

Hong Kong Welcome Programme BN(O)

How can we help?

At Migrant Help, our dedicated team of client advisers are here to help with a range of support options to help you gain employment, self-employment or business training in the UK. We offer tailored support specific to your needs and can support every step of the way.

Providing information and guidance, we will support you to access community networks, initiatives, activities and services to support and welcome you into the local community. We provide support across the UK delivered virtually, or in person where practical.

Our support offering is focussed on employability by

- Offering practical support to overcome barriers to employment
- Employment / recruitment support
- Training skills
- Qualification conversion
- Job searching / CV writing
- Understanding the jobs market
- Self-employment
- Business training
- Signposting to services to improve English skills

Where needed, we will use the high-quality translation services of Clear Voice, to ensure clients are supported in their own language and fully understand the support and services available to them.
