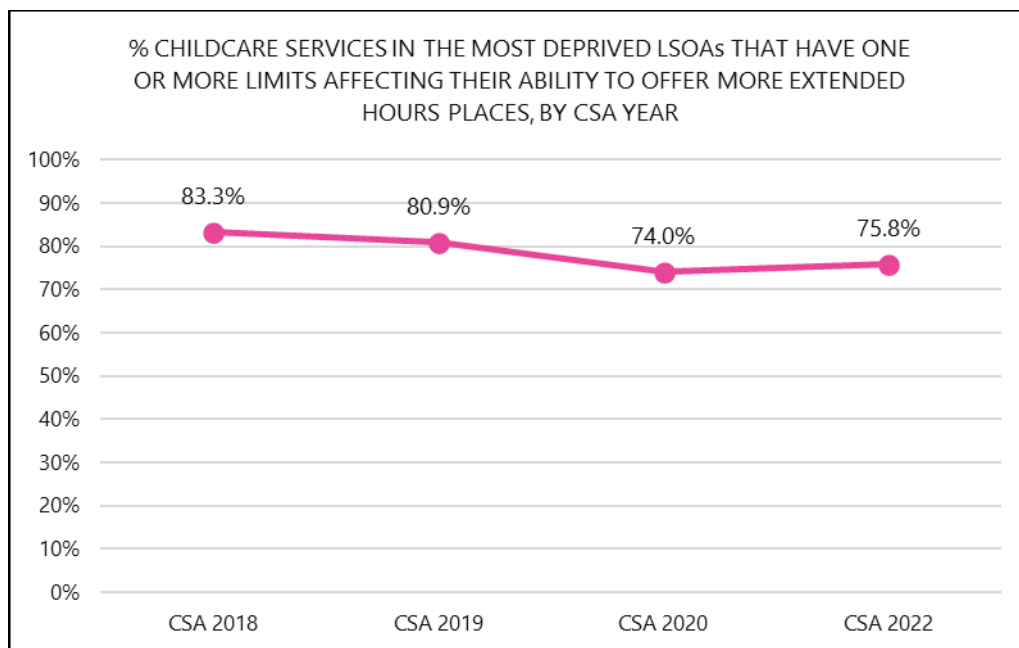

(Childcare Sufficiency Survey)

Childcare services in Planning Areas containing one or more of the most deprived LSOAs offer a total of **5,760** uEE places, a **21.3%** increase since the last sufficiency assessment. *That compares to a 7.5% decrease in other Planning Areas.*

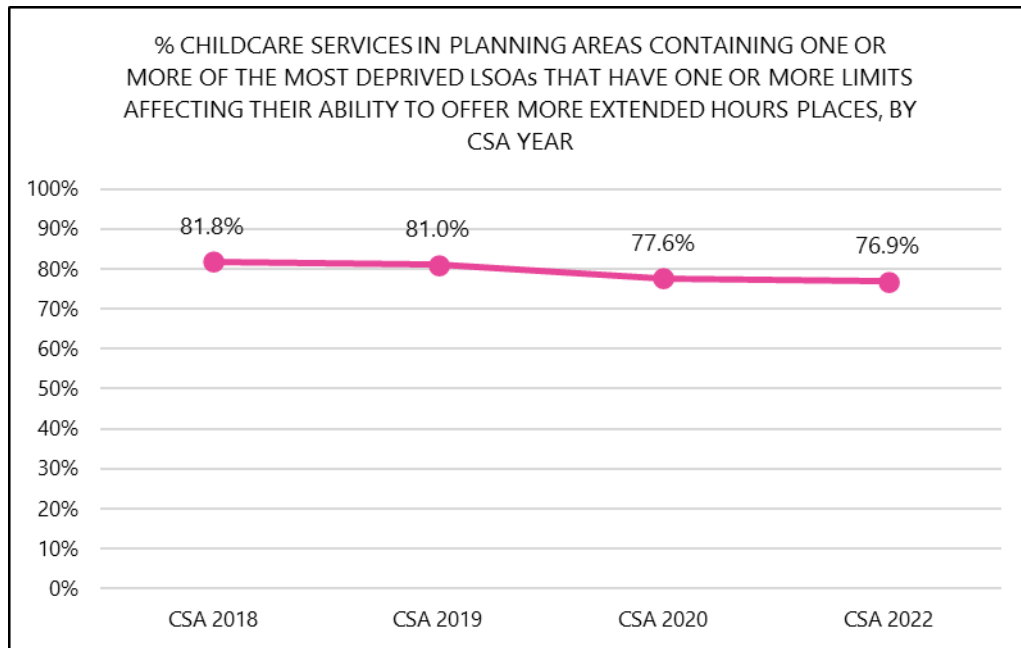

(Childcare Sufficiency Survey)

Some families are entitled to an additional 15 hours free childcare place for 3 or 4 year olds for 38 weeks, also called the extended hours entitlement. **75.8%** of the services registered to offer uEE places in the most deprived LSOAs have indicated that there are one or more factors limiting their ability to offer more of these extended hours places. At the last sufficiency assessment it was **74.0%**. *In other LSOAs it is 80.2%.*

(Childcare Sufficiency Survey)

76.9% of the services registered to offer uEE places in Planning Areas containing one or more of the most deprived LSOAs have indicated that there are one or more factors limiting their ability to offer more extended hours places. At the last sufficiency assessment it was **77.6%**. *In other Planning Areas it is 82.0%.*

(Childcare Sufficiency Survey)

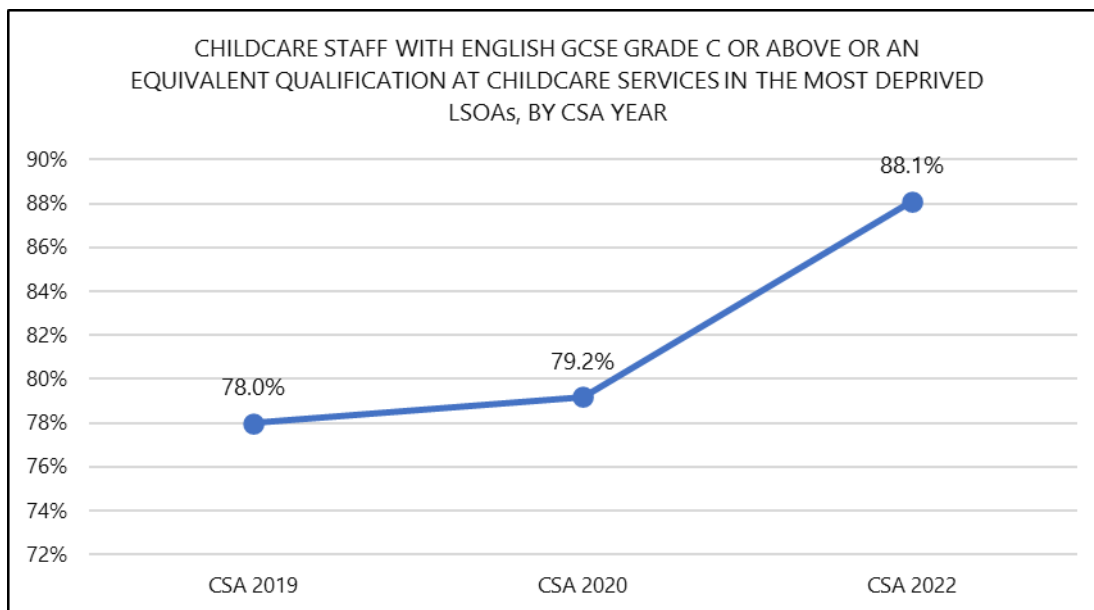

Staff-to-child ratios and **space / layout of setting** are the limiting factors most often cited by childcare services in Planning Areas containing one or more of the most deprived LSOAs, as was the case at the time of the last sufficiency assessment.

LIMITING FACTORS	% of respondents citing the factor					% Change since CSA 2020
	CSA 2018	CSA 2019	CSA 2020	CSA 2022	Graph	
Space / layout of setting	31.2%	35.6%	33.9%	31.0%		-8.6%
Recruitment of new staff (ie. availability)	13.0%	18.4%	9.8%	15.3%		+56.1%
Staff-to-child ratios	24.0%	36.2%	31.6%	36.6%		+15.8%

The percentage of childcare services in Planning Areas containing one or more of the most deprived LSOAs that have sufficient staff
(Childcare Sufficiency Survey)

Quality

Currently the great majority of services that are located in the most deprived LSOAs and have been inspected by Ofsted have judgements of Good or Outstanding, or the equivalent judgement for their inspection type.

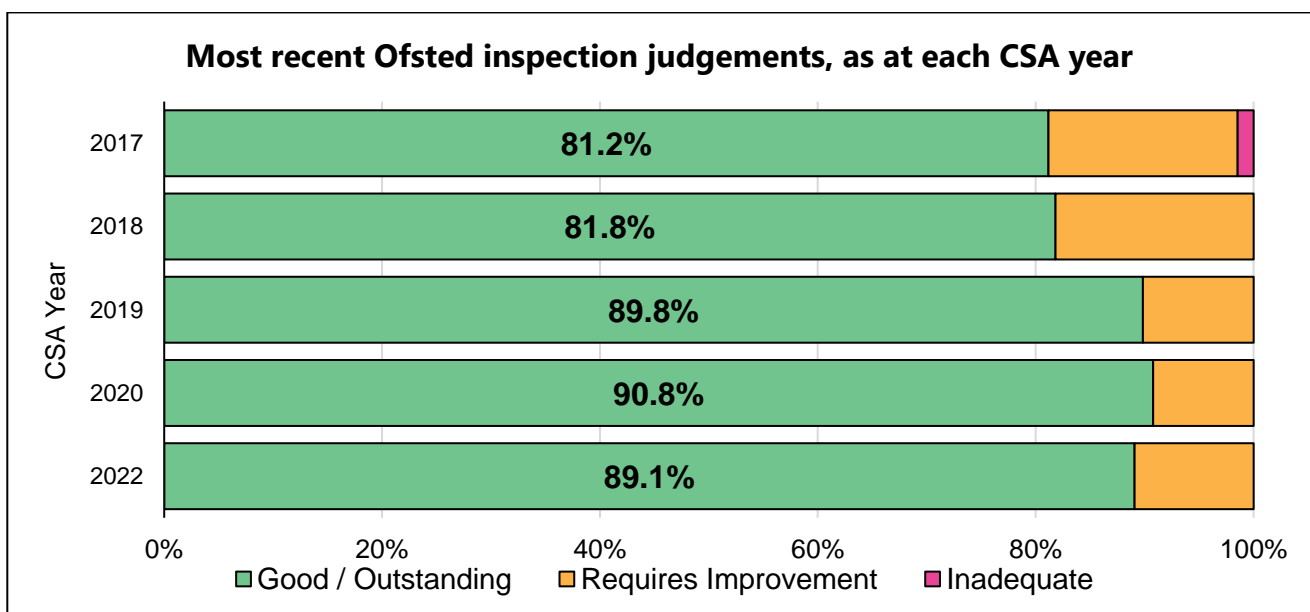

^ Full Early Years Register inspections

* Childcare register or No children on roll inspections.

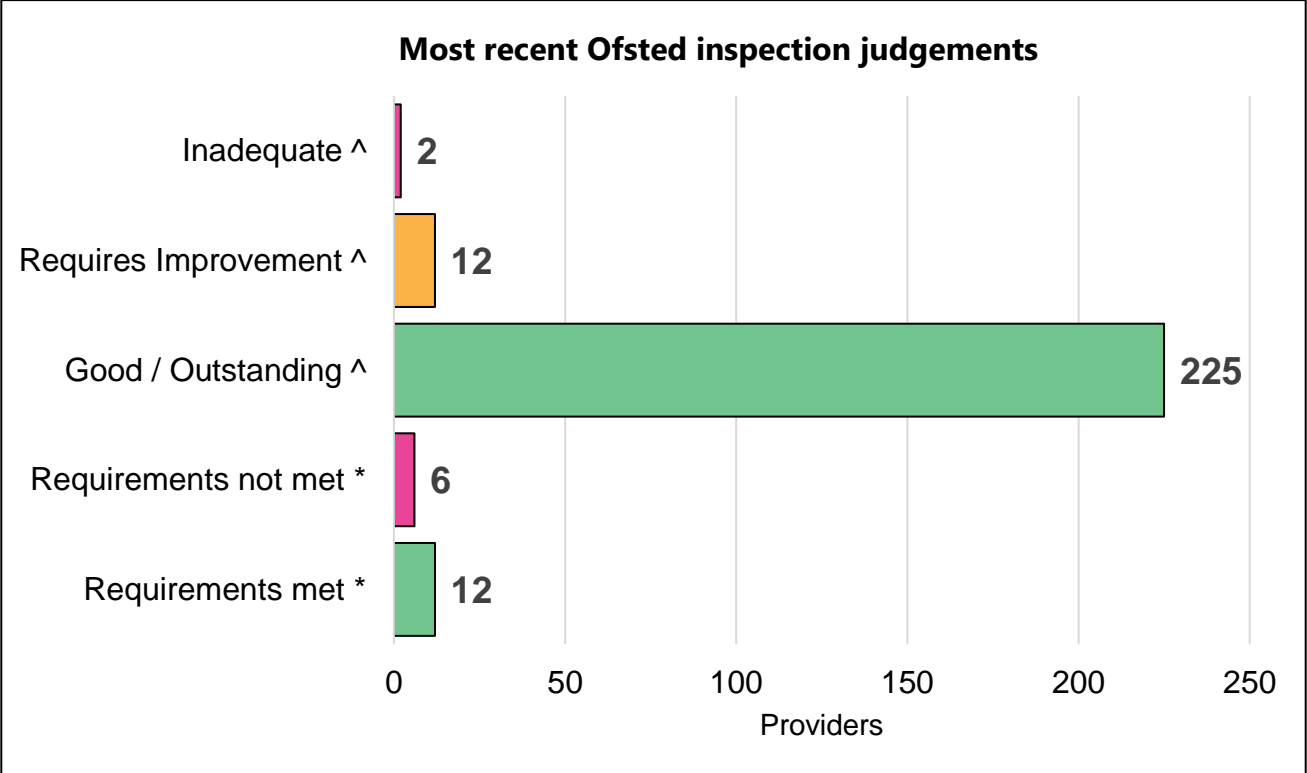

(Family Information Service)

89.1% of the childcare services to have received full Early Years Register inspections were rated Good or Outstanding by Ofsted at their most recent inspection. No service was rated as Inadequate. *In other LSOAs, 94.7% of services were rated Good or Outstanding by Ofsted at their most recent inspection.*

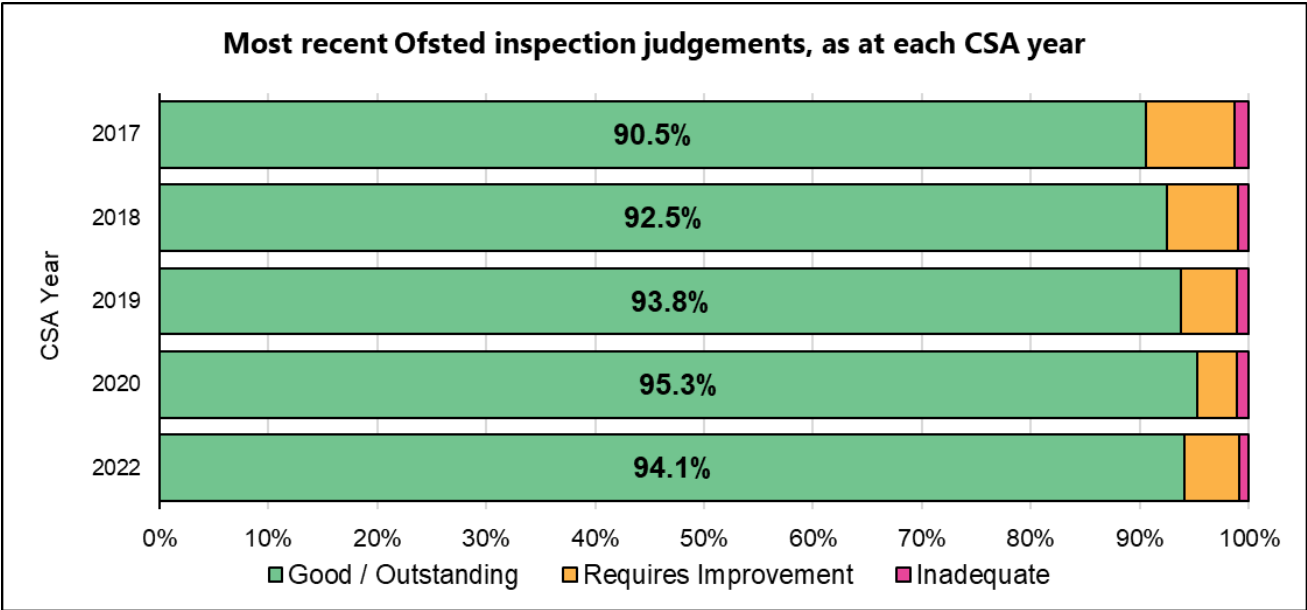

(Family Information Service)

The vast majority of services that are located in Planning Areas that contain one or more of the most deprived LSOAs and have been inspected by Ofsted have judgements of Good or Outstanding, or the equivalent judgement for their inspection type.

(Family Information Service)

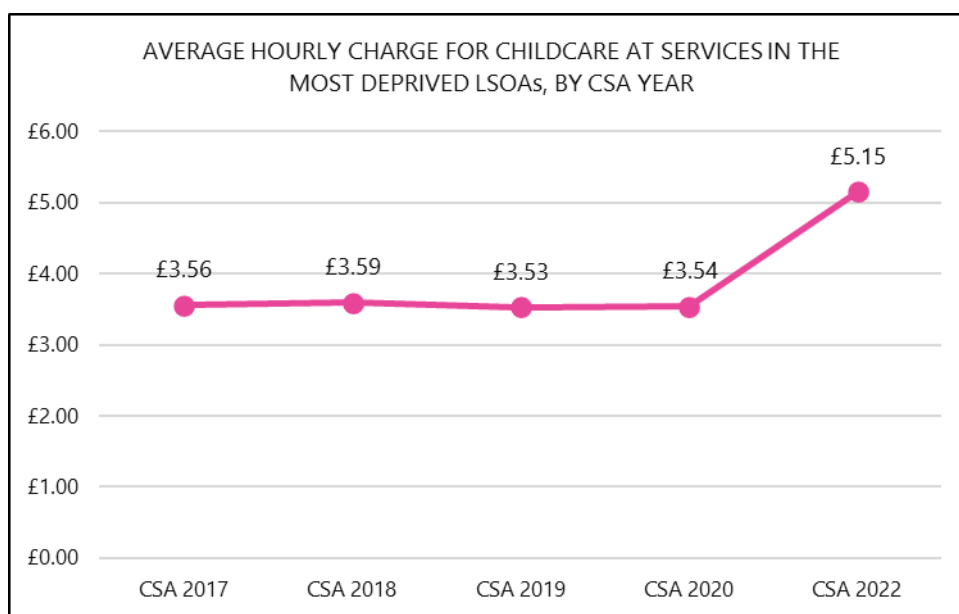

94.1% of the childcare services to have received full Early Years Register inspections were rated Good or Outstanding by Ofsted at their most recent inspection. **0.8%** were rated as Inadequate. *In other Planning Areas, 93.9% of services were rated Good or Outstanding by Ofsted at their most recent inspection.*

(Family Information Service)

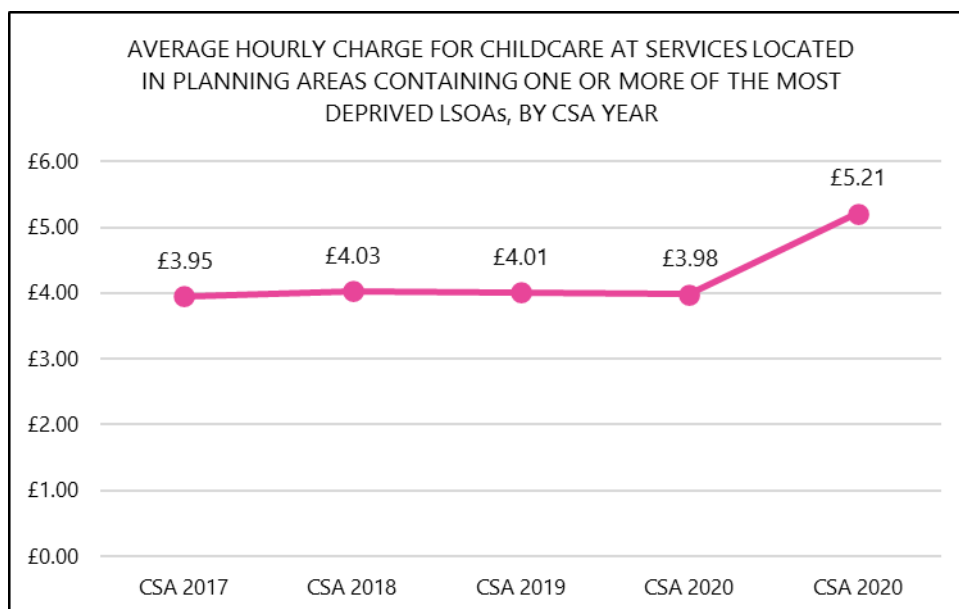

Affordability

At childcare services in the most deprived LSOAs, the average hourly cost of a childcare place of any kind, outside of free or subsidised places, is **£5.15**. At the time of the last sufficiency assessment it was **£3.54**. *The average in other LSOAs is £4.92.*

(Family Information Service)

At childcare services in Planning Areas containing one or more of the the most deprived LSOAs, the average hourly cost of a childcare place of any kind, outside of free or subsidised places, is **£5.21**. At the time of the last sufficiency assessment it was **£3.98**. *The average in other Planning Areas is £4.76.*

(Family Information Service)

The Planning Areas in this group with the cheapest childcare places are Mancetter (**£4.08ph**) and Bedworth Heath (**£4.14ph**). The Planning Areas with the costliest childcare places are Claremont (**£6.65ph**) and Atherstone (**£6.54ph**).

Average hourly charge at services located in Planning Areas containing one or more of the most deprived LSOAs, by childcare service type
(Family Information Service)

The Childcare Sufficiency Survey collects more detailed cost information on places for Early Years age groups. At services in the most deprived LSOAs, the average hourly cost of a childcare place for children aged under 5 years old, outside of free or subsidised places, is **£4.87**. At the time of the last sufficiency assessment it was **£4.70**. *The average in other LSOAs is £5.27.*

At services in Planning Areas containing one or more of the most deprived LSOAs, the average hourly cost of a childcare place for children aged under 5 years old, outside of free or subsidised places, is **£5.14**. At the time of the last sufficiency assessment it was **£4.80**. *The average in other Planning Areas is **£5.28**.*

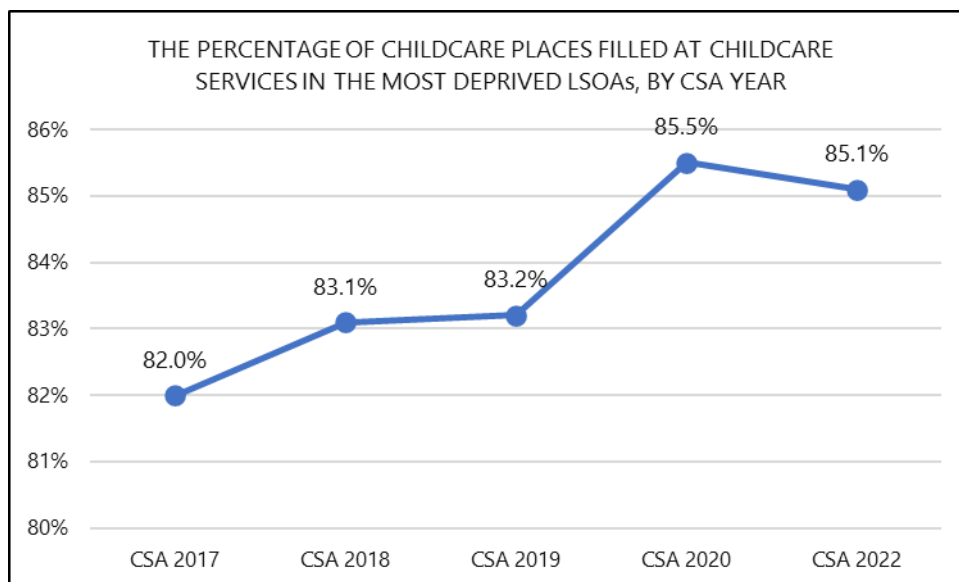

The Planning Area in this group with the cheapest childcare places for children under 5 years is Bedworth South West (**£4.43ph**). The Planning Area with the costliest childcare places is Kingsway (**£6.21ph**).

Average hourly charge for children under 5 years old at services located in Planning Areas containing one or more of the most deprived LSOAs.
(Childcare Sufficiency Survey)

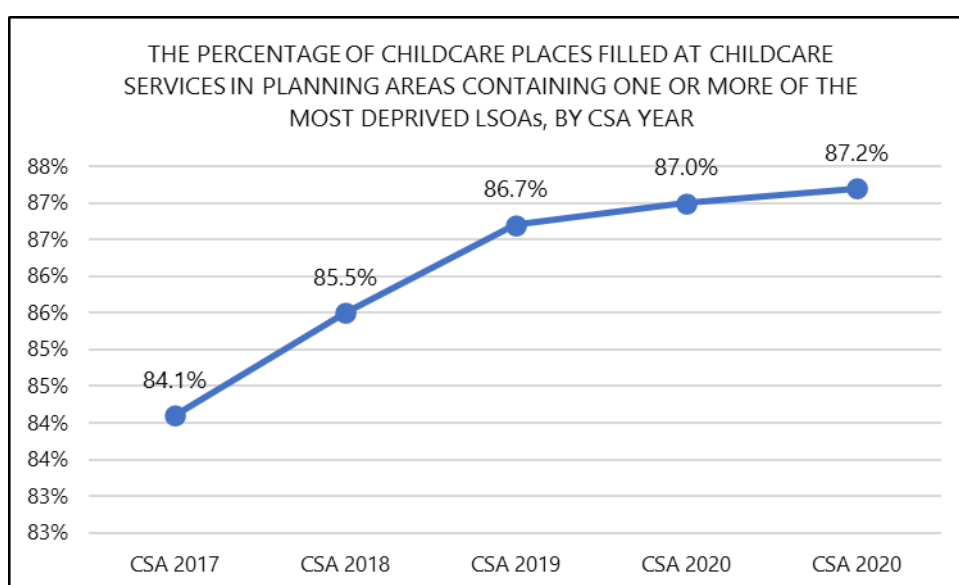

Take-up

Childcare services in the most deprived LSOAs have filled **85.1%** of the total number of places they can offer, suggesting services are experiencing healthy demand for places while still having capacity to accommodate more children. At the last sufficiency assessment, childcare services in the most deprived LSOAs had filled **85.5%** of their total places. *In other LSOAs it is 86.3%.*

(Family Information Service)

Childcare services in Planning Areas containing one or more of the most deprived LSOAs have filled **87.2%** of the total number of places they can offer, suggesting services are experiencing healthy demand for places while still having capacity to accommodate more children. At the last sufficiency assessment, childcare services in these Planning Areas had filled **87.0%** of their total places. *In other Planning Areas it is **85.1%**.*

(Family Information Service)

The Planning Areas in this group to have filled the highest percentage of their total available places are Bedworth South West (**98.8%**), Camp Hill (**98.1%**) and Boughton (**96.7%**), in each of which services are operating close to capacity. The Planning Area to have filled the smallest percentage of its total available places is Whitnash (**63.4%**).

Section IV: GAPS ANALYSIS

This analysis collates the data in this assessment and produces RAG ratings for each of Warwickshire's Planning Areas in categories and series corresponding to sufficiency elements addressed in the Early Education and Childcare statutory guidance.

The ratings are collected in a matrix with details for each Planning Area following thereafter. Planning Areas with the **(c)** notation are located on the border with neighbouring counties. There is an increased likelihood of families in those Planning Areas accessing services in neighbouring counties if appropriate provision isn't available locally.

The categories, data series, and thresholds for RED and AMBER ratings are shown below. Data series have been marked with an asterisk if new or substantially different criteria and thresholds have been applied in the 2022 assessment compared to previous assessments.

State of the local childcare market:

Variety *

	More than one of the following types of childcare provision are missing from the Planning Area: (i) childminders (ii) day nurseries and pre-schools (iii) out of school clubs and holiday schemes.
	One of the following types of childcare provision is missing from the Planning Area: (i) childminders (ii) day nurseries and pre-schools (iii) out of school clubs and holiday schemes.

Availability *

	More than 95% of the total available places have been filled at more than one of the following types of childcare provision in the Planning Area: (i) childminders (ii) day nurseries and pre-schools (iii) out of school clubs and holiday schemes.
	More than 95% of the total available places have been filled at one of the following types of childcare provision in the Planning Area: (i) childminders (ii) day nurseries and pre-schools (iii) out of school clubs and holiday schemes.

Workforce

	80% or more of the childcare services registered to offer uEE places in the Planning Area state that staff recruitment is a barrier to them offering more funded places.
	50% or more of the childcare services registered to offer uEE places in the Planning Area state that staff recruitment is a barrier to them offering more funded places.

State of local childcare providers:

Quality

	Less than 60% of the inspected childcare services in the Planning Area have been judged Good or Outstanding by Ofsted.
	Less than 75% of the inspected childcare services in the Planning Area have been judged Good or Outstanding by Ofsted.

Capacity

	More than 80% of the childcare services registered to offer uEE places in the Planning Area state that they are unable to offer more funded places because of staff-to-child ratios.
	More than 50% of the childcare services registered to offer uEE places in the Planning Area state that they are unable to offer more funded places because of staff-to-child ratios.

Premises

	More than 80% of the childcare services registered to offer uEE places in the Planning Area state that they are unable to offer more funded places because of space/layout of premises.
	More than 50% of the childcare services registered to offer uEE places in the Planning Area state that they are unable to offer more funded places because of space/layout of premises.

Expertise

	Of those staff members working directly with children in Early Years childcare services in the Planning Area, the percentage with GCSE at Grade C or above is 10 percentage points or more lower than the county average in both Maths and English.
	Of those staff members working directly with children in Early Years childcare services in the Planning Area, the percentage with GCSE at Grade C or above is 10 percentage points or more lower than the county average in either Maths or English.

Accessibility of childcare:

Affordability

	The average charges per hour of places at childminders, day nurseries and out of school clubs in the Planning Area are all above the West Midlands average.
	The average charge per hour of places at either childminders, day nurseries or out of school clubs in the Planning Area is above the West Midlands average.

Proximity

	More than 2 non-contiguous regions in the Planning Area have no childcare services within 3.5 kilometres.
	1 or 2 non-contiguous regions in the Planning Area have no childcare services within 3.5 kilometres.

Ensuring sufficient childcare for: 2 year olds taking up free places *

	There are no childcare services registered to offer 2Help places in the Planning Area or more than 95% of the total available 2Help places in the Planning Area have been filled.
	More than 90% of the total available 2Help places have been filled in the Planning Area.

3 and 4 year olds taking up free places *

	There are no childcare services registered to offer uEE places in the Planning Area or more than 95% of the total available uEE places in the Planning Area have been filled.
	More than 90% of the total available uEE places have been filled in the Planning Area.

School age children *

	There are no known out of school clubs in the Planning Area or more than 95% of the total available places at known out of school clubs have been filled.
	More than 90% of the total available places have been filled at known out of school clubs in the Planning Area

Children needing holiday care *

	There are no known holiday schemes in the Planning Area or more than 95% of the total available places at known holiday schemes have been filled.
	More than 90% of the total available places have been filled at known holiday schemes in the Planning Area

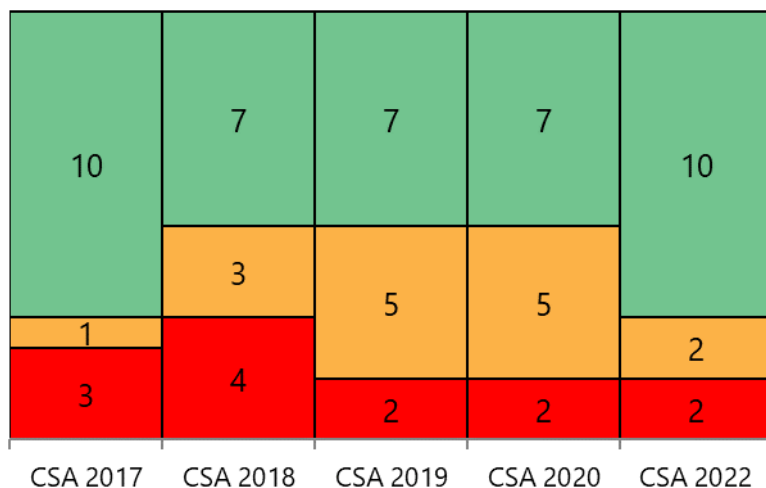

Areas of deprivation *

	The Planning Area has one or more pockets of deprivation and the number of childcare places per child is less than 80% of the average number of childcare places per child in Planning Areas that have no pockets of deprivation.
	The Planning Area has one or more pockets of deprivation and the number of childcare places per child is less than 90% of the average number of childcare places per child in Planning Areas that have no pockets of deprivation.

Data sources

There follows a list of the primary data sources used in the production of this assessment. In all cases, the data most closely corresponding to autumn term 2021/22 was used.

Source	Data used
Childcare Sufficiency Survey	<p><i>This survey is produced by the Early Years & Childcare Entitlements, Sufficiency & Business and Business Intelligence teams. It is specifically designed to support the Childcare Sufficiency Assessment. As such, data from the survey has been used throughout the assessment, including Early Years provision, places and costs, and the limiting factors affecting the ability of childcare services to offer more places.</i></p> <p><i>The most recent survey was conducted in October 2021. There were 480 responses from Warwickshire childcare providers. Responses were received from every district and every Planning Area. There was a 100% response rate from those childcare services registered to offer funded places.</i></p>
Early Years & Childcare Entitlements, Sufficiency & Business	<p><i>The numbers of childcare providers registered to offer 2Help and uEE places.</i></p> <p><i>COVID-19 Business Health Check surveys.</i></p> <p><i>Out of school club and holiday provision surveys.</i></p>
Family Information Service	<i>Childcare providers, types, charges and locations.</i>
Department for Education	<p><i>Early Years Foundation Stage assessment results.</i></p> <p><i>2Help eligibility numbers.</i></p>
Office for National Statistics	<i>Mid-year population estimates.</i>
South Warwickshire NHS Foundation Trust	<i>The number of new births.</i>
HM Revenue & Customs	<i>The number of families with dependent children.</i>
Ministry of Housing, Communities & Local Government	<i>Indices of Multiple Deprivation data.</i>
School Health and Wellbeing Service	<i>Child development data from the Wellbeing and Lifestyles Behaviour Review.</i>
Integrated Disability Service	<i>IDS caseload numbers for SEN/D children</i>
Department for Work and Pensions	<i>Disability prevalence in children from the Family Resources survey.</i>
