Subject: Re: Cost of bus shelter

Dear Corinne (Clerk to Bishop's Tachbrook Parish Council),

Proposed Provision of a Bus Shelter at Bus Stop on Harbury Lane opposite Heathcote Park

Thank you for your email seeking guidance on the potential cost of installing a small bus shelter on Harbury Lane primarily aimed at serving residents at Heathcote Park, which has been forwarded to me for attention.

My understanding is that a new bus shelter is desired due to changes to the routing of the local bus network in response to new residential development in the area in recent years which has substantially reduced the number of buses stopping at the bus stop on

Harbury Lane o/s Heathcote Park which had been provided with a bus shelter in recent years funded via a Section 106 Developer contribution.

In response to your query I estimate the supply and installation of a small bus shelter at the Harbury Lane bus stop would cost in the region of £5,000. Please note that it is highly likely that an additional small sum, possibly in the region of £1,000, would be required to clear vegetation on WCC maintained highway at the bus stop in order to create sufficient room for a bus shelter to be accommodated at the bus stop. Therefore, I envisage that a total funding sum of £6,000 would be required.

I anticipate that WCC County Highways should be able to provide the Parish Council with support in arranging the vegetation clearance work for a nominal fee included in the estimate above. Please note that if the proposed provision of a bus shelter is progressed to implementation the Parish Council must agree to assume responsibility for the cleaning and maintenance of the structure immediately upon installation, in order to obtain approval from WCC County Highways for the structure to be erected upon WCC maintained highway.

Prior to taking a decision on whether or not to fund the proposed bus shelter, it would be prudent for the Parish Council to consult with the WCC Passenger Transport Team in order to obtain a steer regarding the future of the local bus network on this section of Harbury Lane in alignment with continued new residential development growth in the vicinity. The appropriate contact for the Parish Council to engage with is as follows:

Andy Stokes
Network Planning Manager
Tel: 01926 412112
Email: andrewstokes@warwickshire.gov.uk

The bus shelter on Harbury Lane o/s Heathcote Park was supplied by Queensbury Shelters Ltd who are now named GW Shelter Solutions Ltd. For the Parish Council to obtain a Quotation covering the supply and installation of a bus shelter the appropriate contact is as follows:

Glen Wilson
Managing Director - GW Shelter Solutions Ltd
Tel: 02392 210052 / Mobile: 07885 799584
E-mail: glen@gwsheltersolutions.co.uk
Web: www.gwsheltersolutions.co.uk

I hope this note is useful.

In the village, we have an ageing population as well as many people living alone. A local walking initiative called Walking for Health has done wonders to bring these people together. There are new friendships that have</p>	

	<p>developed, purely from this group. And so to be able to extend the love and health benefits of walking to these and others, is a large reason for the project.</p> <p>In addition, we have a new Social Prescriber at our GP practice. One of her roles is to assist patients who may exhibit anxiety, loneliness and mental health issues, and to signpost them to groups and activities that may assist in their recovery.</p> <p>The map will show the local amenities such as the pub and shop, which encourages new people into these local businesses.</p> <p>We will keep people involved of our activities via the parish newsletter, website and Facebook page. There are a number of community groups who share each other's information via these routes, namely Budbrooke Community Centre, Budbrooke Village Hall, Hand Hampton Magna News. We will ensure the updates are shared via these routes too.</p>

Hi all

Les, can you send an email to Rosalind confirming your support for this grant? Jan or Alan, can you do the same?

The deadline is 5pm today. Sorry its late. It has been a manic week! I'll send you the completed form shortly but from what I can see on the guidance notes, you only need to confirm by email not actually sign anything.

Would you copy me in too, for my records.

Thanks

Rhonda

Subject: Red Telephone Box Restoration - Proposal
Attachments: Kiosks secured for delivery.JPG; RWUK LOGO.jpg; RWUK AD.jpg; Installation.JPG; Corner-post-compressor.jpg; hb1 cropped.jpg; village information.jpg; working with councils.JPG; mus11.jpg; Rolls Royce K6 - Copy.JPG; American Pickers.jpg

Dear Rhonda,

Firstly thank you for your initial phone call & your interest in our unique kiosk restoration service.

Ideally I require a few photographs of the Telephone Kiosk, including internal shots looking up at the four corner pillars. Please advise any visible cracks, fractures, breaks or missing sections of cast iron. We are currently involved in the restoration of various Council adopted Kiosks & customers own kiosks thus a museum spec restoration is £4, 150 plus haulage (see below)

Rhonda, has the kiosk retained its inner concrete floor? Ideally this needs to be removed prior to collection, alternately we can transport the kiosk 'as is' & remove the concrete floor once at our premises. There would however be a £140 removal & disposal charge to be added. To advise we cannot offer on on site service for concrete removal.

Cosmetic welding repairs such as fractures in glazing bars are repaired in the initial price quotation providing the overall length of weld does not drift beyond 12" (30 cm) Any additional unforeseen damage, such as crucial structural repairs that require welding, or reinforcing plates fabricated/installed, would be subject to a supplementary estimate. I would advise any necessary additional work for your approval prior to starting.

Each restoration takes between 5-7 weeks.

Professional & experienced collection & delivery is via our haulier. Heavy haulage is charged by the mile, namely £1.70 + VAT per mile. (see below for pricing)

Please take a look at the company profile below – we are different from the rest – for good reason!

Thought:

Red telephone boxes, recognised and appreciated by all nations, reflect our historic development in communications and architectural achievements. Designed by Sir Giles Gilbert Scott, the illustrious K6 kiosk, with its distinctive domed roof and geometric sculpture play a vital role in British heritage and culture, and have done so for over 80 years! (*Carl Burge –RWUK*)

WHY CHOOSE REMEMBER WHEN UK?

Every kiosk restored by Remember When UK comes with a fully detailed photographic portfolio showing & explaining in detail all aspects of the project.

The reason behind supplying a photographic history is to make you, the customer as much part of the project as possible, showing exactly how your money is being spent! All of the photographic history of the restoration is forwarded at regular intervals during the restoration process whilst being 'burnt' onto compact disc as a keepsake for the future.

Carl Burge from Remember When UK has been in the restoration, paint & panel work industry for over 30

years working on classic cars such as Rolls Royce, Jaguar, Bentley & Porsche. Nine of those years devoted to Mercedes Benz. Remember When UK was established in 2001.

NAME DROPPING!

We have restored kiosks & supplied other British artefacts to many recognised household names including Ben Sherman, Ted Baker, Marks & Spencer, BBC, British Gas, Cool Britannia, Osprey, Sun Newspapers, Marriot Hotels, Sony UK, NSPCC to name but a few & have been viewed on ITV & the BBC news channels. We are currently involved in restoring adopted K6 Council owned Kiosks & have been given the 'Golden Ticket': fully restoring & delivering a museum specification K6 Red Telephone Box to the Headquarters of Rolls Royce – a testament to our pedigree!

THE DIFFERENCES?

Can other firms provide photographs of the restoration? Are all the joints & casting flaws sealed? Sandblasting removes all traces of special putty from between the joints of a kiosk - an essential part in kiosk construction & a 'must have' in kiosk restoration. If these joints are not filled, the shell will look 'sectional', unattractive & create water traps that can harbour rust! A sandblasted shell will depict imperfections & 'pop flaws', again these require surgery. Has the door been sandblasted? A definite 'no-no'! All K6 kiosk door frames are made from Teakwood & can lose precious strength once sandblasted. Sandblasting also opens the grain of the wood & creates deep gully's or grooves... not attractive once painted! All our doors are exact emulations, produced from sustainable Sapele & hand crafted by our joiner.

We also supply period interiors. 'Jubilee' interiors are superb emulations of period telecommunications that were installed in all British Telephone Boxes between 1936 to around 1968 that not only look impressive but also function & add great value to your kiosk! (Priced at £1,650 inc installation) These include an A/B coinbox, working telephone, shelving units, period notices, a mirror, even period London phone book Directories! – Have a look - <http://www.redtelephonebox.com/items/jubilee-interior/>

Discrete locks can also be added to the door to prevent entry. (priced at £175 a pair, inc installation)

CAN WE HELP YOU?

Rhonda, I'm extremely busy with restorations at present - 7 such examples being fully restored for customers & Councils. Currently booked up until July/August 2020. Being a small business I have to work on a 'first come' basis & take work on in order. We can arrange collection, should you wish to proceed, when it best suits you, offering two storage facilities & do not charge a storage fee for pending work –

Our general terms are 50% deposit with the order, the balance payable on kiosk completion; pre delivery. Should you wish to place an order for restoration I am quite happy to accept to waive this payment as I will be keeping you waiting quite a while! I would however require a 'Placement Securing Deposit*' of £900.00 at the earliest convenience. This deposit ensures your guaranteed position in my somewhat large line of pending work.

Full invoicing & receipts provided as standard.

The initial 50% deposit, goes towards buying in required components & would be required approx. 5 weeks prior to the restoration starting; notifiable by telephone call or email. Again, full invoicing & receipts are provided as standard.

.....
*Please Note:

The 'Placement Securing Deposits' allows us to keep an open window for a specified telephone box to be refurbished during a particular period of time. This payment is fully refundable for 31 days from the date of

receipt only. We reserve the right to retain this amount should, for what ever reason, the contract be terminated after the 31st day.

HAULAGE:

Professional & experienced delivery is via our haulier. Heavy haulage is charged by the mile, namely £1.70 plus VAT. Installation is to within the vehicle cranes reach (approx. 24 feet from centre of lorry bed) If it's not possible to install the kiosk by means of Hiab crane to the chosen location, additional machinery & labour would be required. Therefore a supplementary estimate would be provided based on the findings. Our haulier is based in Ely, Cambridgeshire. We are based in West Winch, Norfolk.

Based on the provided postcode CV35 8UG, the collection charge would be £388 plus VAT. Please remember there will be a similar charge on the return of restored kiosk

I look forward to hearing from you in due course.

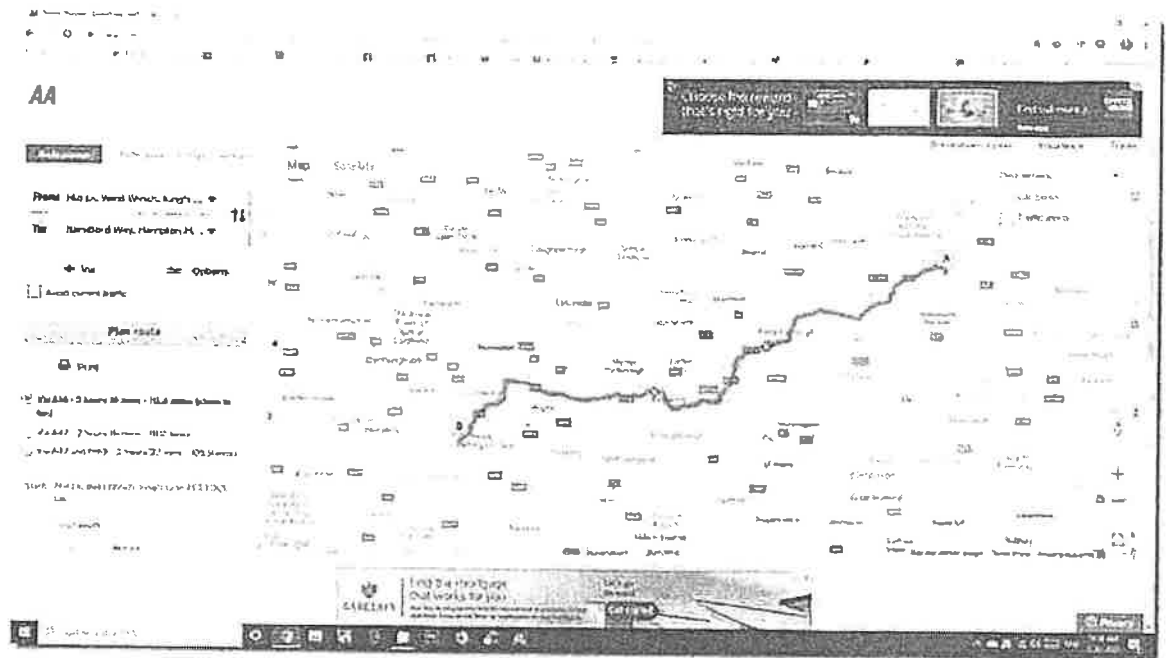

With warmest regards,
Carl Burge
