As shown on the attached map.

Please describe the route carefully and explain exactly where the route starts (from a point on a road or path), the line it follows and exactly where it finishes. Colour the line of the route on a 1: 2500 scale Ordnance Survey Map and mark the position of any obstructions, fences, stiles or gates. Also note the width and surface type of the route at several points if it varies.

If possible give an Ordnance Survey 8 figure grid reference for the start and finish of the route.

Grid References: Start SP065633 Finish SP065631

Description: Path is located off the A448 Bromsgrove Road in Studley Wals, opposite a cutting from Warner Close. It runs south east along the edge of the field, then turns through ~~is~~ 90 degrees to run along the south west edge, parallel with the A448. It then passes through a cutting into a second, larger, field, whose landowner is happy for us to walk around its edge.

There is a stile at the A448 entrance, the path is 3ft wide and the surface is grass.

Briefly, why do you believe this route is a public right of way ?

..... I have used the path for 12 years, others have used it
..... for over 20 years. Through common use and practice
..... it has been used for generations, before the field on
..... the left of the map (the huge one) was formed out of
..... many smaller fields. Obviously we would like future
..... generations to continue to enjoy it.....
