Briefly, why do you believe this route is a public right of way?

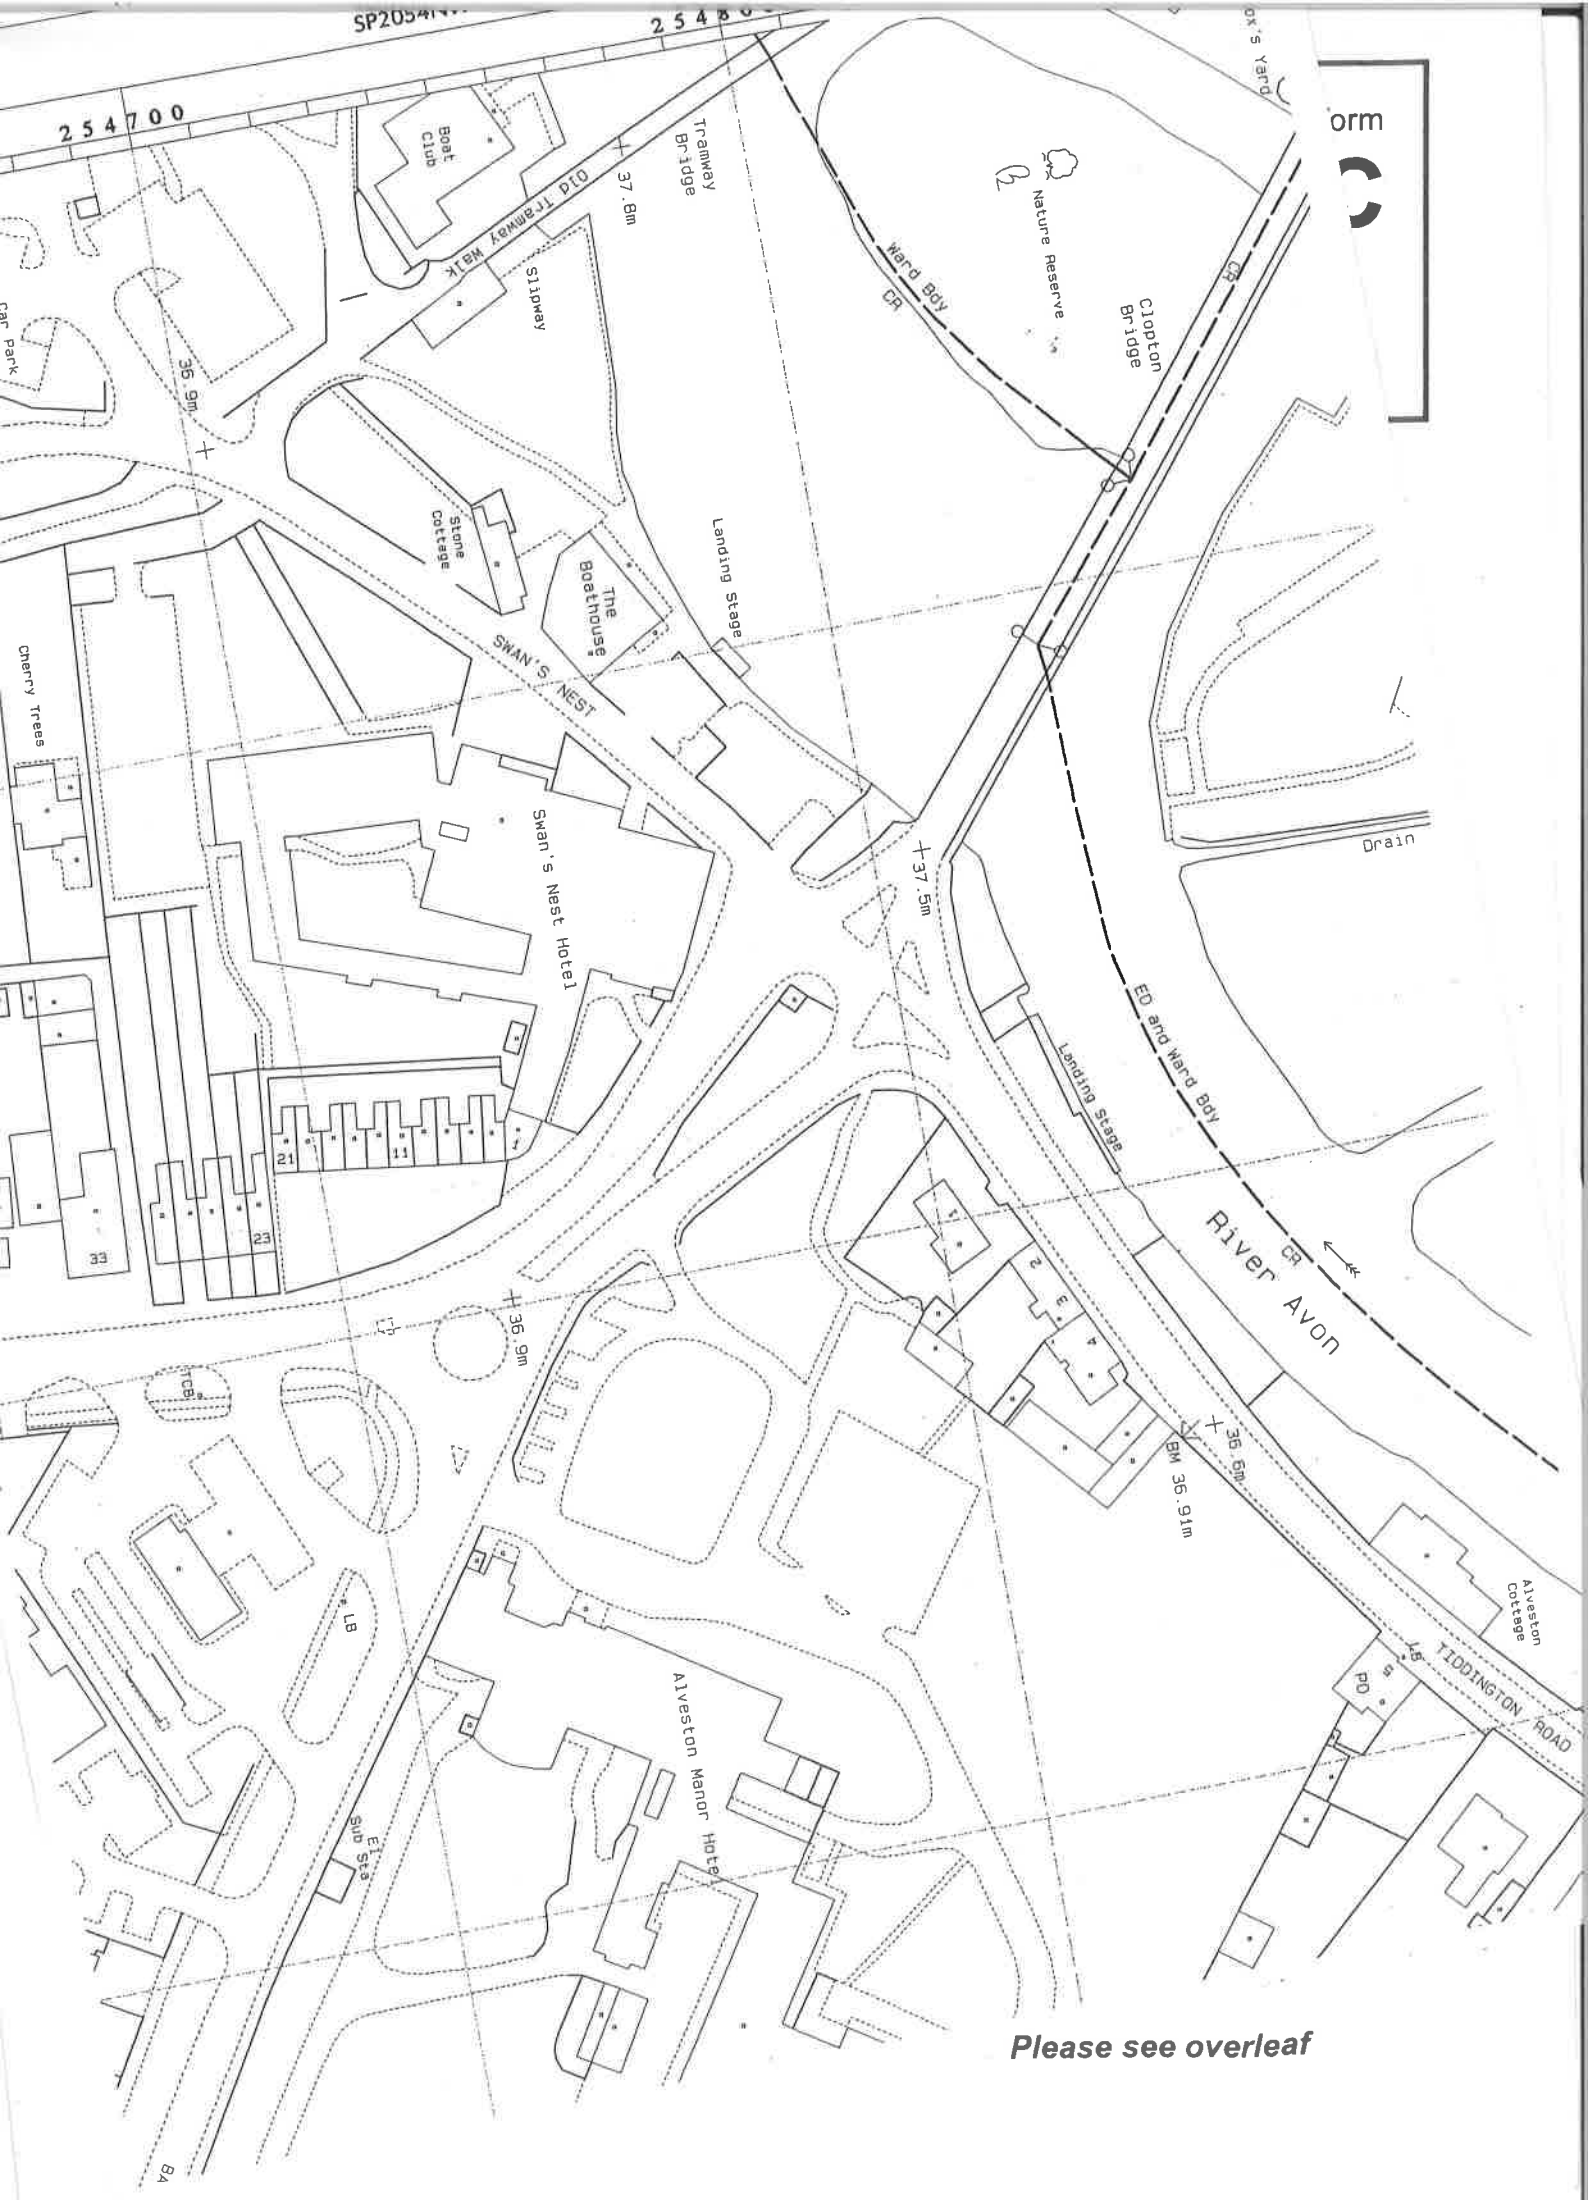

There is evidence from local residents, that the passage has been in continuous use since at least 1959 and before that time as far as can be ascertained.

List your evidence and references

1. Witness statements testifying to the use of the passage way for at least 20 years.
2. No notices posted to the extent effect that this passage way is private land and permission granted as a way through for pedestrians.

please add a separate sheet if you need more space

The path runs from the Shipston Road, close to the pedestrian crossing opposite the Shell petrol station, and follows the brick boundary wall of house number 23. For about half its length (about 19.5 metres), as it approaches the Victoria cottage on the right hand side, it is also bounded by a low metal chain link fence to keep pedestrians from the grassed area in front of the cottages. The path is approximately 1.3 metres wide until it reaches the section where the cottage end wall and the house wall are nearest to each other and the path narrows considerably to about 0.5 metre. A metal fence and gateway (which is locked during the evening to prevent access) has been erected at this point. A sign at chest level, attached to the gate support on the RHS, gives the opening/closing times. The ground is very uneven and rutted and is often waterlogged after heavy rain. The puddles can be several centimetres deep and spread across the whole path the surface is basically packed earth covered with a thin layer of stone chippings most of which have been ground into the earth. After passing through the metal gate the path runs between the house brick wall/garden wall of number 23 on the LHS and cottage end brick wall/2 metre high wooden garden fence on the RHS for a further 15.5 metres or so until passing through a 2 metre high wooden garden type gate (which is locked during the evening to prevent access). The width of the path is approximately 1.2 metres wide at the end point (a sign on the fence post at knee height gives the opening/closing times) and from there passes into the Swans Nest hotel car park at the rear of the hotel. The pathway then enters the hotel car park, taking a mid line to avoid parked cars in the parking bays on either side and avoiding any other service vehicles, past the non functioning barriers to the hotel car park and onto the short joint hotel car park/The Cherry Trees' access road to emerge onto the Swans Nest road directly opposite the pedestrian bridge over the Avon.
