

Severe weather damage funding for road repairs

In March, the Secretary of State for Transport confirmed that Warwickshire County Council's application for funds from the Severe Weather Recovery Scheme had been successful, and that he had allocated £1.98 million for highway flood recovery works in Warwickshire.

For further information see the [Department for Transport news story showing the regional breakdown of the extra funding to repair local roads damaged by severe weather](#).

Working with Balfour Beatty Living Places, Warwickshire County Council will deliver a multi-million pound damage repair programme, using funding from Central Government, from the Severe Weather Fund. We plan to use this £1.98 million to fund additional highway maintenance works that deliver damage repair works at the following locations:

<u>Road number</u>	<u>Locality/Road</u>	<u>Project</u>	<u>Site extent Description</u>
